

\$45,175,000
Multnomah County, Oregon
General Obligation Refunding Bonds, Series 2010

DATED: March 31, 2010 (“Date of Delivery”)

DUE: October 1, as shown below

MOODY’S RATING — “Aa1,” underlying. See “Rating” herein.

NOT BANK QUALIFIED — Multnomah County, Oregon (the “County”) has NOT designated the General Obligation Refunding Bonds, Series 2010 (the “Bonds”) as “qualified tax-exempt obligations” for purposes of Section 265(b)(3)(B) of the Internal Revenue Code of 1986, as amended (the “Code”).

BOOK-ENTRY ONLY SYSTEM — The Bonds will be issued, executed and delivered in fully registered form under a book-entry only system and registered in the name of Cede & Co., as owner and nominee for The Depository Trust Company (“DTC”). DTC will act as initial securities depository for the Bonds. Individual purchases of the Bonds will be made in book-entry form, in the denomination of \$5,000 or any integral multiple thereof. Purchasers will not receive certificates representing their interest in the Bonds purchased.

PRINCIPAL AND INTEREST PAYMENTS — Interest on the Bonds will be paid on October 1, 2010 and semiannually thereafter on April 1 and October 1 of each year to the maturity of the Bonds. Principal of and interest on the Bonds will be payable by the County’s Paying Agent, initially U.S. Bank National Association, to DTC which, in turn, will remit such principal and interest to the DTC participants for subsequent disbursement to the beneficial owners of the Bonds at the address appearing upon the registration books on the 15th day (the “Record Date”) of the month preceding a payment date.

PURPOSE — The Bonds are being issued to refinance the County’s General Obligation Refunding Bonds, Series 1999 and to pay the costs of issuance of the Bonds. See “Purpose and Use of Proceeds” herein.

MATURITY SCHEDULE —

Due		Interest		CUSIP	Due		Interest		CUSIP
October 1	Amounts	Rates	Yields	625506	October 1	Amounts	Rates	Yields	625506
2010	\$ 6,555,000	3.00%	0.25%	LW8	2014	\$ 6,155,000	5.00%	1.11%	MA5
2011	6,825,000	5.00	0.45	LX6	2015	5,665,000	4.00	1.50	MB3
2012	6,860,000	5.00	0.60	LY4	2016	5,905,000	4.00	1.93	MC1
2013	7,210,000	5.00	0.84	LZ1					

REDEMPTION — The Bonds are not subject to redemption prior to maturity.

SECURITY — The Bonds are general obligations of the County. The full faith and credit and taxing powers of the County are pledged to the successive owners of each of the Bonds (the “Bondowners”) for the punctual payment of such obligations, when due. The County covenants with the Bondowners to levy annually a direct ad valorem tax upon all of the taxable property within the County without limitation as to rate or amount, and outside of the limitations of sections 11 and 11b, Article XI of the Oregon Constitution, after taking into consideration discounts taken and delinquencies that may occur in the payment of such taxes, and any other funds available to pay interest accruing and the principal maturing on the Bonds promptly when and as they become due. The Bonds do not constitute a debt or indebtedness of the State of Oregon, or any political subdivision thereof other than the County.

TAX MATTERS — *In the opinion of K&L Gates LLP, Bond Counsel to the County (“Bond Counsel”), assuming compliance with certain covenants of the County, interest on the Bonds is excludable from gross income for federal income tax purposes under existing law. Interest on the Bonds is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations. Interest is included in adjusted current earnings for the purpose of computing the federal alternative minimum tax imposed on certain corporations. See “Tax Matters” herein for a discussion of the opinion of Bond Counsel. In the opinion of Bond Counsel, interest on the Bonds is exempt from Oregon personal income tax under existing law.*

DELIVERY — The Bonds are offered for sale to the original purchaser subject to the final approving legal opinion of Bond Counsel. It is expected that the Bonds will be available for delivery to the Paying Agent for Fast Automated Securities Transfer on behalf of DTC, on the Date of Delivery.

Certain statements contained in this Official Statement do not reflect historical facts, but are forecasts and "forward-looking statements." No assurance can be given that the future results discussed herein will be achieved, and actual results may differ materially from the forecasts described herein. In this respect, words such as "estimated," "projected," "anticipate," "expect," "intend," "plan," "believe" and similar expressions are intended to identify forward-looking statements. All projections, assumptions and other forward-looking statements are expressly qualified in the entirety by the cautionary statements set forth in this Official Statement.

