Executive Summary

The Adult Care Home Program (ACHP) licenses and monitors adult care homes. It provides equitable access to adult care homes. ACHP licenses homes to ensure compliance with rules and regulations. Adult care homes are single-family homes in residential neighborhoods. They house and care for up to five adults in a homelike environment. Adult care homes serve people with intellectual, physical, and developmental disabilities, older adults, and behavioral health populations.

Program Description

ISSUE: The State values the goal of reducing Medicaid costs and increasing choice. The State works to invest more Medicaid dollars in community settings. These settings are less costly than nursing facilities. Adult care homes are single-family homes in residential neighborhoods. They house and care for up to five adults in a homelike environment. These homes are a vital alternative to nursing facilities. Multnomah county has most of the nursing facilities in the state.

PROGRAM GOAL: The program regulates adult care homes. It ensures residents receive appropriate, person-directed, culturally specific, and safe services. A State exemption allows ACHP to create local licensing regulations. These regulations are the Multnomah County Administrative Rules (MCARs). The local regulations meet or exceed State requirements for adult care homes. They ensure the highest quality and safety for residents.

PROGRAM ACTIVITY: The ACHP receives, reviews, and approves license applications. The program monitors licenses for adult care homes. Licensing includes background checks and role approvals for staff. Licensing also monitors home and operator compliance with MCARs. ACHP provides technical help and training for operators and staff. In-person inspections check resident personal care, socialization, and nutrition. Inspections check physical safety, nursing care, and medication management. At the start of FY22, the program reduced in-person licensing visits due to COVID-19 related restrictions. Essential visits to address health and safety concerns were still conducted. Full inspections were able to resume mid year. The program has been able to make up inspections for 97% of the homes delayed due to COVID. Noncompliance with licensing requirements results in progressive corrective action. Actions are based on the frequency, severity, and seriousness of harm. Corrective actions range from technical help to license sanctions or home closure. ACHP has a quality improvement process to ensure efficiency, data quality, and program outcomes. The ACHP has a Registered Nurse (RN) who offers equity based outreach and education. The RN focuses on topics disproportionately affecting the underserved and disadvantaged within our care homes.
