Equity is a core value that informs all decisions, planning and service provision in the division.

**Program Description**

This program provides financial reporting and forecasting, grant accounting, fiscal compliance, budget development, cash management and accounts payable services. Teams collaborate with the County's Budget Office and Central Finance units. Teams follow the County's budget, financial and administrative procedures, policies and practices. By managing complex federal, state, county and funder requirements, these fiscal stewards help ensure the department can achieve its mission.

The Financial and Business Management division is committed to centering equity in policy and practice and in service to the Health Department's value of racial equity and mission to reduce health disparities. The division will continually invest time and resources into identifying and then dismantling internal and external structures that contribute to inequity, including the culture of white supremacy. The division employs a finance strategy to preserve critical services and support infrastructure for improved health outcomes. We strive to build trusting partnerships with community partners we depend on and we genuinely engage with communities and staff to drive positive changes, especially in the areas of business, operational and financial management. We pride ourselves on our ability to recruit, retain and promote a diverse, inclusive and high-performing workforce. The division is working to advance the objectives outlined in the Workforce Equity Strategic plan by committing resources for an equity and inclusion committee and operationalizing its policy recommendations.
