Community Justice Staffing Reductions: 16 FTE

# DCJ FY 2013 Proposed Budget

## ASD Program Reductions

### Couch Street Houses

- During 2011, thirteen women and their 21 children lived in the three Victorian houses
- Current residents will be transitioned to other housing designated for family living. Some clients will be ready to move into their own apartments.
- This will reduce the amount of housing available to women leaving treatment.

# DCJ FY 2013 Proposed Budget

## ECCS Program Reductions

### ■ **Three Residential Treatment Beds**

- This is a reduction of three beds (three women and their children).
- DCJ funds 35 other beds (148 women per year) for high risk female offenders.

# DCJ FY 2013 Proposed Budget

## JSD Program Reductions

### ■ Shelter Care Bed Management

- Shelter care beds are short-term community placements to help youth avoid being placed in county detention.
- We will preserve our ability to meet the needs of youth by limiting lengths of stay as a way to manage the beds.

### ■ Youth Development Services Unit

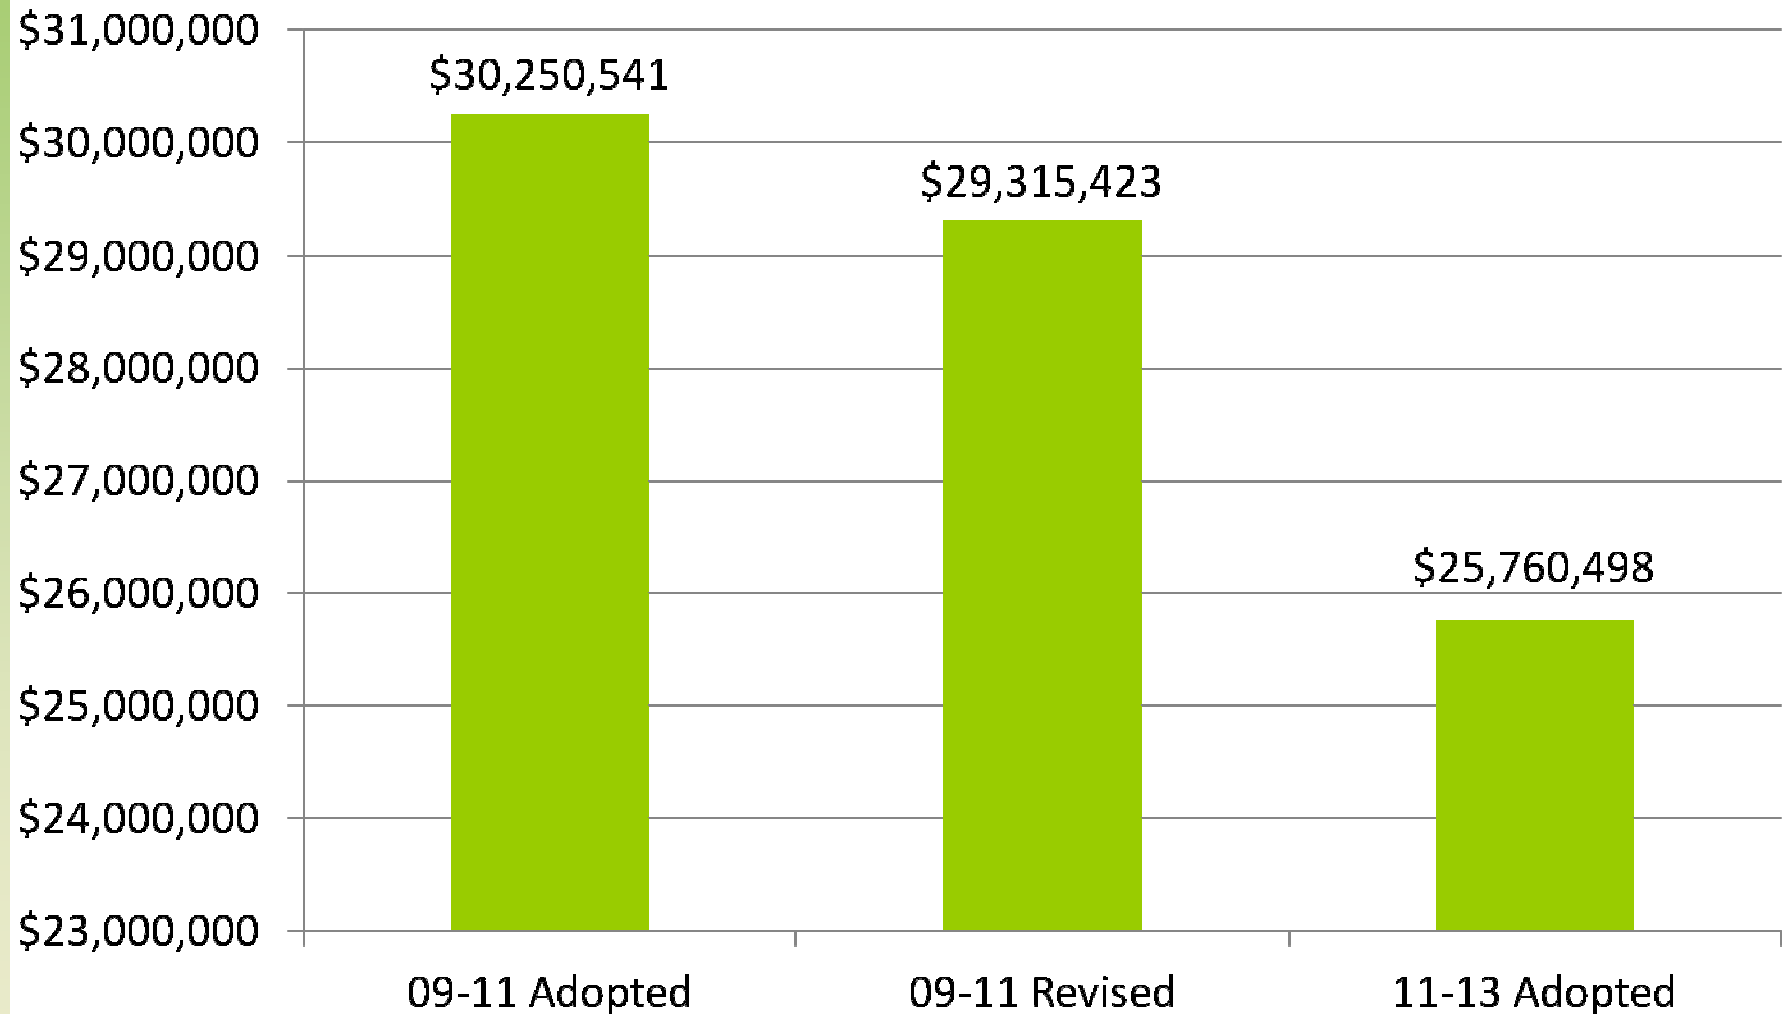

- We will redesign these services so that youth have expanded access to these supports and JSD can better leverage existing community supports in education and employment.

# Adult Services: State Funding Trends

**DCJ 1145 Funding History**

# FY12 State Mid-Year Rebalance Process

## Step 1

DCJ state funding was reduced by \$3 million

- Adult Services Division lost \$2,800,000
- Juvenile Services Division lost \$200,000

