### Executive Summary

This program funds the Division I Chief Deputy District Attorney to provide leadership, policy direction, long & short range planning and daily operational oversight for Division I, which is responsible for protecting some of the most vulnerable and diverse children, adults and families in the county. This division includes the Multi-Disciplinary Child Abuse Team (MDT), Domestic Violence (DV) Unit, Juvenile Court Unit, and Support Enforcement Division (SED). Although racial minorities are over-represented as victims of abuse and as criminal defendants, DDAs and victim advocates engage with these families to reduce disparities and increase access to services. The chief deputy district attorney (CDDA) directs these activities in a variety of leadership and liaison positions inside and outside the office to make our community more livable and equitable.

### Program Summary

The Chief Deputy District Attorney (CDDDA) of Division I is a member of senior level management with specific division level responsibilities to provide leadership, policy direction, strategic planning, problem solving and daily operational oversight for the division, which directly affects the safety of children, teens, domestic violence survivors and families in our County. The CDDA regularly discusses case strategy, potential legal barriers and appropriate case resolutions to determine appropriate, consistent and equitable pretrial resolutions. Additionally, the CDDA prosecutes criminal abuse cases. Racial minorities and low income community members are over-represented both as victims of abuse and criminal defendants. Division 1 seeks to purposely address disparities by protecting vulnerable community members. The MDT/Child Abuse Unit prosecutes felony crimes where children are victims of homicide, physical and sexual abuse and neglect. This unit protects vulnerable children through litigating dependency cases in juvenile court while coordinating child protection efforts and developing practices and policies to investigate and prosecute abuse and keep children safe and strengthen families. The Juvenile Unit prosecutes serious felonies and certain misdemeanors committed by those under 18 years of age. Juvenile seeks community protection, reformation of the youth and restitution to crime victims while strengthening families via dependency. The Support Enforcement Division (SED) establishes, modifies and enforces paternity, child support and medical support orders for the families of Multnomah County. The DV Unit prosecutes crimes involving victims and survivors of domestic violence including physical and sexual assaults, homicides & RO violations. The Division 1 Chief Deputy performs a critical, family justice liaison role with outside partners, including Department of Human Services, Department of Community Justice, all county police agencies, non-profit partners, the defense bar, and the court by serving on numerous collaborative working groups. These include the Family Violence Coordinating Council, Sexual Assault Response Team (SART), Domestic Violence Court Working Group, Multidisciplinary Child Abuse Team Executive Committee, Department of Community Justice Working Group, Juvenile Justice Council, State and Local Child Fatality Review Team, Child Welfare Council, LPSCC –Racial and Ethnic Disparities Subcommittee, Domestic Violence Fatality Review Team, and the Juvenile Justice Task Force.

## Explanation of Revenues

## Significant Program Changes

**Last Year this program was:** FY 2021: 15100 Division I Administration

Due to the COVID-19 Pandemic and the closure of schools, among other things, mandatory child abuse reporting decreased. Law enforcement resources were redirected and child protective services were constrained. Our child advocacy center, CARES NW, medically evaluated fewer children. This reduced the number of child abuse cases referred to our office. Criminal trials have also been reduced. Additionally, many of our partners have increased the use of teleworking. Because of the pandemic our own office has had to rotate attorneys and staff into the office as required for critical duties and shifted to telework occasionally. Employees are still in-person working, physically appearing in court and going out into the community to serve while many other partners/departments have not engaged in in-person services. All of these circumstances, combined with ending our county's evolved MDT child system which cohoused law enforcement, DHS and prosecutors—an international recognized model that had existed since the 1990s—has lessened the coordination, communication and collaboration that is essential to stop child abuse, strengthen families and address disparate impacts of abuse. Family stressors, aggravated by the pandemic, has dramatically increased the number of domestic violence cases referred to our office. SED has, however, been able to collect more funds for children and families.
