**Executive Summary**

The Transportation Program helps older adults, people with disabilities, and Veterans. This program helps them with their transportation needs. Services provide transportation to social activities, nutrition programs, stores, pharmacies, and medical appointments. The program removes mobility barriers that may reduce a person's independence or quality of life. Services include transportation assessments, ride coordination, and authorization. Services offered include TriMet HOP cards, door-to-door service, and emergency rides. Specialized vehicles accommodate mobility devices.

**Program Description**

**ISSUE:** A 2020 community needs assessment of older adults found access to transportation an unmet need. Affordable transportation options support good health and an active lifestyle. Transportation also connects participants to their community which improves their quality of life.

A 2022 county transportation survey was conducted in 13 languages. The survey sought input specifically from participants who speak languages other than English and/or identify as Black, Indigenous, or a Person of Color in order to identify services and supports needed by those communities. It found transportation support was an essential service—transportation services to get to appointments, community events, and senior centers. Aging & Disability Advisory councils advocate for lower ride costs and more frequent service. They also ask for changes to provide safety personnel. The survey results showed that safety is a top concern for Transportation program participants and many prefer door-to-door transportation options.

**PROGRAM GOAL:** The goal of Transportation Services is to improve equitable access to community services. It supports community needs and efforts to extend outreach for ride services. Agencies and transportation services help people who speak other languages by providing translation services or drivers who speak their language. This program promotes hiring culturally diverse staff who speak more than one language.

**PROGRAM ACTIVITY:** County and contracted community partners use case managers and transportation coordinators to screen for eligibility and estimate current transportation needs. They authorize services based on available resources and coordinate rides. Senior centers and Enhancing Equity programs provide services through ADVSD contracts with TriMet, Ride Connection, and Radio Cab. Clients with Medicaid receive transportation services through the ADVSD contract with TransDev.
