2025 Committee Work Plan

The East Multnomah County Transportation Committee (EMCTC) Work Plan is a living document to provide the Committee opportunities to plan and update its priorities and focus for upcoming meetings. Proposed topics will be adjusted based on feedback. Some tentative future agenda items are likely to shift dates to accommodate project and presenter schedules or emerging priorities. The most current forecasted schedule will be provided in each meeting's materials.

Focus Areas

EMCTC's [bylaws](#) set policy direction that includes focusing on transportation safety and equity improvements for East County as well as providing input in regional tolling discussions to reflect potential impacts to the safety, equity, and economic opportunities of East County residents. The bylaws also set the Committee's intent to review, comment, and coordinate on East County transportation programs and policy positions in order to present a collective voice and priorities within the region. This purpose and direction guides the identification of topics to schedule for EMCTC discussion and action.

Safety and Equity

In 2025, EMCTC will have a substantial focus on safety and equity in overseeing the development of the East Multnomah County Transportation Safety Action Plan (TSAP). In 2022, EMCTC directed staff to apply to the [Safe Streets for All grant program](#) and the awarded funding is enabling our East County jurisdictions to develop a coordinated strategy for reducing fatal and serious injury traffic crashes. The TSAP will be completed in 2025 and EMCTC will make a recommendation on goals and plan adoption to the local jurisdictions.

The EMCTC Work Plan also includes ongoing reports on traffic fatalities and updates on safety. Monthly Safety Updates will provide status updates on the TSAP planning process, announcements and accomplishments related to the Safe Routes to School program, progress on safety projects, and information on best practices.

Funding Discussions

The EMCTC By-laws refer to participating in tolling discussions as one of the policy focus areas. However in March 2024, ODOT paused work on the Regional Mobility Pricing Project (RMPP) and the I-205 Tolling Project indefinitely, following a letter Governor Kotek wrote to the Oregon Transportation Commission (OTC). Due to this change, we are expanding this focus area to broader funding discussions with a particular focus on the anticipated 2025 state legislative transportation package. The Work Plan includes updates on funding strategy discussions and the 2025 legislative session as it progresses.

Coordination

The Work Plan attempts to anticipate milestones for relevant projects and regional discussions and includes placeholders for EMCTC to have opportunities for comment. These placeholders will be updated and additional items added as new information becomes available throughout the year. The Work Plan also continues to include ongoing report outs on JPACT and Region 1 ACT meetings from representatives attending those meetings.

Coordination topics include:

- Updates on legislative sessions
- Regional policy discussions happening at JPACT and Region 1 ACT
- Grant opportunities and funding discussions
- Updates on capital projects, transit service changes, and planning projects in East County
- Status of major regional projects

Tentative Schedule

Meeting Date	Proposed Agenda Items*
January	Meeting Cancelled.
February	EMCTC Chair Election 2024 Year in Review; 2025 Work Plan Discussion Legislative Session Overview - Multnomah County
March	EMCTC Vice Chair Election R1 ACT Community Member Elections RFFA Step 1a Bond & Step 2 Evaluation Results - Metro TriMet Safety Presentation - Andrew Wilson, TriMet Transportation Safety Action Plan (TSAP) Goal Setting & Safety Analysis - Alta
