Executive Summary

Strategic Treatment and Engagement Program (STEP) Court is a specialty court designed to serve defendants charged with certain violent felonies, with a goal of reducing criminal offending through therapeutic and interdisciplinary approaches that address addiction and other underlying issues without jeopardizing public safety or due process. This innovative problem-solving court is the first in Oregon specifically designed to target and serve defendants who committed Measure 11 offenses/major person crimes. STEP Court will focus on disparities in the criminal justice system by providing non-prison options for eligible individuals charged with Measure 11 offenses.

Program Description

STEP Court operates under a specialized model to provide court-directed supervision and a wide variety of treatment to violent individuals with substance use, mental health concerns, or cognitive behavioral issues underlying their criminal behavior. This court will follow the problem-solving court model and offer alternative judicial processing for individuals accused of certain violent offenses. The program seeks to reduce both general recidivism and violent crime recidivism using evidence-based approaches, including judicial monitoring and coordination among community and treatment stakeholders. It also follows a process that encourages informed sentencing decision-making and promotes prison diversion if the participant can be safely supervised in the community. STEP Court adheres to professional standards and best practices for specialty court programs.

STEP Court will establish objective screening criteria and include equal opportunities for enrollment and participation. Preliminary demographic information suggests that this problem-solving court will expand and enhance opportunities for Black and African American defendants. Analyzing data will be central to informing future decisions to determine outcome measures by evaluating participant enrollment, retention, and outcomes.
