Testimony:

I have ownership of property which has 3,266.99 feet of common boundary with Metro's Ennis Creek Forest. Preparing for this Hearing, on January 29, 2023, I requested historical information from Metro. On January 3, Metro informed me that while the information was readily available, it would cost me anywhere from \$54.30-\$111.46/hour to acquire. Metro claims to operate in an accountable and transparent environment. I am a stake holder and tax payer. Why should I need to pay Metro additional money for this information.
