BEFORE THE BOARD OF COUNTY COMMISSIONERS FOR MULTNOMAH COUNTY, OREGON

RESOLUTION NO. 2025-031

Approving the Mt. Hood Cable Regulatory Commission (MHCRC) FY 2025-2026 Fund Budget.

The Multnomah County Board of Commissioners Finds:

- A. The Mt. Hood Cable Regulatory Commission (MHCRC) was formed by Multnomah County and the cities of Fairview, Gresham, Portland, Troutdale and Wood Village (Cities) to advocate for and protect the public interest in the regulation and development of cable communication systems.
- B. The MHCRC has approved a budget for Fiscal Year 2025-2026 and forwarded this budget to Multnomah County and the Cities for approval.

The Multnomah County Board of Commissioners Resolves:

The Mt. Hood Cable Regulatory Commission Fund Budget for Fiscal Year 2025-2026 is approved.

ADOPTED this 5th day of June 2025.

BOARD OF COUNTY COMMISSIONERS FOR MULTNOMAH COUNTY, OREGON

INTRODUCTION

The Mt. Hood Cable Regulatory Commission (MHCRC) was created by Multnomah County and the cities of Fairview, Gresham, Portland, Troutdale, and Wood Village for the purposes of:

- Advocating for and protecting the public interest in the regulation and development of cable communication systems.
- Providing consumer protection and cable subscribers' complaint resolution; and,
- Facilitating the planning and implementation of community uses of cable communication technologies.

Each Jurisdiction appoints citizen representatives to the MHCRC. Over the past year, these appointees, with staff support, have committed hundreds of hours to deeply understand the issues and local impacts of an ever-evolving technology, regulatory and business model landscape.

They attended numerous MHCRC meetings, committee meetings and work sessions, kept abreast of issues of concern to their Jurisdictions, presented information at city council and county commission meetings, and served as ex officio Board members for Open Signal and MetroEast Community Media (MetroEast), all in service to the Jurisdictions and their communities.

The MHCRC regulates and oversees cable service franchises with two companies, serving the following areas:

Comcast: Portland, Gresham, Troutdale, Fairview, Wood Village, and Multnomah County

The MHCRC contracts for staff and other support services through a services agreement with the City of Portland. The MHCRC funds an equivalent of 4.35 full-time (FTE) staff positions plus related materials, services, financial, internal services, HR, communications, Equity & Engagement, and other administrative costs. Each member Jurisdiction annually contributes to the MHCRC's operating budget. The Jurisdictions' fund a little over 1/3 of the operating budget and other MHCRC resources are used to supplement the remaining portion.

The MHCRC focuses on community needs as it navigates today's legal and public policy landscape to steward existing public benefits, while also exploring possibilities and opportunities in our quickly changing technology environment to help ensure a sound and vital digital future for all our communities.

Please refer to the MHCRC's FY 2023-24 Annual Report and website (<u>www.mhcrc.org</u>) for more detail about MHCRC activities and accomplishments.

MHCRC FY 2025-26 FUND BUDGET

BUDGET PROCESS

According to the Intergovernmental Agreement (IGA) among the Jurisdictions that created the MHCRC, the MHCRC must gain approval of its Fund Budget by every member Jurisdiction.

BUDGET OVERVIEW

The MHCRC FY 2025-26 Fund Budget is presented in Appendix 1, Table A.

Nearly all the MHCRC's resources are funds collected from the cable companies and the expenditures are the disbursement of those funds to the member Jurisdictions, the community media providers (MetroEast and Open Signal), and the Community Grants recipients. These disbursements are governed by the IGA and by the cable services franchise agreements.

Fund Resources

The amount of MHCRC resources from year to year largely depends on franchise fee and PEG/ I-Net fee payments from cable companies for their private use of public right-of-way to provide cable TV services. Cable company payments are based on a percentage of the company's gross revenues derived from cable TV services. The FY 2025-26 Fund resources are projected based on cable company actual payments through 2nd Quarter FY 2024-25. FY2025-26 Fund resources are projected to be \$773,064 or 14% less than FY2024 -25 (calculated with the combined total of franchise and PEG fees and other sources of revenue). This budget also includes a projected Beginning Fund balance of \$6,327,632.

