Executive Summary

The Developmental Disabilities Monitoring and Crisis Services Unit has oversight of 24-hour comprehensive residential and employment programs, transportation, and support brokerage services, and provides crisis services to more than 3,000 adults and children with developmental disabilities who qualify for comprehensive services. These services range from short-term crisis support or crisis placement, to in-home supports and/or long-term residential placements.

Program Summary

To access comprehensive and support services the individual must be Medicaid eligible and have a functional assessment completed. Supports can include: accessing a crisis bed, behavior consultation, nursing support, respite and other supports needed to stabilize the client; and long-term supports including residential placement, supported living, in-home supports and employment/alternatives to employment.

The unit is responsible for arranging crisis placements and quick response and technical assistance, as well as monitoring services provided by contracted agencies and/or families. These supports are accessed through a functional assessment when support needs change. Clients accessing crisis services tend to be at high risk due to vulnerability resulting from their disabilities or find themselves in volatile living situations.

The unit also completes programmatic monitoring to ensure compliance with county contracts, Oregon Administrative Rules and Oregon Statutes. They participate in on-site licensing reviews conducted by the state Office of Developmental Disabilities Services and provide contractors with technical assistance to support them in meeting requirements. The unit monitors health and safety issues that are programmatic as opposed to client-specific concerns. They work with the Abuse Investigations team to ensure required actions are completed and ongoing issues are addressed.
