Executive Summary

Culturally-specific outpatient mental health services provide treatment for five underserved communities in our county (Pacific Islander, African-American, Eastern European, Latino, and Native-American). These communities have encountered difficulty finding mental health treatment that incorporate their culture, tradition and language. Some communities of color are also over-represented in the criminal justice system. Through this program offer 604 indigent individuals received services in FY13.

Program Summary

The system of care built and maintained by Multnomah County must reflect the demographics of those we serve. To ensure that all members of our community have treatment options that incorporate specific cultural needs, DCHS contracts for mental health services for individuals from five communities currently underserved or insufficiently served. Those communities are: Eastern European, African-American, Pacific Islander, Latino, and Native American. Multnomah County Mental Health prevalence data suggests that members of the African-American and Native American communities are more likely to be placed in restrictive settings such as hospitals and jails as a result of mental health symptoms. African-Americans are also over represented in correctional facilities and the criminal justice system. Culturall- specific services address mental health problems through early access to culturally and linguistically appropriate treatment including nontraditional but culturally appropriate outreach, engagement, and treatment services. Early intervention can mitigate the need for expensive hospital, residential care, or crisis services.