Detail on each Fund resource follows:

<u>Franchise Fees</u>: The MHCRC collects cable services franchise fees, based on 5% of the companies' gross revenues for cable TV service, for Gresham, Troutdale, Fairview, Wood Village, and Multnomah County from Comcast. The MHCRC uses historical trend data and actual payments through 2nd Quarter FY24-25 to project anticipated FY25-26 franchise fees.

Operating Budget Appropriation - Portland: The MHCRC collects funds from the City of Portland for its share of the MHCRC's operating budget. The other MHCRC Jurisdictions' appropriations are allocated from the cable services franchise fees collected by the MHCRC (see Appendix 1, Table D).

<u>Interest Earned</u>: The MHCRC collects interest on its Fund. Interest revenue is projected to have an increase when compared to the returns of the last three years (see Appendix 1, Table E).

<u>PEG/I-Net Capital Fee</u>: All franchised cable companies pay 3% of their gross revenues related to TV services to the MHCRC as dedicated funding for capital costs of providing community media

¹ Upon execution of the Comcast Franchise Agreement renewal, Comcast will be paying a 2.5% PEG fee.

and technology services to the community (see specific disbursements under Fund Expenditures below). A small portion also funds MHCRC's compliance program costs to administer, oversee, and disburse the capital funds.

<u>Beginning Balance</u>: The FY25-26 Beginning Balance is projected to be **\$6,327,632**, albeit unrecovered advances are projected to be **\$2,707,305** at the beginning of FY25-26. Therefore, Ending Fund balance is projected to be **\$2,295,324** which would represent a 64% decline from FY24-25. However, we note here that only FY25 Year-to-Date amounts and FY25 Q2 receipts were used to make projections in the MHCRC FY25-26 Proposed Fund Budget.

Fund Expenditures

Nearly all the MHCRC's expenditures are the disbursement of franchise fees and PEG/I-Net Capital Fees governed by the IGA and by the cable services franchises.

<u>Franchise Fee Balance to the Jurisdictions</u>: This line-item expenditure is calculated based on the total amount of franchise fees the MHCRC collects and subtracting the amount each Jurisdiction appropriates to the MHCRC Operating Budget and the amount of community media payments to MetroEast and Open Signal in accordance with the IGA (see Appendix 1, Table B).

MHCRC Operating Budget: This expenditure represents the total MHCRC Operating Budget (resources and line-item detail contained in Appendix 1, Table C).

The MHCRC has opted to carry-over a portion of unused budget funding from FY24-25 to FY25-26. This will help facilitate one-time costs, legal costs, renewal negotiations, and continue the strategic planning process with the Jurisdictions to guide possible changes to the IGA and the MHCRC after FY24-25.

Community Media Operating Payments: In accordance with the IGA, the MHCRC distributes 60% of the East County Jurisdictions' franchise fees to MetroEast and 60% of West Multnomah County franchise fees to Open Signal. These dedicated funds are used to provide media and technology services to the community (see Appendix 2).

<u>Community Media Capital</u>: The MHCRC distributes a portion of the PEG/I-Net Capital fee from the cable companies to support the capital needs of MetroEast and Open Signal. These payments are made in accordance with the IGA and the cable services franchise agreements (see Appendix 2).

<u>Community Grants</u>: The MHCRC is the grant-making body for the Community Grants program on behalf of member jurisdictions. The Community Grants program supports an annual competitive grant process called the Community Technology Grants and special funding initiatives. Grants are funded through the PEG/I-Net Capital fee revenues from the cable companies and are made in accordance with the IGA and the cable services franchise

agreements.

The Community Grants program provides funds for technology projects to nonprofit organizations, libraries, educational institutions, and local government agencies throughout Multnomah County to produce video content to be shared on the community media center channels to support project-related goals and objectives. The Community Grants program provides funds for technology projects to nonprofit organizations, libraries, educational institutions, and local government agencies throughout Multnomah County to produce video content to be shared on the community media center channels to support project-related goals and objectives.

In the last five years (2019-2024), over 67% of grants made have focused on supporting grantees which are led by, informed by, and/or directly benefitting BIPOC communities facing current and historical policies and practices that have resulted in disparities. The grant-funded projects addressed barriers that limit or prevent individuals and communities from accessing services, information, communication tools and/or training.

<u>Contingency</u>: Separate from the Community Grants/community media capital contingency, the MHCRC annually budgets a fund contingency amount (about 10% of the total Operations Budget) to cover unanticipated community needs and opportunities. For FY25-26, the MHCRC has decided to not budget for this line item.

