**Executive Summary**

Aging, Disability & Veterans Services Division (ADVSD) provides support through a continuum of access and early intervention programs, to have equitable and efficient access to quality services and programs. For individuals living at home, at risk for nursing facility placement, and not receiving Medicaid, case management, and in-home services provide critical supports that allow people to remain in their homes.

**Program Summary**

**ISSUE:** Older adults, people with disabilities, and Veterans may experience complex or multiple problems that interfere with their ability to remain in their homes. As the federally designated Area Agency on Aging, ADVSD creates a four-year strategic plan for service delivery based on extensive listening sessions. As a result of this feedback and Census data, ADVSD changed its funding allocation model to fund more culturally specific services with a focus on trauma informed case management and in-home supports.

**PROGRAM GOAL:** The goal of case management and in-home services is to engage participants in a person-centered, comprehensive approach to support their ability to remain at home, maintain independence, support their family caregivers and delay an individual’s need for more costly Medicaid services and nursing facility care. Research conducted by Boston University showed that case management can improve housing stability and prevent isolation through services such as housekeeping or grocery shopping.

**PROGRAM ACTIVITY:** The Case Management and In-Home Services Program is part of the access and early intervention continuum, separate from Medicaid services, conducted through partnerships with community organizations providing culturally responsive and culturally specific services. These services are funded through a variety of sources including County General Funds, Federal Older Americans Act, Oregon Project Independence, and Federal Veterans Administration. Case managers work with individuals and their families to assess needs for services; determine eligibility; authorize and coordinate services; and develop, implement, monitor, and evaluate the person-centered care plan. In-home services include housekeeping, personal care, grocery shopping, and adult day respite services. Case managers reassess participant needs, advocate on their behalf, and provide follow-up. Participants may also receive counseling on community and long-term services and support options. Options Counseling helps participants build a person-centered care plan to determine their best resources options.
