Executive Summary

The IT Help Desk offer provides a single point of contact for computer system troubleshooting, information, mobile device support and technical assistance. It supports County staff in furthering their goals to serve the residents of and visitors to Multnomah County. Professional, customer service oriented staff provide support, track service requests, answer questions, offer informal instruction, resolve problems or escalate issues to other IT teams, when necessary.

Program Description

The IT Help Desk Services provides support and proactive diagnosis of computer equipment and software issues for more than 6,000 employees and business partners. By focusing on first call resolution of problems, such as inability to access documents, working with Google and Word documents, spreadsheets, and other desktop applications, the Help Desk is able to minimize escalations to other IT teams and resolve customer problems as quickly as possible. The Help Desk provides support of mobile devices in use by County staff. Mobile support includes troubleshooting and support of mobile phones and management of mobile phones in the County's mobile management tool.

Services are provided 24x7, 365 days a year to ensure that customer needs are addressed in a timely manner to enable County employees to focus on their mission to serve the public. This program is funded by internal service rates and aligns with County and DCA Mission, Vision and Values through stewardship of technology resources and supporting the mission of the County.

In addition to resolving specific issues with desktop applications and vendor provided applications, the Help Desk also provides ad hoc training for software and hardware use, to minimize future problems that hinder employees' ability to work effectively. Help Desk staff provides support and help for internal IT functions such as the Applications, Desktop, Data Center, and Administration groups. The Help Desk averages 1,900 customer tickets per month. Of those tickets, an average of 60% are resolved at the Help Desk. The remaining 40%, that are not able to be resolved at the Help Desk, are escalated to Level 2 IT support for resolution. Equity is incorporated into the Help Desk support process by ensuring we are able to effectively communicate with our customers. If there are language barriers the team will try to use the best mode of communication to connect with the customer. We use plain language (non technical) and patience to ensure the customer feels supported.

Performance Measures

Measure Type	Performance Measure	FY23 Actual	FY24 Budgeted	FY24 Estimate	FY25 Target
Output	Number of customer tickets processed	22,977	30,000	20,000	30,000
Quality	90% of customers rate the IT Help Desk as a 4 or higher on surveys (5 being the highest score)	96%	90%	95%	90%
Outcome	Percent of calls resolved at the Help Desk without requiring escalation.	60%	60%	60%	60%

Performance Measures Descriptions

PM #1 Output - Tracks the number of tickets created on an annual basis; used for trending and capacity planning.

PM #2 Quality – Measures the satisfaction level and Think Yes alignment.

PM #3 Outcome - A measure of efficiency of the Help Desk and the effectiveness of the knowledge base.