Amendments to Prior Year Outstanding Advances Amount: Every fiscal year, the MHCRC approves several grants that may take more than one year to be implemented. Grantees typically receive advances of funding that are tracked until the project is closed out. Staff also may occasionally enter contracts for consultant services that may span more than one fiscal year. The actual expenditures do not match the budget because activities budgeted for in one year often extends across subsequent years.

From an accounting perspective, this is represented by itemizing "encumbrances" (contract or grant agreement commitments) made in one year that need to be carried forward and included in the next year's budget. Advances are similarly tracked until they are "recovered" – meaning until the project is finished as specified. Even though the funds in an advance are actually paid out at the time of the initial advance, they are carried forward as potential liabilities until the grant closes.

In the March 6th, 2025, Finance Committee meeting, staff recommended that the MHCRC forecast carryover in January of current year and include the estimate into the next year's budget to be approved by the Commission. Also, estimates of non-grant encumbrances from current year should be added to the next year's budget. These estimates would update up until the June 30th fiscal year end date. Currently, the PY outstanding advances estimate stands at over \$2,707,305 in FY25-26 MHCRC Fund budget.

*MHCRC Bureau Overhead: In the winter of 2022, the Office of Community technology (OCT) was merged with the Bureau of Planning and Sustainability (BPS) and as a result, the staff of MHCRC came under the operational and management umbrella of BPS. Before the merger, OCT operated as a stand-alone bureau at the City of Portland and had overhead expenses for buildings, technology, printing, etc. which it was responsible to include in the OCT budget annually.

These 'overhead' costs were allocated to MHCRC when OCT was a stand-alone bureau for the annual MHCRC budgeting process prior to OCT merging with BPS. Currently, MHCRC is a program area in the Community Technology Division of BPS. BPS funds internal services through the Overhead Model. The Overhead Model is developed by the City Budget Office (CBO) and uses an indirect rate set by the CBO. Services funded by bureau overhead are administrative in nature and directed by bureau leadership.

MHCRC FY26 Operating Budget includes a total of \$325,045 in overhead costs. This amount represents 3.2% of BPS total overhead costs and pays for:

- \$185,534 for Personnel: Contributes to a portion of the cost for Finance support, including MHCRC Finance Manager and BPS
 Finance Manager and support from BPS Director, Equity & Engagement Team, Communications Team, Tech Services, HR
 (hiring) and other internal services. Example: Production and distribution of the MHCRC Annual Report and other support
 services and coverage of MHCRC events.
- ii. \$25,091 for External Materials and Services: Contributes to costs associated with BPS staff training, space planning, and strategic planning. Example: Strategic planning for BPS and training for staff.
- iii. \$114,420 for Internal Materials and Services: Includes rent, a portion of Citywide IT costs, fleet services, printing and distribution, and other associated internal services costs. Example: This includes rent for the building BPS occupies.

FY26 Personnel Allocation

FY26 Personnel Allocations				
MHCRC FY25-26	FY24-25	FY25-26	Admin & Reg	Cap. Comp.
Position Classification	FTE	FTE	Dist. %	Dist. %
30003082 - Manager II	0.25	0.25	25%	
30003976 - Administrative Specialist II - CPPW	1.00	1.00	80%	20%
30003979 - Analyst II - CPPW	0.95	0.95	95%	
30003008 - Analyst III	0.35	0.65	55%	10%
30003983 - Coordinator II - CPPW	0.40	0.60	60%	
30003009 - Analyst IV	0.40	0.40	40%	
30003979 - Analyst II - CPPW	0.50	0.50	50%	
Total FTE	3.85	4.35		

*FTE Changes in FY 2025-26: The increase in Full-Time Equivalent (FTE) from 3.85 to 4.35 is a strategic and necessary adjustment to support the MHCRC's Phase 2 of the strategic planning process and ensure continuity and effectiveness during a period of organizational transition. As part of this deliberate strategic planning initiative, the Commission is engaging in a comprehensive review to determine its next iteration, including in-depth financial considerations. The planning process is complex and requires active coordination, diverse partner engagement, data and policy synthesis, and legal and financial scenario planning. These are activities that extend beyond routine operations and administration and require dedicated staff time and expertise. The additional FTE reflects the crucial staffing capacity needed to manage and administer this process with due diligence and attention. Staff involved in this transition will be responsible for facilitating cross-sector collaboration, policy landscape tracking and analysis as it impacts cable TV regulatory shifts at the federal, state, and local levels, documenting strategic inputs and decisions, coordinating active partner inputs, and supporting the implementation and execution of interim measures and operational and administrative changes. Moreover, as the MHCRC transitions from its current form to its next iteration, staff capacity is critical to maintain existing functions while simultaneously building and executing the roadmap for the future. This dual responsibility—ensuring both continuity and transformation—demands additional human resources to avoid disruption, preserve institutional knowledge, and sustain the Commission's commitments to community and dedicated partners. This investment in staff time will ensure that the strategic planning process is not only well-executed but also leads to a smooth, thoughtful, and effective transition.