Certain information contained herein has been obtained from the County and other sources which are believed to be reliable, but the accuracy or completeness of such information is not guaranteed and such information is not to be construed to be a representation of the County, or Seattle-Northwest Securities Corporation (the "Financial Advisor"). The Financial Advisor has reviewed the information in this Official Statement in accordance with, and as a part of, its responsibilities to investors under the federal securities laws as applied to the facts and circumstances of this transaction, but the Financial Advisor does not guarantee the accuracy or completeness of such information. Neither the delivery of this Official Statement nor any sale made hereunder shall, under any circumstances, create any implication that there has been no change in the affairs of the parties referred to above since the date hereof.

CUSIP® is a registered trademark of the American Bankers Association. The CUSIP numbers included in the Maturity Schedule on the cover page were provided by Standard and Poor's, CUSIP Service Bureau, a division of the McGraw-Hill Companies, Inc. The CUSIP numbers are not intended to create a database and do not service in any way as a substitute for the CUSIP Service. CUSIP numbers are provided for convenience and reference only. CUSIP numbers are subject to change. Neither the County nor the Financial Advisor take any responsibility for the accuracy of such CUSIP numbers.

Web addresses contained in this Official Statement are inactive textual references, not hyperlinks, and any websites, by such reference, are not incorporated herein.

No dealer, broker, salesman or other person has been authorized by the County or the Financial Advisor to give information or to make any representations with respect to the Bonds, other than those contained in this Official Statement, and, if given or made, such other information or representations must not be relied upon as having been authorized by any of the foregoing. This Official Statement does not constitute an offer to sell or the solicitation of an offer to buy, nor shall there be any sale of the Bonds by any person in any jurisdiction in which it is unlawful for such person to make such offer, solicitation or sale.

The prices at which the Bonds are offered to the public by the Financial Advisor (and the yields resulting therefrom) may vary from the initial public offering prices appearing on the cover page hereof. In addition, the Financial Advisor may allow concessions or discounts from such initial public offering prices to dealers and others. In connection with the offering of the Bonds, the Financial Advisor may effect transactions that stabilize or maintain the market price of the Bonds at a level above that which might otherwise prevail in the open market. Such stabilizing, if commenced, may be discontinued at any time.

OFFICIAL STATEMENT
Multnomah County, Oregon
\$45,175,000
General Obligation Refunding Bonds, Series 2010

Multnomah County, Oregon (the "County"), a municipal corporation duly organized and existing under and by virtue of the laws of the State of Oregon (the "State") furnishes this Official Statement in connection with the offering of \$45,175,000 aggregate principal amount of General Obligation Refunding Bonds, Series 2010 (the "Bonds"), dated the Date of Delivery. This Official Statement, which includes the cover page, Notice of Sale, bid form and appendices, provides information concerning the County and the Bonds.

The information set forth herein has been obtained from the County and other sources that are believed to be reliable. Seattle-Northwest Securities Corporation (the "Financial Advisor") has relied on the County with respect to the accuracy and sufficiency of such information and such information is not to be construed as a representation, warranty or guarantee by the Financial Advisor. So far as any statement herein includes matters of opinion, or estimates of future expenses and income, whether or not expressly so stated, they are intended merely as such and not as representations of fact.

Description of the Bonds

Principal Amount, Date, Interest Rates and Maturities

The Bonds will be issued in the aggregate principal amount posted on the cover of this Official Statement and will be dated and bear interest from the Date of Delivery. The Bonds will mature on the dates and in the principal amounts set forth on the cover of this Official Statement and will bear interest, payable semiannually on April 1 and October 1 of each year, commencing October 1, 2010, until the maturity of the Bonds. Interest on the Bonds will be computed on the basis of a 360-day year comprised of twelve 30-day months.

Paying Agent and Registration Features

Book-Entry System. The Bonds will be issued in fully registered form and, when issued, will be registered in the name of Cede & Co. as owner and as nominee for The Depository Trust Company, New York, New York ("DTC"). DTC will act as securities depository for the Bonds. Individual purchases and sales of the Bonds may be made in book-entry form only in minimum denominations of \$5,000 within a single maturity and integral multiples thereof. Purchasers will not receive certificates representing their interest in the Bonds. See Appendix C attached hereto for additional information.

