To whom it may concern,

I, Jordon Gross, am a current resident of unincorporated Multnomah County in Corbett. Climate change as we have all witnessed with our recent fire seasons growing out of control. I was astounded to hear how difficult it is to get solar panels because of county regulations. I am asking as a citizen, to make it an easy process for residents to help be a part of the solution. We need to make it easier to get solar panels at this time in history.

Thanks,  
Jordon Gross