APPENDIX 2

COMMUNITY MEDIA DISBURSEMENT DETAIL (MetroEast and Open Signal)

APPENDIX 2: COMMUNITY MEDIA DISBURSEMENT DETAIL (MetroEast and Open Signal)

The MHCRC administers two grant agreements with the community media organizations that serve the MHCRC-member Jurisdictions. MetroEast Community Media (MetroEast) serves the cities and communities of Gresham, Troutdale, Fairview, and Wood Village and east Multnomah County areas. Open Signal serves the City of Portland and the west Multnomah County areas.

The community media organizations receive funding for both operations and capital expenditures. Most of Open Signal's operational resources come from a grant agreement between Open Signal and the City of Portland and are, therefore, not included in the MHCRC's Fund Budget (the amount is included below for informational purposes). MetroEast receives operational resources, in accordance with the IGA that created the MHCRC, based on 60 percent of the cable franchise fees for the east Multnomah County area. Open Signal also receives an amount in accordance with the IGA for the west Multnomah County area. Both organizations receive capital funds from the MHCRC Fund Budget, derived from PEG/I-Net Capital fee.

Both MetroEast and Open Signal are nonprofit organizations with governing Boards of Directors. These Boards annually develop and adopt budgets. FY2025-26 draft budget summaries are included in this Appendix to provide more detail for the community media expenditures in the MHCRC Fund Budget.

SUMMARY OF COMMUNITY MEDIA DISBURSEMENTS

MetroEast Community Media:

Open Signal:	
Operations Funding: Portland General Fund	\$ 1,406.543
Capital Funding: MHCRC	\$ 1,018,763
Total	\$ 2,425,306

TAKE **CONTROL** OF THE MEDIA

MetroEast FY25-26 Draft Budget

May 19, 2025

MetroEast Community Media receives operations and capital funding through the Mt. Hood Regulatory Commission to provide media and technology services in the East Multnomah County area, including Gresham, Fairview, Wood Village and Troutdale and unincorporated Multnomah County. MHCRC funding supports MetroEast as a community-centered media organization committed to diversity, equity and opportunity.

About MetroEast

Our Mission

MetroEast provides access to media and technology to invigorate civic engagement, inspire diverse voices, and strengthen community life.

Our Core Values

- Digital Equity, Accessibility and Inclusion
- Partnership and Collaboration
- Creativity and Intellectual Freedom
- Civic Engagement and Democracy

Who We Are/ What We Do

- We are a premier digital media and video production nonprofit known for our state of the art technology, our award-winning productions team, and our versatile facility.
- We are mobile; we provide media education designed by and for our communities and at local partner locations, delivering access to relevant technology and training that helps our community tell their stories.
- We are committed to digital inclusion; we focus on ensuring that traditionally underserved communities have access to digital content, training, and tools.
- We provide a welcoming space where our community can celebrate the media arts and the diverse voices of those we serve.
- Local schools, nonprofits and governments rely on us as an essential service provider and partner for digital literacy training, access to technology, and video production needs.

info@metroeast.org

Strategic Priorities and Goals - FY 2024-2027

(Adopted April 2023)

To uphold our vision while honoring our values and commitment to equity, MetroEast will continue pursuing four broad strategic priorities and associated goals over the next two fiscal years:

- 1. Focus offerings on digital access driven by interests of priority communities*
- 2. Increase visibility and engagement with priority communities
- 3. Grow and diversify income
- 4. Develop a culture of shared leadership and responsibility

*MetroEast's "Priority Communities" are BIPOC and low-income residents as these people have historically been underserved by the media and faced significant barriers to using and accessing technology. MetroEast defines "User Communities of Interest" as our local municipalities, school districts, nonprofit organizations and other government entities.