Paying Agent. The principal of and interest on the Bonds will be payable by U.S. Bank National Association (the "Paying Agent" and "Bond Registrar") to DTC, which, in turn, is obligated to remit such principal and interest to its participants ("DTC Participants") for subsequent disbursement to the persons in whose names such Bonds are registered (the "Beneficial Owners") of the Bonds, as further described in Appendix C attached hereto. Interest on the Bonds shall be credited to the Beneficial Owners by the DTC Participants.

Procedure in the Event of Revisions of Book-Entry Transfer System. If DTC resigns as the securities depository and the County is unable to retain a qualified successor to DTC, or the County has determined that it is in the best interest of the County not to continue the book-entry system of transfer or that interests of the Beneficial Owners of the Bonds might be adversely affected if the book-entry system of transfer is continued, the County will cause the Paying Agent to authenticate and deliver to the Beneficial Owners of the Bonds or their nominees, replacement Bonds in fully registered form, in the denomination of \$5,000 or any integral multiple thereof within a maturity. Thereafter, the principal of the Bonds will be payable upon due presentment and surrender thereof at the principal office of the Bond Registrar; interest on the Bonds will be delivered to the persons in whose names such Bonds are registered, at the address appearing upon the registration books on

the Record Date preceding an interest payment date, and the Bonds will be transferable as provided in the Resolution (as defined herein).

Redemption Provisions

The Bonds are not subject to redemption prior to maturity.

Authorization for Issuance

The County previously issued its General Obligation Refunding Bonds, Series 1999, dated February 1, 1999, in the original aggregate principal amount of \$66,115,000 (the "Series 1999 Bonds") pursuant to a resolution adopted by the County's Board of Commissioners (the "Board of Commissioners") on December 17, 1998. The Series 1999 Bonds were issued to advance refund the County's General Obligation Library Bonds, Series 1994, General Obligation Library Bonds, Series 1994B, General Obligation Library Bonds, Series 1996A, General Obligation Library Bonds, Series 1996B, General Obligation Public Safety Bonds, Series 1996B, and to pay costs of issuance of the Series 1999 Bonds.

A portion of the proceeds of the Bonds will be used to refund all or a portion of the Series 1999 Bonds (the "Refunded Bonds") and to pay the costs of issuance of the Bonds.

Under and in accordance with State laws and provisions, specifically Oregon Revised Statutes ("ORS") Chapter 287A, the Bonds are being issued pursuant to Resolution No. 2010-19 (the "Resolution") adopted by the Board of Commissioners on February 18, 2010. The Bonds may be issued without voter approval.

Purpose and Use of Proceeds

Purpose

The Bonds are being issued so that the County can obtain a benefit of a savings in total debt service requirements.

Sources and Uses of Funds

The proceeds of the Bonds are estimated to be applied as follows:

Sources and Uses of Funds

Sources of Funds	
Par Amount of Bonds	\$ 45,175,000
Original Issue Premium	4,870,169
Total Sources of Funds	<u>\$ 50,045,169</u>
Uses of Funds	
Escrow Requirements	\$ 49,890,849
Underwriting, Issuance Costs, and Contingency	154,320
Total Uses of Funds	<u>\$ 50,045,169</u>

Refunding Procedure

A portion of the proceeds of the Bonds will be used to provide funds to establish an irrevocable trust escrow pursuant to an escrow deposit agreement (the "Escrow Deposit Agreement") between the County and U.S. Bank National Association, as escrow agent thereunder (the "Escrow Agent") to refund the Refunded Bonds, as shown below:

Refunded Bonds

Series	Total Amount Outstanding	Refunded Maturities	Amount Refunded	Call Date	Call Price ⁽¹⁾
1999	\$ 49,710,000	2010-2016	\$ 49,710,000	04/30/10	100%
Refunded Maturities	Amount Refunded	CUSIP 625506	Refunded Maturities	Amount Refunded	CUSIP 625506
10/1/2010	\$ 7,160,000	GM6	10/1/2014	\$ 6,780,000	GR5
10/1/2011	7,470,000	GN4	10/1/2015	6,330,000	GS3
10/1/2012	7,490,000	GP9	10/1/2016	6,645,000	GT1
10/1/2013	7,835,000	GQ7			

(1) Call price is expressed as a percentage of the principal amount.

