Executive Summary

As a community, we will all be more successful when all of our residents are healthy and well-fed. The Supplemental Nutrition Assistance Program (SNAP) is one of the best resources to make this a reality. Participation in SNAP provides a better quality diet and nutritional intake for children and adults across the their lifespan compared to low-income people who do not participate. The SNAP outreach program provides information, referral and application assistance to households seeking these benefits.

Program Summary

ISSUE: Oregon consistently ranks among the states with the highest percentage of people experiencing hunger and food insecurity. In a recent analysis, Oregon was the only state in the country with a statistically significant increase in food insecurity. The combination of high rent and low wages makes it difficult for many families to afford food, having to choose between using their limited income on food or other essentials, including rent, medicine, clothing, and utilities. It is estimated that 34% of Multnomah County residents may be eligible for SNAP, while less than 20% participate. Participation in SNAP provides a better quality diet and nutritional intake for children and adults across the their lifespan compared to low-income people who do not participate.

PROGRAM GOAL: The goal of the SNAP Outreach program is to increase the number of eligible households participating in SNAP benefits so that individuals and families have food and nutrition for healthy living.

PROGRAM ACTIVITY: This program has two primary activity areas. First, outreach - the SNAP outreach program targets outreach and connections with two populations that are typically eligible for SNAP, yet have lower than average participation in the program: Latino individuals and families and college students. Program staff use community data to engage in tailored SNAP outreach at community sites to reach the targeted populations. They offer information about SNAP and other local, state and federal benefit programs. Staff also engage in online and social media connections to provide information about SNAP benefits. The second activity area is assisting people to sign up for SNAP benefits. Staff walk through the application process online, respond to questions and address any barriers so that consumers gain immediate access to SNAP benefits and then are able to provide food for themselves and their families.