FY25-26 Budget Overview

The MetroEast Board and staff developed the draft FY25-26 budget guided by the following key factors in our operating environment:

Staffing

Our people are our strength and payroll is the largest portion of MetroEast's operations budget. Our emphasis on technology and media services and culturally-responsive education requires retaining and hiring staff with unique expertise and experience. The support and professional development of staff is key to our success. The Board believes to retain high quality staff, we must provide reasonable pay and work loads. Although operations revenues from franchise fees have continued to decline, the draft budget supports staff in several ways:

- The budget includes a 3% cost-of-living increase for all staff, retains medical and other benefits, and provides professional development resources.
- The Board and staff Leadership Team developed our three-year strategic plan to focus services on our priority communities and diversifying revenue. We have been and will continue to tweak all aspects of the organization and services, while honoring our commitment to not further stress the capacity of staff.

Diminishing Franchise Fee Revenue

The draft budget reflects the declining operations revenue from East County franchise fees based on forecasts provided by MHCRC staff. MetroEast is continuing to address this decline by growing our capacity to diversify revenue - one of our strategic priorities for 2023-27. Both staff and the Board have engaged around this priority and we are beginning to see an increase in earned revenue and fundraising in the current fiscal year. We understand that building capacity for sustainable fundraising takes time, but we are encouraged by our successful efforts thus far.

OPERATIONS BUDGET

Revenue Highlights

Over the last few years we received lower amounts of operations revenue from the Franchise Fee than initially projected by the MHCRC staff. To be conservative, our budget reflects a 6.5% decrease from the FY25-26 MHCRC staff projection.

One of our strategic priorities for 2023-27 is to grow and diversify revenue but this takes capacity-building for both staff and the Board. We continue to cultivate additional income streams, based mostly on known resources (ie, either commitments or ongoing revenue sources). Although some of our efforts may enhance income in the upcoming year, we chose to take a conservative approach to our projections. Projected non-MHCRC revenue sources include, but are not limited to, sponsorships, grants, education fees, production services, sale of depreciated equipment, and space rental. The draft budget retains the ongoing services of a contracted grant writer.

Expense Highlights

Personnel is the largest expense in the operations budget. The draft budget includes the same FTE (10.5) as the current fiscal year, a 3% COLA increase, and status quo employee benefits. Other expenses mostly support either operational needs (ie, financial services, utilities, legal expertise, financial audit, etc.) or our cohort-model education services (food, translation services, childcare, gas, etc.) and production services (ie. government meetings and programs).

CAPITAL BUDGET

Revenue Highlights

Capital income is the amount provided for in the MetroEast/MHCRC grant agreement for the upcoming fiscal year.

Expense Highlights

Other capital projects include: Completing our bathroom conversion project, studio control room core upgrades to support 4k production, and increasing our laptop, iPad library resources, and camera fleet. Capital expenses will also cover general building upkeep, annual IT support, internal software contract, and equipment replacements and upgrades.

Capital Reserve Drawdown

The draft FY 2025-26 budget anticipates drawing from our capital reserve amount to cover necessary capital expenditures to provide services and maintain our building and technology assets. This puts our reserve critically low to be able to address unanticipated emergency capital needs. We anticipate having about \$390,000 in capital contingency reserves at the end of June 2025. The draft budget anticipates spending \$35,636 of our capital reserves to cover all the necessary capital expenses in FY25-26.

Capital Budget Narrative

FY 2025 - 2026

Overview

Open Signal's capital spending this year is focused on protecting our assets for the long term. We are also planning for upgrades to the Uninterruptible Power Supply to our server room, roof and studio improvements, and investment in media education program equipment.

Revenue

Our capital grant allocation from the MHCRC for FY 25-26 is \$1,018,763 representing 32.9% of applicable revenue.

Expenses

Land and Land Improvements

Budget: \$0.00

There are no expected land improvements in this fiscal year.

Building and Building Improvements

Budget: \$34,034.74

We had our roof evaluated and are budgeting \$8,000 for improvements. Annual studio painting is \$5,000. We are allocating \$21,034.74 toward the New Building Fund.

Production Equipment

Budget: \$207,000.00

We will be purchasing to maintain our equipment inventory to support partner programs, partnered media, production services, cohort and studio workshops. This year we will make the final purchases to complete

T (503) 288-1515

our Studio Improvement project. We will be upgrading the UPS in our server room in order to protect the assets in our server room from unexpected power outages. We are proactively upgrading this as well as budgeting for a storage expansion. We also will be undertaking a JAMF Migration due to licensing.

