Program Characteristics:

Executive Summary

The Albina Library project builds approximately 42,000 sf of library space and administrative offices on the existing Knott Street/Isom site. Project decision considerations include Library pillars, priorities, environmental sustainability, and operational efficiencies.

Program Summary

This multi-year project is expected to complete design, obtain permits, establish the Guaranteed Maximum Price (GMP), and start construction in FY 2023. The project builds an approximately 42,000 sf new library which includes ~30,000 allocated to a new library space and ~12,000 square footage allocated to library executive administration space on the existing Isom/Knott Street site.

The new Albina Library will be a destination library -- 30,000 to 60,000 square feet, providing a rich variety of services, resources and spaces to meet the needs of the diverse communities.

Community outreach and engagement will utilize diverse approaches through virtual, in-person and additional community meetings with translation and interpretation services. The building design will also receive input from the Youth Opportunity Design Approach (YODA), paid teen community members who will join the design team.
