**Executive Summary**

Intellectual and Developmental Disabilities Services Division (IDDSD) Administration provides oversight of the division to ensure the delivery of services that increase quality of life for individuals with intellectual and developmental disabilities. An intellectual or developmental disability is a condition such as cerebral palsy, autism or intellectual disability that a person is born with or that develops during childhood, and is expected to continue indefinitely. Oversight is focused on the accurate and timely delivery of services and improved systems that support clients in living independent and healthy lives in the community. Administration leads the division in continuous quality improvement, coordination of daily functions, advocacy at the local and state levels, and collaborative efforts with partner agencies.

**Program Summary**

**ISSUE:** IDDSD Administration and Support provides department oversight of staff, quality assurance, and system improvement in order to maximize client services and provide leadership as the Community Developmental Disability Program (CDDP) for Multnomah County, which is a Medicaid authority status conferred by the state.

**PROGRAM GOALS:** Business strategies related to system improvements and staff support directly improve quality of life for individuals with intellectual and developmental disabilities by increasing the delivery and accessibility of quality services. The goals of Administration and Support include a) optimize day-to-day functioning and staff development in order to demonstrate public stewardship and accountability; b) deliver quality, timely, culturally appropriate, and HIPPA-compliant services to support the health, safety, independence and inclusion of clients; c) improve policies and remove barriers to access by advocating for clients; and d) increase resources for clients through collaborative partnerships.

**PROGRAM ACTIVITY:** The four goals outlined above correspond to four general areas of activity: coordination, quality, advocacy, and collaboration. Coordination efforts include overall staff development, office management, implementing innovative ways to accomplish work, and ensuring timely provision of services within federal and state guidelines. Quality efforts include the creation of a strategic plan, metrics, and dashboards for performance management, monitoring the inter-agency agreement with the state, maintaining the quality assurance of records and practices, and collecting and responding to customer feedback. Advocacy efforts include the identification and removal of barriers to service and open and continuous dialogue with state and local agencies. Collaboration efforts include work with a variety of community-based organizations to increase the delivery of equitable and inclusive service, offering customer choice to a diverse community across the county. Racial equity is a key focus for the work in these four areas.