Computers

Budget: \$20,000.00

We will be purchasing cell phones for some of our staff to use as work phones, as well as replacing a couple of old computers and computer accessories. We have also set aside a budget to cover any unexpected computer purchasing needs.

Vehicles

Budget: \$0.00

There are no expected vehicle purchases in this fiscal year.

Office Equipment and Furniture

Budget: \$1,549.00

There will be some furniture purchases for new staff as well as purchases for storage for Production Services equipment.

Software and Other Intangibles

Budget: \$278,191.26

There are no plans to add additional software in this fiscal year. We have set aside a budget for our anticipated software contract renewal costs. Project Ficus is ongoing and this budget includes funds for the developers working on creating that asset.

Operating Budget Narrative

FY 2025 - 2026

Overview

The Leadership Team proposes a balanced budget for FY 25-26 with no anticipated surplus. Significant cuts were necessary to achieve this net balance. At this time we cannot project sufficient revenues to provide for the typical 3% COLA increase, robust professional development, contractor expenses to support productions, or generous stipends for guest educators from our community.

Revenue

Our proposed budget anticipates a drop in gross operating revenue of 4.05% (about \$126,351) in FY 25-26 compared to FY 24-25.

This is largely due to projections related to revenues received from the City of Portland. In FY25 we anticipated over \$300k in one-time revenue from technical services related to the City Charter reform. We are now in the process of negotiating a new "gavel to gavel" agreement with the City of Portland for the increased service effort accompanying the 12 member council structure. We have used a conservative revenue projection for this agreement in our draft budget \$276,414.28. If City Council maintains the highest frequency of planned meetings this revenue may go as high as \$353,000. We will amend our revenue projections after the first quarter of FY25-26.

We anticipate that the City of Portland's budget process will allocate approximately \$1,053,540 (33.1% of applicable revenue) to Open Signal for the third of our five year grant agreement. This is the same amount as

FY 24 and FY 25. Due to budget shortfalls, we anticipate that the City will not provide a CPI/COLA increase to our annual operating grant for the second consecutive year. The cumulative impact of these deferred increases amount to a loss of approximately \$64,000 in FY 25-26 compared to the projections we made at the start of the contract in July 2023.

With increased communications and fundraising capacity we project that direct contributions from individuals and local businesses will increase by approximately 200% in FY 25-26, generating 2.5% of applicable revenue, foundation grant funding is projected to increase by 84%, due to new multi-year grants received in FY25, and the renewal of multi-year grants with cycles ending in FY26, generating over 11.8% of applicable revenue. Production services revenue is projected to be 10.5% lower than FY 24-25, generating 17.6% of applicable revenue.

Operating Expenses

Gross operating expenses projected in the proposed budget represent a net decrease of .58% compared to the prior period. Reaching this net decrease was the result of difficult tradeoffs consisting of increases and decreases in different accounts/lines.

Our Personnel Expenses increased by \$118,721.05, but we made \$60,000 worth of cuts to our Contractors Expense (less money for guest speakers/teachers from our community, and HR, legal, production, marketing, and ADA contractors). In FY 24-25, Open Signal provided a 3% COLA for all employees, despite the fact that the City did not increase the grant award in alignment with the CPI. We are not able to project sufficient revenues to cover this difference for the upcoming fiscal year. The increases in salary expense come from raises based on

years of service, increased hourly rates for part-time production crew, and new staff positions compared to last year.

We also had to cut over \$30,000 of professional development expenses, including both individual training stipends and the annual Alliance for Community Media conference staff. We reduced planned spending on supplies and food and refreshments, while increasing the budget for repairs and maintenance of our new vehicles.

We hope to be able to reverse some of these cuts after the first quarter of the coming fiscal year when we amend/adjust our budget with final agreement on the revenues related to expanded City council production services. If and when increased revenues are secured, our priority will be to reinstate the COLA, followed by funding the Board reserve, contractors, and professional development, in that order.

Open Signal Compensation Structure

Information:

- When you get promoted to a different level your tiers reset.
- We will plan to have a 3% COLA raise annually on top of any tier changes. This is the average given by nonprofits. The COLA is contingent upon sufficient projected revenues annually.
- Raises happen at your anniversary date.
