

Occupying a full city block, Patton Home offers affordable housing in the Mississippi and Alberta neighborhoods. Patton Home contains well-appointed common rooms and gathering spots, including a sunroom, library, cozy TV room, communal dining room, and private spaces for entertaining family and friends. There is a spacious, shady veranda for socializing and a well-used Community Garden on the grounds. Single Room Occupancy (SRO) units are between 150-220 square feet and come with a small fridge. Microwaves are provided in the communal kitchen/dining room. Patton Home is fully ADA compliant.

Patton Home was built in 1890 with money raised by 29 women, on land donated by a pioneer who herded sheep along the Oregon Trail. Mathew Patton, the original owner of Patton Home, donated the property to the women with a stipulation that they use the building to provide food, shelter, and friendship to those in need. Today, Patton Home continues a tradition of serving people in need. The 120-year-old residential facility offers home-style accommodations with 69 units. Income requirements apply.

Patton Home provides homes for individuals making below 60% of the area's median income (AMI) levels (\$47,400 for one person). 16 units have also been held for Home Forward Project Based Section 8. You may need a referral. Contact us for more information on income requirements and the waitlist process.
