### Executive Summary

Adult Protective Services (APS) is responsible for improving the quality of life for the county's 233,000 older adults, people with disabilities and veterans by protecting them from abuse, financial exploitation, neglect and self-neglect. This program conducts abuse investigations, provides risk management and Multi-Disciplinary Team (MDT) services, and educates the community about abuse. APS workers prevent further harm by linking victims of abuse to critical health, legal and human services.

### Program Summary

The primary goal of the Adult Protective Services program (APS) is to protect vulnerable older adults, people with disabilities and veterans from abuse, neglect, self-neglect and financial exploitation. APS workers link vulnerable adults to needed health care, housing, social services, legal and client advocacy agencies. Workers investigate abuse and rule violations in 128 care facilities and 638 adult care homes as well as abuse in the community at large. APS coordinates with law enforcement and the District Attorney's Office to prosecute offenders. The program responded to 6,514 abuse calls in FY14.

APS serves clients with complex psycho-social and medical needs in six branch offices and five District Senior Centers located throughout the county via Multi-Disciplinary Teams (MDT) and the DCHS Multisystem Staffing Team (MSST). These teams are an evidence-based practice that provide consultation, in-home assessments and interventions to stabilize clients who have complex medical, mental health and psycho-social needs. The core team consists of an APS clinical services specialist, an APS community health nurse, a contracted mental health specialist and an investigator or case manager; others join the team as needed. The District Attorney's Office, law enforcement officers, the public guardian and County Counsel of Multnomah County participate each month on a larger law enforcement staffing to discuss criminal cases.

MDT provided 1,481 client contacts and 4,047 hours of nursing clinical supports to 1,031 older adults, people with disabilities and veterans. This service is designed for clients who have barriers to obtaining medical, mental health or legal types of intervention. Ninety-two percent of MDT participants showed improvement after MDT intervention. MDT interventions reduce the risk of unnecessary hospitalizations or homelessness for these clients. APS provides risk management services to stabilize clients, providing some clients with intensive oversight for up to 12 months to stabilize their situation or to link them to appropriate agencies and ongoing services.