From the proceeds of the Bonds, the County will purchase certain direct United States government obligations (referred to herein as "Government Obligations"). These Government Obligations will be deposited in the custody of the Escrow Agent. The maturing principal of the Government Obligations, interest earned thereon, and necessary cash balance, if any, will provide funds sufficient to pay interest on the Refunded Bonds and redeem all remaining principal on the call date shown in the preceding table.

The Government Obligations, interest earned thereon, and necessary cash balance, if any, will irrevocably be pledged to and held in trust for the benefit of the Owners of the Refunded Bonds by the Escrow Agent, pursuant to the Escrow Agreement.

Verification of Mathematical Calculations

An independent verification by Grant Thornton LLP, Minneapolis, Minnesota, certified public accountants, will be obtained to the effect that the Governmental Obligations, interest thereon, and the cash balance will be adequate to make all required payments outlined above.

Security for the Bonds

General

The Bonds are general obligations of the County. The full faith and credit of the County are pledged to the successive owners of each of the Bonds (the "Owners" or "Bondowners") for the punctual payment of such obligations, when due. The County covenants with the Bondowners to levy annually a direct ad valorem tax upon all of the taxable property within the County in an amount without limitation as to rate or amount, and outside of the limitations of sections 11 and 11b, Article XI of the Oregon Constitution, after taking into consideration discounts taken and delinquencies that may occur in the payment of such taxes, and any other funds available to pay interest accruing and the principal maturing on the Bonds promptly when and as they become due. The taxes, when collected, are required to be applied solely for the purpose of payment of principal and interest on the Bonds and for no other purpose until the Bonds have been fully paid, satisfied and discharged.

The County may, subject to applicable laws, apply other funds available to make payments with respect to the Bonds and thereby reduce the amount of future tax levies for such purpose.

The Bonds do not constitute a debt or indebtedness of the State, or any political subdivision thereof other than the County.

Ratings

As noted on the cover page of this Official Statement, the County has received a rating of "Aa1" for the Bonds from Moody's Investors Service. The rating reflects only the views of the rating agency and an explanation of the significance of the rating may be obtained from the rating agency. There is no assurance that the rating will

be retained for any given period of time or that the rating will not be revised downward or withdrawn entirely by the rating agency if, in its judgment, circumstances so warrant. Any such downward revision or withdrawal of the rating will be likely to have an adverse effect on the market price of the Bonds.

Bonded Indebtedness

Debt Limitation

General Obligation Bonds. ORS 287A.100 establishes a limit on bonded indebtedness for counties. Counties may issue an aggregate principal amount up to two percent of the Real Market Value of all taxable properties within the county. **The Bonds are general obligation bonds and are subject to this debt limitation, as shown below:**

Multnomah County Debt Capacity

Real Market Value (Fiscal Year 2010) ⁽¹⁾ :	<u>\$ 105,028,015,063</u>				
	<u>Debt Limitation (% of RMV)</u>	<u>Total Debt Capacity</u>	<u>Outstanding Debt Subject to Limit</u>	<u>Remaining Legal Capacity</u>	<u>Percent of Capacity Issued</u>
General Obligation Bonds ⁽²⁾	2.00%	\$ 2,100,560,301	\$ 45,175,000	\$ 2,055,385,301	2.15%
Limited Tax Pension Bonds ⁽³⁾	5.00%	\$ 5,251,400,753	\$ 159,113,160	\$ 5,092,287,593	3.03%
Limited Tax Bonds ⁽⁴⁾	1.00%	\$ 1,050,280,151	\$ 70,465,000	\$ 979,815,151	6.71%

(1) The County's fiscal year commences July 1 and ends on June 30 of the following year (the "Fiscal Year"). *Source: Multnomah County Department of Assessment and Taxation.*

(2) Represents voter-approved, unlimited-tax general obligations of the County, including the impact of the refunding and the Bonds.

(3) Includes the County's pension bonds.

(4) Includes the County's outstanding full faith and credit obligations and the Full Faith and Credit Obligations, Series 2010 (see "Future Financings" herein).

Source: Multnomah County Audited Financial Reports for the Fiscal Year Ended June 30, 2009, the County's anticipated Full Faith and Credit Obligations, Series 2010, and the Bonds.

