

## Multnomah County Public Health Advisory Board Minutes April 2023

Date: Thursday, April 27, 2023

**Time**: 3:30-5:30pm

**Purpose:** To advise the Public Health Division on several areas of work with a strong focus on ethics in public health practice and developing long-term public health approaches to address the leading causes of death and disability in Multnomah County.

## Desired Outcomes:

- 1. Strengthen our bonds of community and trust
- 2. Learn about the Climate Justice Plan and provide input
- 3. Hear an update on the 2023 Legislative Session and discuss paths for board feedback
- 4. Determine whether changes are needed for the Bylaws

**Members Present:** Ronica Reimers, Courtney Wood, Erika Zuel, Mz Cheryl, Jennifer Phillips, Karen Wells, Keara Rodela

**Multnomah County Staff:** Christina B, Jen M, Jessica G, Andrea H, Brendon H, Tim L, John W, Jairaj Singh, Dan Trifone, Ann Loeffler, Stacy Cowan

Community Members: Hilary Nichols, Isabel Sanchez, Maria Sipin, Leah Walters

Item/Action	Process		
Welcome & Introductions	Attendees introduced themselves		
Agenda & Minutes Review, Public Comment	<ul> <li>February meeting minutes were approved by consensus</li> <li>Public Comment         <ul> <li>Public Comment</li> <li>Organizing on insurance and incarceration</li> <li>Addressing structural determinants of health, especially related to the carceral system</li> </ul> </li> </ul>	Ronica Reimers	
Climate Justice Plan Roadshow	<ul> <li>See <u>attached slides</u> for more details</li> <li>MCHD Environmental Health is now resourced to address climate health issues through Public Health Modernization funds         <ul> <li>Working in partnership with CBOs like CCC</li> </ul> </li> <li>Climate justice is one of the greatest challenges and opportunities for PH; profound health equity issue</li> <li>Office of Sustainability - formed in 2010         <ul> <li>John and Tim from Multco Office of Sustainability</li> <li>Recognize PHD at the forefront of climate crisis, responding to sources of pollution, driven by data and lived experience</li> </ul> </li> <li>Environmental Health - Healthy Homes and Communities Team         <ul> <li>Brendon, Dan and Jairaj from MCHD Environmental Health</li> <li>Catastrophic climate hazards, i.e. heat dome, other hazards that we may face</li> <li>Working with WA and Clack on Regional Climate and Health issues such as vector-borne disease, mental health and climate anxiety, etc</li> <li>Heat Vulnerability Index - mapping app that can help identify areas where we can direct resources</li> <li>History of climate work at Multco - shared timeline mapping out major plans and policies over the past 30 years in regards to climate action</li> <li>Principles and policies of climate justice has lacked PH lens             <ul> <li>Shared diagram on the role PH can have on climate action</li> </ul> </li> <li>Climate Justice Plan - County's flagship effort on climate planning         <ul> <li>Community driven climate justice planning</li> <li>Characteristics: effective, place-based, collaborative, equitable, life-affirming, integrative</li> <li>Different from top-down planning in that it sees front line communities as the experts, prioritizes personal stories and qualitative data, properly</li> </ul> <td>Andrea Hamberg, Brendon Haggerty, Jairaj Singh, Dan Trifone, John W</td></li></ul></li></ul>	Andrea Hamberg, Brendon Haggerty, Jairaj Singh, Dan Trifone, John W	

