Executive Summary

This program case manages approximately 1,316 adult Medicaid recipients out of the approximately 4,900 total caseload of developmentally disabled consumers. These adult consumers are actively enrolled in a funded residential and/or vocational program under K-Plan or waived services. A primary responsibility of case management is to monitor more than 560 residential, adult foster care, supported living and vocational service sites to assure that providers are in compliance with the Oregon Administrative Rules and to assure the health and safety of the program consumers.

Program Summary

Case Management services for adults with developmental disabilities are person-centered with the goal of linking clients with services and resources in their neighborhoods. In addition, staff assist clients in applying for financial and housing benefits. Monitoring customer health and safety is our primary responsibility. Case Management assists customers by involving family, friends and community partners in their lives. The goal is to promote an enriched quality of life by developing skills, confidence, self-worth and independence in order to assist adults with developmental disabilities in the areas of self-care, behavior and resource coordination. This program partners with state and local organizations that have mutual interest in our clients, such as Community Justice, Mental Health and the Department of Vocational Rehabilitation. Program interventions work to avert crisis situations and increase the monitoring of customer and provider health and safety concerns. Increased monitoring ensures that instances of abuse are more likely to be detected and investigated.

This PO references the requirement for case managers to monitor for health and safety, as distinguished from the programmatic monitoring conducted by program specialist staff. As noted the implementation of new requirements such as the K-Plan puts pressure on the ability of case managers to perform this monitoring.
