Executive Summary

The YFS Data and Evaluation Team provides recommendations for program and process improvement. YFS and DCHS leadership use these recommendations to make programs stronger and more effective. Data and evaluation activities help highlight disparities that may be occurring within programs. They also ensure the programs are having the desired impact and uplifting our community, especially Black, Indigenous, and People of Color. YFS Data and Evaluation activities include: data collection, report development, analysis, end user training, and program evaluation. This team supports over 29 unique programs.

Program Description

ISSUE: Historically, data and evaluation activities have been rooted in oppressive practices. These practices have harmed communities of color, especially Black, Indigenous, and People of Color. The Data and Evaluation Team seeks to dismantle and undo these harmful practices. This team centers racial equity and community voice as they gather and analyze data

PROGRAM GOALS: The primary goal of the Data and Evaluation Team is to lead with racial equity in all activities. The team's priorities are to center provider and participant voice.

PROGRAM ACTIVITY: The Data and Evaluation Team supports all YFS programs and community partners. The team works to understand the impact of programs and service delivery. When programs and practices are not effective, the team helps suggest new approaches so that the community is better served. The team has three main functions:

- 1) Training, technical assistance, data management, and reporting
- 2) Research and evaluation activities to help understand impact and improve program delivery.
- 3) Support division wide process, evaluation and data projects.

The team works with program staff and providers to ensure that the data collected is meaningful, high quality, and necessary. Staff also take part in Division and Department workgroups to support data quality, transparency, and governance. The key to success in each of these areas is the strong relationships the team builds with providers, partners, and the community.
