## Discussion Notes:

### Reminders and updates

- Washington County has decided to terminate their contract with Multnomah County due to cost (\$619/bed per day, compared with Marion County at \$226/bed per day; Yamhill county is also cheaper)
  - This represents a \$2 million cut to our budget (11 beds)
  - Our capacity is 40 beds, with 29 of those for Multnomah County

- We currently have 38 youth in Detention
- We are still an alternative emergency site for other Detention Centers
- Questions:
  - For those who will no longer be coming to our facility, will they be receiving the same level of resources/services? **ACTION:** Kyla will share a document that outlines the services offered in Multnomah County's Detention
- Caleb Falconer – Part of Corrections Health, has been invited to join the committee moving forward.
- In Kyla's absence, Kate will be the chair of the committee. Senior Manager Silvia Gomes will be the JSD liaison.

### **Adoption of Charter**

- This will be moved to the next meeting

### **Corrections Health Presentation (Caleb Falconer)**

- The cost of medical services may contribute to why the cost is higher at Multnomah County's Detention
- Corrections Health (CH) provides
  - Intake support – develop a plan of care for each youth (confirming medication regimen, detox services, STD and pregnancy screening, mental health screening)
  - Distribution of medicine to youth
  - Immunizations (COVID, flu etc.)
  - Labs
  - Weekly clinic with provider
  - Weekly mental health provider (crisis management-focused, not restorative therapy)
