**Executive Summary**

MCDA's Strategic Prosecution and Services Unit (SPSU) utilizes community based resolutions when possible to address chronic criminal activity. SPSU attorneys recommend court supervised mental health services and drug addiction treatment when community safety will benefit rather than incarceration. Recidivism is reduced and safety is enhanced for crime victims through the efforts of SPSU. MCDA seeks equitable treatment of both victims and offenders in SPSU. The Multnomah County Justice Reinvestment Project (MCJRP) deputy district attorneys assigned to SPSU use data analysis to correct inequities and promotes court supervised mental health and drug treatment as an alternative to incarceration.

**Program Description**

The Strategic Prosecution and Services Unit (SPSU) is an evidence-based program addressing chronic offenders based on a national model. SPSU equitably identifies chronic offenders and seeks to divert them into court-supervised drug and mental health services when possible. The outcome is reduced recidivism by ending offense cycles, decreased reliance on incarceration and increased community safety.

Due to structural and historic racism, chronic offenders in Multnomah County are disproportionately represented. Deputy District Attorneys in SPSU are aware of racial and ethnic disparities and seek unbiased, fair and equitable case resolutions. Priority of SPSU is data-driven decisions based on safety, justice and equity.

The Multnomah County Justice Reinvestment Program (MCJRP) implements Multnomah County's historical responsible use of Oregon Department of Corrections (DOC), and other public safety resources, both before and after the passage of HB 3194. MCJRP also recognizes a continued desire and goal to improve its processes in order to have the best information available at important decision points throughout the public safety continuum. MCJRP DDAs utilize a process to assess offenders and provide a spectrum of community-based sanctions, services and programs that are designed to reduce recidivism, decrease the county's utilization of imprisonment in DOC institutions while protecting public safety and holding offenders accountable. Data analysis generated by the MCJRP deputy district attorney is utilized throughout MCDA to correct inequities and ensure fairness.
