**Program Description**

During the COVID 19 pandemic gun violence—shootings and homicides—increased in Multnomah County at record rates, exceeding all historical norms. Multnomah County now has one of the highest homicide rates in the United States. This violence disproportionately impacts BIPOC people and communities. Prosecutors respond to all homicide scenes to assist investigators. There are a limited number of prosecutors with the experience and training to handle these complex cases. This program includes continued funding of a Deputy District Attorney 3, which is part of a team of two prosecutors and two investigators assigned to gun violence reduction efforts in the community and to assist existing staff.

In addition to the increased rates of violent gun related crime, prosecutors are still handling a backlog of cases due to pandemic related court slowdowns.

Prosecutors utilize a public health model and an equity and racial justice approach to reduce harm, hold offenders accountable, and help survivors and victims of gun violence heal. When appropriate and to increase community safety, offenders receive court supervised drug, alcohol and mental health treatment programs rather than incarceration.
