## **Adult Community Supervision: Caseloads**

## Juvenile Community Supervision: Caseloads

**Notes**. The DA Adult Caseload data was updated for 10/03 - 5/04 to reflect the number of cases with only the initial issued dates; the pattern continues to be erratic. Preliminary court processing data has been developed by the DSSJ team; test results presented have not been 100% verified. The adult supervision caseloads declined slightly over April. "Casebank" services have been reengineered and are now referred to as "*Reduced Supervision Team*." The juvenile caseload remained constant overall.