Full Faith and Credit Obligations. School districts, education service districts, community colleges and local governments may pledge their full faith and credit for "limited tax bonded indebtedness" or "full faith and credit obligations." A county may not have limited tax bonded indebtedness outstanding in an amount that exceeds one percent of the Real Market Value of all taxable properties within the county. Full faith and credit obligations can take the form of bonds, certificates of participation, notes or capital leases. Collection of property taxes to pay principal and interest on such limited-tax debt is subject to the limitations of Article XI, Sections 11 and 11b. **The Bonds are not limited-tax debt.**

Pension Bonds. ORS 238.694 authorizes counties to issue full faith and credit obligations to finance pension liabilities in an amount that does not exceed five percent of the Real Market Value of all taxable property in the county. Pension bonds are not general obligations as defined under State law and the County is not authorized to levy additional taxes to make pension bond payments. **The Bonds are not pension bonds.**

Revenue Bonds. The County may issue revenue bonds for "... any public purpose, which are secured by revenues including revenues of a public utility or system either pledged or designated to be payable for such public purpose of the public body including improvements, projects or facilities financed by the revenue bonds of the public utility or system ..." pursuant to the Uniform Revenue Bond Act (ORS 287A.150). **The Bonds are not revenue bonds.**

Outstanding Long-Term Debt

Per Capita Total Direct Debt	\$ 5,678	\$ 2,500

- (1) Gross Direct Debt includes all unlimited (general obligation bonds) and limited (full faith and credit obligations) tax supported debt. Limited tax pension obligations are included.
- (2) Net Debt is Gross Direct Debt less self-supporting limited and unlimited tax supported debt. Limited tax pension obligations are considered self-supporting obligations.

Sources: Debt Management Division, The Office of the State Treasurer and Multnomah County Audited Financial Reports for the Fiscal Year Ended June 30, 2009.

Short-Term Borrowing

ORS 287A.180(3)(b) requires that obligations issued in anticipation of taxes or other revenues shall not be issued in an amount greater than 80 percent of the amount budgeted to be received in the Fiscal Year in which the obligations are issued. In Fiscal Years 2005, 2006 and 2007 the County issued tax anticipation notes. Listed below are the amounts borrowed and dates retired.

Tax and Revenue Anticipation Notes

Fiscal Year	Principal	Interest Rate	Maturity Date
2007	\$ 20,000,000	4.50%	June 29, 2007
2006	20,000,000	4.00	June 30, 2006
2005	20,000,000	3.00	June 30, 2005

Source: Multnomah County Audited Financial Reports.

Debt Payment Record

The County has promptly met principal and interest payments on outstanding bonds and other indebtedness when due. Additionally, no refunding bonds have been issued for the purpose of preventing an impending default.

Future Financings

Capital Projects. Other than the Bonds, the County has no authorized but unissued bonds outstanding. The County anticipates issuing \$9,800,000 of Full Faith and Credit Obligations, Series 2010 in March 2010. The County does not anticipate issuing other additional long-term debt within calendar year 2010.

Short-term Notes. The County may issue a tax and revenue anticipation note in June 2010 in an amount not to exceed \$20 million.

Revenue Sources

County Funding

The County derives revenue from three primary sources: grants and contributions, ad valorem property taxes, and charges for services. The following section summarizes certain of the major revenue sources of the County.

Grants and Contributions

Operating grants and contributions represented approximately 35 percent of the County's total governmental activities revenues in Fiscal Year 2009. Grants and contributions are generally dedicated to specific purposes.

Property Taxes

Most local governments, school districts, education service districts and community college districts ("local governments") have permanent authority to levy property taxes for operations ("Permanent Rates") up to a maximum rate (the "Operating Tax Rate Limit"). Local governments that have never levied property taxes may request that the voters approve a new Operating Tax Rate Limit.

Local governments may not increase their Operating Tax Rate Limits; rather they may only request that voters approve limited term levies for operations or capital expenditures ("Local Option Levies") or levies to repay general obligation bonded indebtedness ("General Obligation Bond Levies").

Local Option Levies that fund operating expenses are limited to five years, and Local Option Levies that are dedicated to capital expenditures are limited to ten years.

The County currently has a Local Option Levy to fund library operations. The levy of \$0.89 per 1,000 of assessed value was approved in November 2006 and will expire in Fiscal Year 2012. In Fiscal Year 2009 the levy generated \$39.4 million.

Local governments impose property taxes by certifying their levies to the county assessor of the county in which the local government is located. Property taxes ordinarily can only be levied once each Fiscal Year, which is July 1 through June 30. The local government ordinarily must notify the county assessor of its levies by July 15.

Valuation of Property – Real Market Value. "Real Market Value" is the minimum amount in cash which could reasonably be expected by an informed seller acting without compulsion, from an informed buyer acting without compulsion, in an "arms-length" transaction during the period for which the property is taxed.

