Executive Summary

The Transition and Diversion program helps people access home and community living options. Benefit recipients would otherwise live in a nursing facility if not provided with alternatives. Living in the setting of choice improves the quality of life of benefit recipients. The program provides equitable and culturally appropriate access. The program offers consumers choices that reflect cultural, and individual needs. Available staff speak multiple languages, are culturally knowledgeable, and train in diversity, equity, and inclusion.

Program Description

ISSUE: Oregon is a national leader in offering alternatives to nursing facilities. The Aging, Disability, and Veterans Services Division helps older adults, people with disabilities, and Veterans live in a community setting. These places are less costly and less restrictive than nursing facilities. The Centers for Medicare and Medicaid Services sees living in a community setting as a best practice. It provides a better experience for those needing Medicaid long-term services and supports.

PROGRAM GOAL: The Transition and Diversion Program (T&D) serves older adults, people with disabilities, and Veterans. T&D uses equity principles to help people live in the setting of their choice. To the fullest extent, services are provided by culturally knowledgeable providers. The goal is to avoid placement in an institutional setting. This results in minimizing the use of more costly nursing facility care and reducing unnecessary hospitalizations and readmissions. The costs that are saved by serving people in the community are reinvested in the programs, allowing more people to be served in the setting of their choice.

PROGRAM ACTIVITY: The Transition and Diversion Program serves all nursing facility eligible individuals in Multnomah County. Transition and Diversion staff assess and assist individuals who live in nursing facilities to relocate to community settings if they desire to leave the nursing facility. This is done by connecting them with equity centered services and assistance to help them live safely in the community. Transition and Diversion works with individuals discharging from the hospital, who do not want to live permanently in a nursing facility, to return home or find a community living option such as an adult care home, assisted living facility, or residential living facility. They arrange for supports to ensure the safety of the individual returning to community living. The Transition and Diversion Program supports independent living and the DCHS priority to reduce housing insecurity. The Transition team works closely with the Houseless Mobile Intake Team (HMIT) funded by the Joint Office of Homeless Services. Transition coordinators leverage the culturally specific resources developed and fostered by the 3 culturally specific positions on the HMIT.