## Step 2

County General Fund Mitigation

- \$800,000 ongoing
- \$1,200,000 One –Time – Only

## End Result

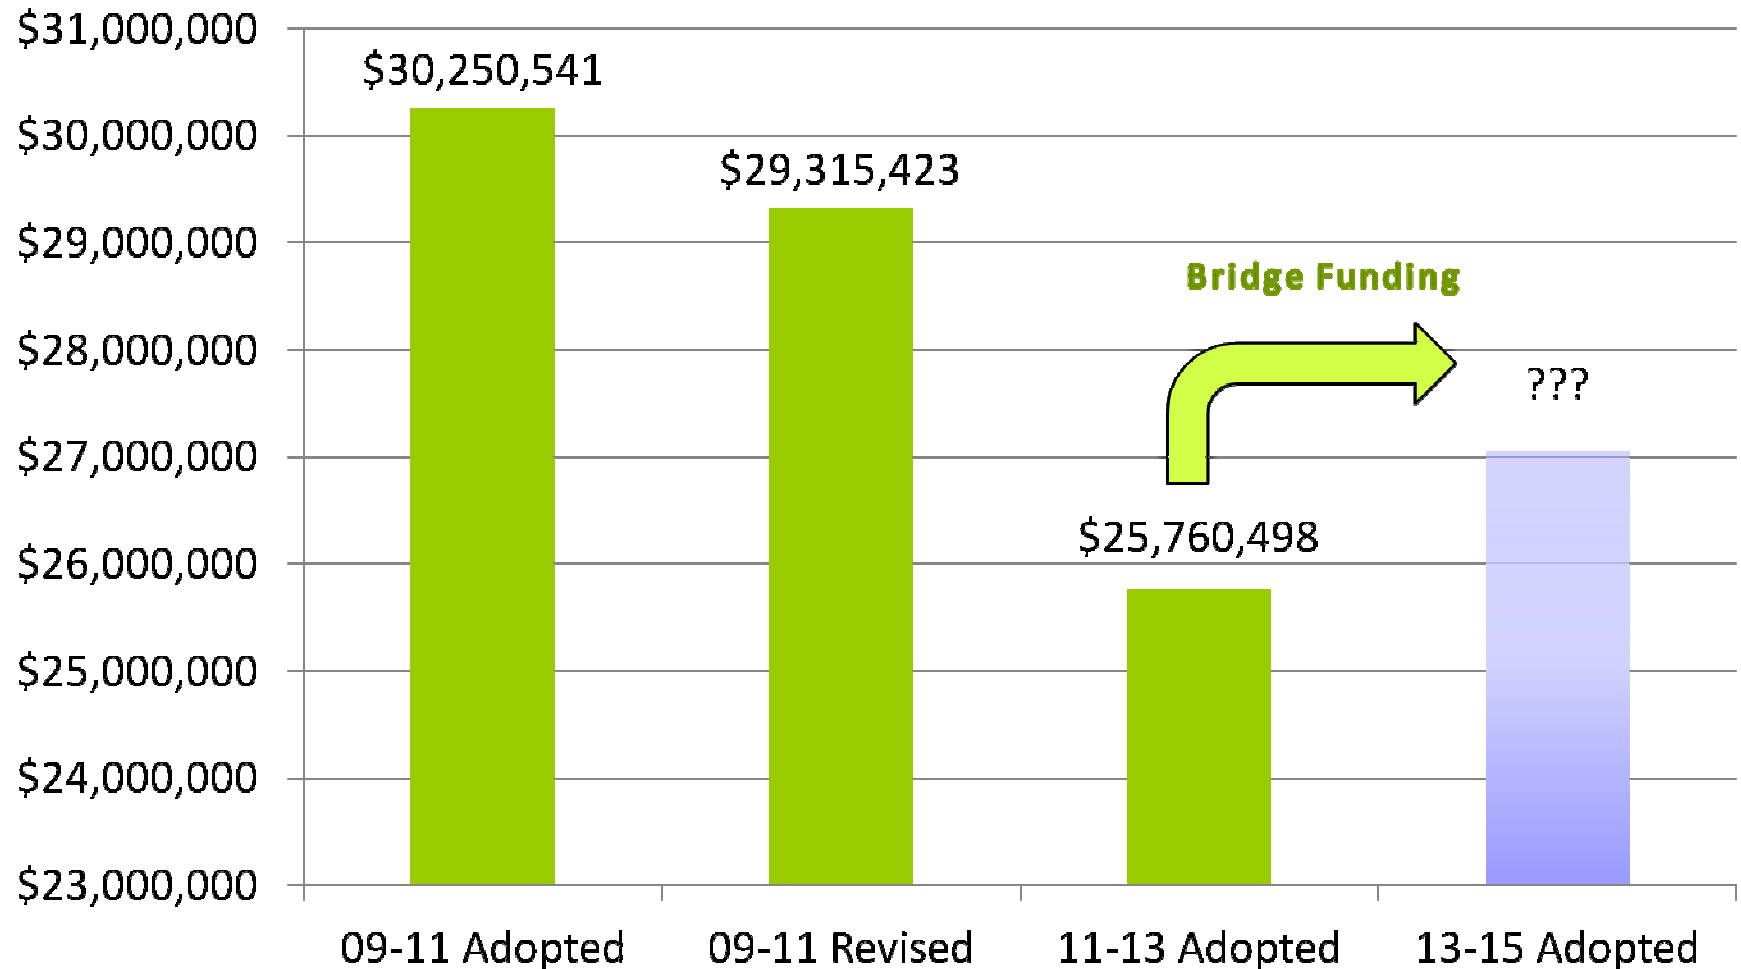

DCJ Net Result - Reduction of \$1 million

- 9.75 FTE were eliminated
- \$200,000 reduction in contracted services

## Key Issues:

- *Public Safety Checklist for Adult Offenders*

# What Does the Public Safety Checklist Do?

---

- Provides a quick, objective, validated assessment of the probability an offender will be re-convicted of a felony or re-arrested for a person or property offense based on:
  - historical Oregon data; and
  - the offender's age, gender, and criminal history
- Easy to use web application
- Risk scores presented as a comparative risk: how does this offender compare to all other felony offenders in the last 5 years?

# The Public Safety Checklist for Oregon

## New Conviction

### FELONY

This estimates the percent of offenders at a lower risk for reconviction of a felony within 3 years of release from prison or imposition of probation based upon the risk scores of all felony offenders that have been released from prison or sentenced to probation in the last 5 years

73%

## New Arrest

### PERSON CRIME

This estimates the percent of offenders at a lower risk for a new person arrest up to 10 years from release from prison or imposition of probation based upon the risk scores of all felony offenders that have been released from prison or sentenced to probation in the last 5 years

67%

### PROPERTY CRIME

This estimates the percent of offenders at a lower risk for a new property arrest up to 10 years from release from prison or imposition of probation based upon the risk scores of all felony offenders that have been released from prison or sentenced to probation in the last 5 years

61%
