Executive Summary

Schools Uniting Neighborhoods Community Schools (SUN CS) provide school-based educational, recreational, social and health services focusing on school-age children at risk of academic failure and their families. The 75 county-supported full-service sites in this offer serve approximately 20,000 students. SUN's nationally recognized award-winning program removes barriers for students and families so that they can achieve educational success and lifelong self-sufficiency. SUN CS is part of the SUN Service System, a countywide integrated and coordinated system of care.

Program Summary

SUN CS is a jointly owned collaboration of the City of Portland, 6 school districts, non-profits, the State and Multnomah County. The SUN partnership leverages significant contributions including an estimated \$3.1 million in cash from partner organizations and 81 total SUN CS sites countywide, having expanded by 11 sites last year due to contributions from partners.

Currently, the 75 SUN Community Schools provide 20,000 youth with a comprehensive array of social and support services that allow students to come to school ready to learn and succeed academically and that foster family success. Services are developmentally appropriate and operate year-round at elementary, middle and high schools. They include: 1) social and health services to meet basic needs; 2) out-of-school-time activities: a broad range of academic support, enrichment, social and behavioral skill development, recreation and adult education; 3) family engagement: support and education for family members so they can prepare children for school and have positive involvement with schools; 4) community and business involvement; and 5) service integration: oversight and coordination of a comprehensive, accessible system of services. SUN Community Schools focus on prevention and also provide significant intervention services, working to reduce poverty and other high-cost service needs in the future. SUN CS is a national model that utilizes best practices and tailors services to the specific needs of local neighborhoods and schools.

Our local evaluation demonstrates that SUN CS are effective in improving student academic success and attendance, as well as engagement, pro-social behaviors and other skills that lead to life success. Outcomes are measured on regularly attending students. SUN CS participants exceed outcome targets and overall perform better than state expectations. Last year, participants had a 96% school attendance rate and 75% improved academic benchmark scores in reading and 73% in math. SUN CS serve the neediest children, targeting those living in poverty and performing below standards. 72% are racial/ethnic minorities, 20% are English Language Learners and 76% receive free or reduced lunch (compared to 48%, 25% and 56% respectively across the school districts).
