Executive Summary

This offer provides new capacity to provide services to victims of sexual assault and includes specialized sexual assault services for medical and legal advocacy, case management, support groups, and counseling.

Program Summary

Oregon has the second-highest lifetime prevalence of rape in the country. In 2014 Multnomah County service providers answered 2,051 calls seeking sexual assault services. Given research that three out of every four sexual assaults are never reported, it is estimated that the rate of sexual assault in our community is substantially higher.

There are no in-person sexual assault-related services available to the 75% of victims in Multnomah County who do not report the assault to police. Victims often are unaware of their rights or fear approaching law enforcement to report crimes, and subsequently never receive specialized trauma or medical services that can help them with their recovery. In recent strategic planning led by the Domestic Violence Coordination Office, funding for sexual assault services, coordinated system-wide planning, and cross-systems collaboration were identified as a high priority for improving countywide responses for victims.

This offer will fund two contracted staff to provide comprehensive sexual assault services to at least 65 victims of rape or sexual assault. These services will include medical and legal advocacy, case management, support groups, counseling, and flexible client funds for emergency needs. Contracted staff will partner with Multnomah County, the Sexual Assault Task Force, local criminal justice systems, medical and mental health providers, and victim services providers. Staff will also work with homeless women's programs and college/university programs to conduct targeted outreach and assessment and recommendation ways to improve local responses to sexual assault.
