75% of students increased benchmark scores in Reading \*72% of students increased benchmark scores in Math \*Average daily attendance of SUN CS students was 97%

\*due to changes in state testing these numbers are not available for this year

## **SUN Spotlight**

Every morning families drop off their older children while walking or pushing strollers with younger siblings. There was an opportunity to bring these families together to form relationships and offer developmentally appropriate activities for their 2-4 year olds. Marysville Cubs was designed to provide a regular day, time and space for these families to interact and spend time together. Every Thursday morning a fairly regular group of parents get together and discuss parenting ideas, share funny stories and provide support for one another. New activities are shared with the parents that they can easily do at home.
