Program Characteristics: One-Time-Only Request

Executive Summary

This program offer is for contracted work to purchase and install machine guarding for all antiquated equipment with moving parts. This will improve safety for our staff, and will ensure compliance with Occupational Safety and Health Administration (OSHA) standards.

Program Description

This program will add safety guards on antiquated equipment with moving parts that present a potential safety hazard to employees and contractors. This equipment is located in buildings across the County. Facilities and Property Management (FPM) will work with the contractor to determine the priority order of replacements. Because the contractor is specialized, the ability to complete all buildings across the County is unlikely within one fiscal year. These newly designed and installed guards will bring the County equipment in compliance with OSHA. This program is in alignment with the County's safety, trust and belonging values

This project will span FY 2024 through FY 2025 and costs are projected to be \$445,000. In FY 2024 forty-eight buildings will be upgraded at an approximate cost of \$5,000/building or \$240,000. The remaining forty-one buildings will be upgraded in FY 2025 using the remaining funds from project.
