Executive Summary

The system of care for child victims of commercial sexual exploitation, under the oversight of the Victims' Services Implementation Team (VSIT), provides services to approximately 67 youth under 18 years of age annually. The highly intensive and population-specific shelter and assertive engagement services are designed to intervene with this significantly traumatized group of children.

Program Summary

Commercial Sexual Exploitation of Children (CSEC) is a growing concern nationally. The Pacific Northwest has gained the unenviable reputation as a hub for this crime. Efforts to address CSEC comprehensively through a variety of strategies and services, involving an exceptionally diverse group of stakeholders, have been extremely successful. As a result, Multnomah County is now also seen as a place of promising practice in the field.

As a part of these efforts, a system of care for victims' services has been developed and implemented. Funds support crisis and short-term shelter; assertive engagement services; system support and coordination; and on-going development through VSIT.

Services are provided in a holistic manner and include collaboration with law enforcement, child welfare, juvenile justice, and community advocates. In FY15, 67 child victims were served. Seventy-seven percent received services for six months or longer. Over half of the youth who leave services later return. Fifty percent exit to stable housing and 84% avoid further contact with the criminal justice system.

Results of a process evaluation conducted by the Department of County Human Services (DCHS) determined that 90% of those participating in VSIT found value in networking with others providing services in the system of care, and 75% were satisfied with the overall functioning of the group.
