

Program #40071 - Behavioral Health Division Adult Protective Services 3/7/2022

Department: Health Department **Program Contact:** Christa Jones
Program Offer Type: Existing Operating Program **Program Offer Stage:** As Requested
Related Programs:
Program Characteristics: In Target

Executive Summary

Behavioral Health Division's (BHD) Adult Protective Services (APS) investigates abuse and neglect. Criteria that gives APS authority to open investigations include all of the following; individuals over age 18 who are receiving mental health services and/or that reside in a residential facility, and with a serious and persistent (SPMI) mental health diagnosis. APS offers community education/training to internal and external partners using a cultural lens to open dialogue regarding culture, race and protective services. Protective services are provided to individuals engaged in services and outreach/coordination and risk case management services to individuals not engaged in services or whose allegations do not meet authority to open a case for investigation.

Program Summary

BHD's Adult Protective Services is a mandated program, guided by state law, to protect adults with SPMI mental health disabilities from abuse and victimization. The program receives and screens abuse reports from mandatory reporters, community members and victims of abuse. Whether or not the incident qualifies for investigation, risk is assessed and protective services, including safety planning, are conducted to mitigate the risk of these vulnerable individuals. The Division's APS staff coordinate multidisciplinary teams to develop plans to reduce risk of harm, reduce vulnerability and connect victims and potential victims to services.

The program includes risk case management (RCM), which is unique to the State of Oregon Behavioral Health APS. Our risk case manager serves as an additional layer of support and connection for those who are most vulnerable due to mental health disability, substance use disorder, homelessness, and abuse. The APS program also has an African American culturally specific, KSA abuse investigator position to provide screening, investigation and training services in a culturally and trauma-informed manner by outreach to those BIPOC communities who historically under report to APS. This position is also unique across the State of Oregon and is instrumental in addressing the historical under-reporting of abuse in the African American community and tailoring interventions, supports and recommendations to be culturally specific. Finally, the Division's APS is responsible for providing mandatory abuse reporting training to our community partners and community members to increase their understanding of the rules, criteria, process and outcome of abuse reporting. The state now requires documentation through the Centralized Abuse Reporting database in addition to BHD's requirement for documentation in the official electronic health record, Evolv.

Performance Measures

Measure Type	Primary Measure	FY21 Actual	FY22 Budgeted	FY22 Estimate	FY23 Offer
Output	# of screenings/investigations ¹	1369	1000	1228	1,000
Outcome	# protective services screening referred to Risk Case Management ²	79	80	71	80
Outcome	Number of community education presentations ³	25	25	25	25

Performance Measures Descriptions

¹Adult protective services are offered to every alleged victim either directly or through safety planning with the provider, which happens at the screening level. Not all screenings result in investigations.

²Cases referred to risk case management increased in acuity, therefore fewer cases were able to be assigned to this role (1FTE).

Legal / Contractual Obligation

The LMHA shall conduct the investigations and make the findings required by ORS 430.735 to 430.765 for allegations of abuse of a person with mental illness being served in a program paid for by Multnomah County.

Significant Program Changes

Last Year this program was: FY 2022: 40071 Behavioral Health Division Adult Protective Services

Since the onset of the pandemic, APS screening calls have increased and the demand for Risk Case Management (RCM) services has increased proportionately. The RCM team provides in-home and/or community-based services. Due to increased community violence (on transit or downtown streets), including direct threats against staff, the team is now providing these services in pairs. While this promotes staff safety when in the community, it results in more time spent providing fewer client contacts for the RCM service.
