## Let's get moving!

After a few weeks at the end of summer to enjoy the success of completing the [Vision and Core Strategies](#), it's time to talk strategy & implementation.

As promised, this project seeks to move transformation forward rather than leaving well intentioned plans on the shelf.

Our first step is a series of strategy discovery & planning sessions in November with stakeholders and experts related to each Core Strategy. These will be short, meaningful conversations designed to help everyone interested in Transforming Justice understand what work is already underway and what work is in front of us. We are hoping that many of you will participate in those meetings.

*Please stay tuned for an invitation to attend an implementation kickoff meeting in early October.*

# Transforming Justice Project Update

## Why Transforming Justice?

Why transform justice? Because the old answers to criminal behavior, like prosecution and incarceration, will not permanently solve the problems of today and tomorrow. The old answers often do not create wellness and safety; we must create better solutions to increase public safety. Our public safety systems must transform to truly create safety.

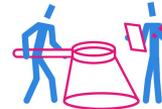

*The final report is DONE! If you would like to be mailed a hard copy of an 11x17 version of the Vision and Core Strategies, please provide your address to Abbey Stamp.*

- Final report is complete and available [here](#)
- Finalized the introductory language to the Vision

### Underway

- Abbey continues to brief stakeholders on the project
