

## How to find Providers for Family Caregiver Support

- For respite services, clients can use one of our contracted agencies listed below or search for an area agency who is willing to work with Multnomah County.
- When calling a non contracted agency for inquiry it is important to ask if they would accept payment from Multnomah county. Let them know that we will send a guarantee of payment and a copy of the award letter before services begin. The guarantee of payment will give them all the information they need to invoice Multnomah County. The award letter will also provide them the information about the amount of the grant/award and that any amount over the award amount would be private pay in agreement with the family caregiver.
- Clients can search on ADRC by topic or keyword [here](#)  
On the ADRC you can search for any kind of service provider.
