Attention; Kevin C Cook, Senior Planner

Dear Mr. Cook,

Attached is a picture that I took this morning of the migrating elk in my area. Last night they were near my home and walked right through the flower boxes, and I did not even care. They are so majestic and it is a wonder to see them up so close. The photograph was taken from the road as they looked directly at me from about 300' feet away.

Please do not do anything to disrupt their migration route. I have a conservation easement on my property to allow wildlife to migrate to Forest Park and back to the Coast Range via the easement on my property and that of 11 other properties on McNamee Road. The easements were gladly and freely given to allow these beautiful elk and other wild animals to roam free.

I ask you to reconsider any development that would disrupt this opportunity to keep animals wild and free, for once it is gone and it will never come back.

Thank you for reviewing this opportunity to preserve a worthy cause.

Sincerely,

Dorinne Pedersen