	compensates communities	
	o Advisory Committee on Sustainability & Innovation   Multnomah County	
	(multco.us)	
	o <u>East County Learn Share Do Fair   Multnomah County (multco.us)</u>	
	<ul> <li>Uses National Association of Climate Resilience Planner's framework as a guide</li> </ul>	
	<u>Home   nacrp</u>	
	o Timeline	
	<ul> <li>June 2023 - virtual conveying to present key findings and draft framework</li> </ul>	
	<ul> <li>July 2023 - Dec - Steering Committee meetings</li> </ul>	
	<ul> <li>Sept 2023 - Climate Justice Summit w/ additional stakeholders</li> </ul>	
	<ul> <li>December 2023 - Climate Justice Report complete</li> </ul>	
•	Questions	
	o Success rate of plans and policies that have happened since 2003	
	<ul> <li>Plans have focused on mitigation - i.e. reducing greenhouse gas</li> </ul>	
	<ul> <li><u>Climate Action Final Progress Report 2020</u> - structured around 5 year actions</li> </ul>	
	<ul> <li>Changes - power shift and organizing to think differently about how this work happens between government and CBOs</li> </ul>	
	<ul> <li>Inventory of action County and City committed to - but doesn't reflect shifting to community organizing model</li> </ul>	
	<ul> <li>Way to start this work to transform systems and move toward</li> </ul>	
	<ul> <li>community driven collaborative governance models</li> <li>City of Portland <u>Carbon Emissions tracking</u></li> </ul>	
•	What would you want the County to do to address the climate impacts you've	
	witnessed? Or what climate changes have you witnessed?	
	o Courtney - have lived here for 12 years, witnessed evolution from 1 snow event	
	per year to 1 every couple months - are we prepared?	
	<ul> <li>County actions - how do you respond, and how do you mitigate? Both are needed</li> </ul>	
	<ul> <li>What systems are set up to respond to various events?</li> </ul>	
	<ul> <li>How is this changing growing patterns - agricultural region,</li> </ul>	
	changes what grows here	
	<ul> <li>Look to the County - soliciting input on how we incentivize</li> </ul>	
	changes needed (i.e. what's grown)	
	<ul> <li>What can the County do to respond to emerging issues, what</li> </ul>	
	can we do to respond so they're not such an emergency?	
	o Erika - can't walk in East County because it's too hot, no trees	
	<ul> <li>Powell Blvd (from 148th-181st) has cut down most trees</li> </ul>	
	<ul> <li>It's difficult for people to walk on that street generally speaking,</li> </ul>	
	and now even more because there's no shade	
	What's the balance between protecting against fires, and     protecting people in public apages	
	protecting people in public spaces	
	<ul> <li>Hilary - Houseless, warming/cooling shelters need attention - grew up here and it never got above 90 degrees. Many folks have issues getting into shelters. 211</li> </ul>	
	wasn't very helpful. Coordination efforts could be improved - could be dire this	
	summer.	
	Brendon	
	Bricks and sticks - City	
	<ul> <li>Health and Human Services - County, think about what's within</li> </ul>	
	our typical scope	
	o Karen - fire season happens sooner, hotter and longer. Portland is in the valley	
	and we get the smoke. Elders and small children who have breathing issues	
	experience problems. Is there education in place for the most vulnerable to	
	protect their quality of life during those seasons? Box fans are helpful but that	
	isn't always available to all.	
	o Jennifer - how can we help folks of all classes invest in non-gas cars	
	<ul> <li>Done a lot to develop bike sharing, car sharing, electric scooters, etc</li> <li>Next stops - incentives for people to hux electric vehicles</li> </ul>	
	Next steps - incentives for people to buy electric vehicles	
•	What's in scope vs out of scope for Climate Action Plan? o John - 2015 action plan focused on mitigation and adaptation	
1		

I		
	<ul> <li>We need to do both and there are ways that we can do both with some measures</li> </ul>	
	<ul> <li>Replacing wood stoves that pollute at high levels, but are necessary for folks to stay</li> </ul>	
	<ul> <li>Replacing with heat pumps - heat in coldest months, and</li> </ul>	
	summer	
	<ul> <li>Red pollution and resilience</li> <li>Can also replace other inefficient heat sources</li> </ul>	
	<ul> <li>Can also replace other inefficient heat sources</li> <li>Plant more trees - provide shade, reduce CO2</li> </ul>	
	<ul> <li>Moving away from fossil fuel use - improve air quality</li> </ul>	
	<ul> <li>Electric vehicles, allocating ROW, incentivizing other mobility options</li> </ul>	
	(i.e. electric bike)	
	<ul> <li>PH perspective - climate resilient - also getting a healthier community -</li> </ul>	
	work physical activity into your daily routine, healthier environment,	
	<ul> <li>healthier community</li> <li>Lower carbon, more resilient, healthier community</li> </ul>	
	<ul> <li>Cover carbon, more resilient, nearmer community</li> <li>Worst impacts of fossil fuel combustion concentrated in communities of</li> </ul>	
	color, result of racism	
	• Karen - Are there conversations about the link between population and climate impact?	
	o Looking at increase in migration and what that means for people's health	
	o Depends on how much and how fast and whether we have the infrastructure set	
	up to meet needs	
	<ul> <li>John - Population density is not correlated with climate health - theory has been debunked</li> </ul>	
	<ul> <li>Andrea - shared thanks for participation in conversation</li> </ul>	
	o Been doing this work for a while - building towards a whole public health	
	response to climate change - both red GG and building more resilient	
	communities - can do both at the same time	
	<ul> <li>Expertise in responding to events</li> </ul>	
	<ul> <li>Strong team focused on communicable disease reduction - do work</li> </ul>	
	<ul><li>from community based perspectives</li><li>Not only are people with communicable diseases more likely to be</li></ul>	
	impacted by climate crises, but the things that we can do to protect from	
	climate impacts can also improve health	
	<ul> <li>Will be back to talk with MCPHAB as we roll out the Catastrophe</li> </ul>	
	Hazard Plan, Heat Index, etc.	
	OR legislature operates in a biennium - this year is a short session	
	o May 17th - budget forecast is released
