

Department: County Human Services **Program Contact:** Peggy Samolinski
Program Offer Type: Support **Program Offer Stage:** As Requested
Related Programs: 25118
Program Characteristics: In Target

Executive Summary

Understanding the impact of public and partner investments in our communities, especially communities of color, is an important aspect of public stewardship. The Data and Evaluation team engages in a variety of activities that support data management and evaluation efforts to better understand and improve programs and services funded by Youth and Family Services. Activities include data collection, report development, analysis, end user training and support, as well as conducting program evaluations for over 29 unique programs.

Program Summary

ISSUE: Historically, data and evaluation activities have been rooted in oppressive practices that harm communities, especially Black, Indigenous, and Communities of Color. The Data and Evaluation team seeks to actively dismantle and undo these oppressive practices by centering racial equity and community voice in the way we gather and analyze data, and evaluate and provide recommendations for program and process improvement across YFS.

PROGRAM GOALS: The primary goal of the Data and Evaluation team is to lead with racial equity in the way we support the data and evaluation needs of all YFS programs, contracted community partners, and department level efforts.

PROGRAM ACTIVITY:

The Data and Evaluation team works to understand the impact of programs and service delivery; and to improve and design new approaches when programs and practices are not effective, particularly for our Black, Indigenous, and other communities of color. This team engages in an array of critical tasks that help support the team's goal, including training and technical assistance for the 261 end-users who enter data into ServicePoint; writing queries for ad hoc and standard reports that pull data from ServicePoint; developing workflow and training materials (for entry and report writing); submitting all funder-required reports; data analysis; and evaluation activities that center providers and participant voice. The team also provides limited system administration support to projects funded through the Joint Office of Homeless Services, including building and maintaining provider settings and assessments; managing visibility settings; and complex report building. Staff also participate in various committees at the Division and Department level that support data transparency, data governance, data quality, research and evaluation activities, and partnership across jurisdiction through collaborative efforts. Evaluation staff participates in the DCHS Performance Management Council that focuses, in part, on performance management efforts that are consistent across the Department, and that tie required activities to population-level results.

Performance Measures

Measure Type	Primary Measure	FY20 Actual	FY21 Budgeted	FY21 Estimate	FY22 Offer
Output	Number of new end users trained to use ServicePoint & ART that support accurate data entry and report usage.	141	150	150	150
Outcome	Percent of users who report satisfaction with YFS staff for overall services provided. ¹	N/A	80%	80%	80%

Performance Measures Descriptions

¹Survey is conducted in spring, and was not administered last year due to the COVID-19 pandemic.
