Executive Summary

Aging, Disability & Veterans Services Division (ADVSD) provides support through a continuum of access and early intervention programs, to have equitable and efficient access to quality services and programs. For individuals not receiving Medicaid case management and at risk for nursing facility placement, non-Medicaid case management and in-home services provide critical supports that allow them to remain in their homes.

Program Summary

ISSUE: Older adults, people with disabilities, and Veterans may experience complex or multiple problems that interfere with their ability to remain in their homes. As the federally designated Area Agency on Aging, ADVSD creates a four-year strategic plan for service delivery based on extensive listening sessions. As a result of this feedback and Census data, ADVSD changed its funding allocation model to fund more culturally specific services with a focus on trauma informed case management and in-home supports.

PROGRAM GOAL: The goal of case management and in-home services is to engage participants in a person-centered, comprehensive approach to support their ability to remain at home, maintain independence, support their family caregivers and delay an individual's need for more costly Medicaid services and nursing facility care. Research conducted by Boston University showed that case management can improve housing stability and prevent isolation through services such as housekeeping or grocery shopping.

PROGRAM ACTIVITY: The Case Management and In-Home Services Program is part of the access and early intervention continuum, separate from Medicaid services, conducted through partnerships with community organizations providing culturally responsive and culturally specific services. These services are funded through a variety of sources including County General Funds, Federal Older Americans Act, Oregon Project Independence, and Federal Veterans' Administration. Case managers work with individuals and their families to assess needs for services; determine eligibility; authorize and coordinate services; and develop, implement, monitor, and evaluate the person-centered care plan. With the exception of adult day respite services, all other in-home services have continued throughout the COVID-19 pandemic, including: housekeeping, personal care, and grocery shopping. Case managers use virtual means to reassess participant needs, provide telephone reassurance and advocate on their behalf, and provide information, assistance and referral as needed.
