Executive Summary

The Medical Records Program is responsible for the internal management of all of the Behavioral Health Division's (BHD) clinical records required by Oregon Revised Statutes, Oregon Administrative Rules and Coordinated Care Organizations. BHD staff provides services to over 20,000 enrolled clients annually, all with a clinical medical/mental health record in the Evolv system. Additionally, the Call Center serves over 22,000 people, all with crisis response notes in the Evolv system, that are managed and maintained by the Records and Evolv teams.

Program Description

The Behavioral Health Division's Medical Records Unit ensures that mental health, care coordination, protective services and alcohol and drug medical records are maintained in compliance with federal and state laws and regulations, and county and departmental rules, policies and procedures. Program staff provide multiple record services including: document indexing; quality assurance; billing and administrative rule compliance auditing; data entry for reporting; archiving and retrieval; forms design and management; authorization/release of information; legal requests for records; notary services; and health information management expertise.

As the Local Mental Health Authority, BHD is also responsible for programs such as involuntary commitment, commitment monitoring, trial visit and residential services which require maintenance of an individual's medical records. BHD direct service programs are expected to serve more than 27,000 individuals, each requiring a medical record.

On October 6, 2022, the scope of the 21st Century Cures Act Information Blocking Rule expanded to prohibit health care providers from blocking or interfering with client access to any electronic information in a "designated record set," as the term is defined under HIPAA. To ensure compliance with this expanded rule, the Records Supervisor began tracking client access to records and an outcome has been added to this program offer to monitor compliance.
