Program Characteristics: Measure 5 Education, In Target

Executive Summary

Community & Adolescent Health (CAH) programs aim to reduce the leading preventable causes of death, namely chronic disease (e.g., heart disease, stroke, diabetes) and injuries (e.g., drug overdose, traffic accidents, homicide, suicide). CAH employs place-based strategies that address the shared risk factors for chronic disease and injury and a focus on the particularly formative adolescent stage of the life course, including laying the groundwork for sexual and relationship health. CAH programs focus on the social determinants, neighborhood conditions, trauma, and toxic stress at the root of these adverse health outcomes. CAH leads with the goal of eliminating racial and ethnic health disparities by addressing systemic racism’s role in driving socioeconomic and other inequities.

Program Summary

Research shows zip code is a key determinant of health. Neighborhoods with socioeconomic disparities (higher poverty, lower educational attainment, disinvestment/gentrification) also have significant health disparities (chronic disease, exposure to violence and trauma, sexual/reproductive health). These geographic patterns also align with racial demographic distribution, highlighting the impact of systemic racism and de facto segregation. CAH works alongside community and school partners to prevent and improve these inequities through community-informed planning; training and technical assistance to build partner capacity; community health worker initiatives; communications; and policy, systems, and environmental improvements.

Programs include: Violence prevention – a public health approach including community-led projects to improve neighborhood livability, youth employment programs, and health education and teen dating violence prevention education in school and community settings. Sexual/relationship health - supporting schools to meet Oregon statutory requirements for comprehensive sexuality and healthy relationship education, child sexual abuse prevention programs, access to preventive reproductive health services, and technical support to culturally specific partners. Chronic diseases prevention - complementing other public health strategies by leveraging shared risk and protective factors for sexual health outcomes and violence that also increase access to healthy eating, active living, and smoke/nicotine-free environments.

CAH analyzes and maps local data on the leading causes of death, sexual health outcomes, incidents and exposure to violence, and other related indicators to identify the subpopulations and neighborhoods experiencing disparities. Analysis reveals stark racial disparities, informing CAH’s strategic prioritization of racism’s role in chronic disease, sexual health, and violence inequities. CAH centers community involvement and voice through cultivated partnerships, focus groups, needs assessments, and feedback loops to inform and guide program design.

Performance Measures

Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer
Output	# of youth and community members engaged in health promotion and prevention activities	8,638	5,500	9,587	8,500
Outcome	# of policies, practices, health education, and technical assistance activities	161	85	180	100
Outcome	# of community and school sites involved in health promotion and prevention activities	101	55	96	75
Quality	% of trained adults who feel confident leading comprehensive sexuality/violence prevention education	96%	85%	95%	85%

Performance Measures Descriptions

Measures 1 & 2 include school district and community-based settings. Measure 4 for is based on feedback from participants in school districts or community based settings who have participated in training(s).

Legal / Contractual Obligation

OAR Rule 581-022-1440 State of Oregon's Human Sexuality Education Administrative Rule: support school districts who are legally obligated to meet this statute. Contractual obligation(s) include those outlined by our Grantor, Federal Office of Population Affairs (OPA) for our Teen Pregnancy Prevention (TPP) funding. Since CAH works to build capacity in community settings, the program follows COVID-19 precautions related to in-person gatherings, service closures/limitations, etc.

Revenue/Expense Detail

	Adopted General Fund	Adopted Other Funds	Requested General Fund	Requested Other Funds
Program Expenses	2022	2022	2023	2023
Personnel	\$1,487,573	\$711,127	\$1,597,050	\$1,011,004

Explanation of Revenues

This program generates \$135,879 in indirect revenues.

\$ 250,000 - federal funding from the Centers for Disease Control and Prevention (CDC) Preventing Teen Dating Violence and Youth Violence by Addressing Shared Risk and Protective Factors

\$ 116,906 - Public Health Modernization Local (HPCDP)

\$ 361,109 - Federal STOP Preventing School Violence

\$ 1,616,496 - Adolescents and Communities

Significant Program Changes

Last Year this program was: FY 2022: 40060 Community & Adolescent Health

In FY22, CAH received new violence prevention funding from the Centers for Disease Control and Prevention (CDC) and the federal Department of Justice's Bureau of Justice Assistance (BJA). CAH also had carryover funds for OPA TPP. In total, FY23 program revenue is \$493,283 higher than that of FY22. CAH FY23 County General Fund is also increased by \$230,233. FY23 staffing represents an increase of 2.11 FTE from FY22. CDC COVID-19 Health Disparities funds (40199T) are also supporting capacity for work within this program offer.
