Program Characteristics:

Program Description

The Finance Unit collects financial data, processes transactions through the County’s financial system, conducts financial analysis, and reports key financial information to the management team to support strategic operational decision-making. The unit ensures that funds are available for the agency’s operating programs and documents their use by providing essential financial services, including budget development, modification, and monitoring; fiscal projections; accounts receivable and payable; contract development and oversight; procurement; grant accounting; travel and training processing; and monitoring County internal service reimbursements. The Finance Unit also produces critical monthly financial reports for management and provides financial data for the County’s annual audit.

The Finance Unit implements and administers Oregon budget law, County financial policies, administrative procedures, and internal controls, operating under all relevant authorities to ensure compliance and fiscal accountability.

Each year, the Finance Unit develops the District Attorney’s adopted budget, which reflects the agency’s priorities and values. Budget decisions include an assessment of equity impacts, considering potential burdens and benefits for the community, particularly for communities of color and low-income populations.
