Executive Summary

The Multnomah County Animal Services (MCAS) Field Services is responsible for enforcement of a broad range of city, county and state laws, and provides 24-hour public safety emergency response to calls concerning animals attacking and injuring people or animals, as well as 24-hour emergency animal rescue for injured, sick and abused animals. Field Services also provides investigation services for animal bite, animal abuse and neglect and other animal nuisance cases. Field Services equitably supports the community with education and assistance in helping resolve neighborhood animal issues, provides owners with tools and resources to ensure appropriate care for their pets and coordinates with other county departments to holistically support issues and concerns.

Program Description

The Field Services program delivers animal control services to ensure public safety relating to animals. Services include responding to dog attacks, investigating animal bites, quarantining animals to meet public health requirements for rabies, picking up stray or deceased animals and assisting law enforcement agencies as first responders for situations that impact pets and people in the community such as house fires, emergency hospitalization, incarceration, vehicle accidents and evictions. Services are provided seven days a week, and emergency services are available 24 hours a day. This program serves all cities and unincorporated areas in Multnomah County.

Field Services responds to and investigates all cases of suspected animal abuse/neglect/abandonment, reports of dog fighting activities and ensures that humane standards of care are provided to all animals in licensed animal facilities (boarding facilities, breeding kennels, retail stores, etc.) Field Services responds to calls regarding animal nuisance complaints and provides community education, resources and information related to responsible pet ownership and compliance with city, county, and state laws involving animals. This program handles public records requests and coordinates administrative hearings for animal-related ordinance violations.

Field Services officers are from diverse backgrounds, with multilingual capabilities. They consider equity and possible community bias in filed complaints and respond with the goal of helping community members and disadvantaged pet owners retain and care for their animals. This includes direct support for residents experiencing low income or homelessness, as well as marginalized communities that have historically been underserved. Services often include responding to pet crises within camps for people experiencing homelessness, facilitating both emergency and non-emergency veterinary care, providing education and resources for stray dog issues due to limited secure enclosures or leash compliance, and providing boarding due to unanticipated emergency crises. Officers carry pet food and other supplies to meet the immediate needs of community members.

Performance Measures

Measure Type	Primary Measure	FY22 Actual	FY23 Budgeted	FY23 Estimate	FY24 Offer
Output	Number of Calls Responded to by Officer	N/A	7,500	8,596	8,596
Outcome	Percentage of animal complaints resolved through non-punitive, supportive enforcement	N/A	90%	98%	95%

Performance Measures Descriptions

The number of calls that officers (ACO-2 positions) respond to, reflects complaints received by dispatch over the course of a year. These calls include dog attacks, cruelty/neglect, nuisance and stray animal complaints and bite investigations. Complaints resolved through supportive enforcement is a performance measure that tracks complaints where community members were provided education, resources, or other guidance that did not result in a notice of infraction or citation.

Significant Program Changes

Last Year this program was: FY 2023: 90006 Animal Services Field Services

Animal Services is partnering with the University of Wisconsin Shelter Medicine Program. One of the primary goals of the partnership is to evaluate the impacts of implementing diversity, equity and inclusion in animal control and enforcement interventions. This includes a review of current policies and practices, followed by reform or creation of new policies and practices that support the human-animal bond in our community and ensure equitable access and engagement from Field Services. The focus will be on providing resources to the community and reserve punitive interventions for instances where there is no other alternative.