Property subject to taxation includes all privately owned real property (land, buildings and improvements) and personal property (machinery, office furniture and equipment) for non-residential taxpayers. There is no property tax on household furnishings (exempt since 1913), personal belongings, automobiles (exempt since 1920), crops, orchards, business inventories or intangible property such as stocks, bonds or bank accounts, except for centrally assessed utilities, for which intangible personal property is subject to taxation.

Property used for charitable, religious, fraternal and governmental purposes is exempt from taxation. Special assessments that provide a reduction in the taxable Real Market Value may be granted (upon application) for veterans' homesteads, farm and forest land, open space and historic buildings. The Real Market Value of specially assessed properties is often called the "Taxable Real Market Value" or "Measure 5 Real Market Value." The assessment roll, a listing of all taxable property, is prepared as of January 1 of each year.

Valuation of Property – Assessed Value. Property taxes are imposed on the assessed value of property. The assessed value of each parcel cannot exceed its Taxable Real Market Value, and ordinarily is less than its Taxable Real Market Value. The assessed value of property was initially established in 1997 as a result of a constitutional amendment. That amendment (now Article XI, Section 11, often called “Measure 50”) assigned each property a value and limited increases in that assessed value to three percent per year, unless the property is improved, rezoned, subdivided, or ceases to qualify for exemption. When property is newly constructed or reassessed because it is improved, rezoned, subdivided, or ceases to qualify for exemption, it is assigned an assessed value that is comparable to the assessed value of similar property.

The Oregon Department of Revenue (“ODR”) appraises and establishes values for utility property, forestland and most large industrial property for county tax rolls. It collects taxes on harvested timber for distribution to schools, county taxing districts, and State programs related to timber. Certain properties, such as utilities, are valued on the unitary valuation approach. Under the unitary valuation approach, the taxpaying entity’s operating system is defined and a value is assigned for the operating unit using the market value approach (cost, market value and income appraisals). Values are then allocated to the entities’ operations in Oregon, and then to each county the entity operates in and finally to site locations.

Generally speaking, industrial properties are valued using an income approach, but ODR may apply additions or retirements to the property value through a cost of materials approach. Under the income and cost of materials approaches, property values fluctuate from year-to-year.

Tax Rate Limitation – Measure 5. A tax rate limitation was established in 1990 as the result of a constitutional amendment. That amendment (now Article XI, Section 11b, often called “Measure 5”) separates property taxes into two categories: one to fund the public school system (kindergarten through grade twelve school districts, education service districts and community college districts, collectively, “Education Taxes”) and one to fund government operations other than the public school system (“General Government Taxes”). Education Taxes are limited to \$5 per \$1,000 and General Government taxes are limited to \$10 per \$1,000 of the Taxable Real Market Value of property (the “Measure 5 Limits”). If the taxes on a property exceed the Measure 5 Limit for Education or General Government, then tax rates are compressed to the Measure 5 Limit. Local Option Levy rates compress to zero before there is any compression of Permanent Rates. In Fiscal Year 2010, there was \$6,003,072.41 of compression of the County’s Permanent Rate due to the tax rate limitation. In addition, there was \$ 7,663,796.50 of compression of the County’s Local Option Levy.

Taxes imposed to pay the principal and interest on the following bonded indebtedness are not subject to Measure 5 Limits: (1) bonded indebtedness authorized by a specific provision of the Oregon Constitution; and (2) general obligation bonded indebtedness incurred for capital construction or improvements approved by the electors of the issuer and bonds issued to refund such bonds. **Property taxes imposed to pay the principal of and interest on the Bonds are not subject to the limitations of Article XI, Sections 11 and 11b.**

In 2007 the Oregon Supreme Court determined that taxes levied by general purpose governments (such as cities and counties) may be subject to the \$5 per \$1,000 limit if those taxes are used for educational services provided by public schools.

Property Tax Collections. Each county assessor is required to deliver the tax roll to the county tax collector in sufficient time to mail tax statements on or before October 25 each year. All tax levy revenues collected by a county for all taxing districts within the county are required to be placed in an unsegregated pool, and each taxing districts shares in the pool in the same proportion as its levy bears to the total of all taxes levied by all taxing districts within the county. As a result, the tax collection record of each taxing district is a *pro-rata* share of the total tax collection record of all taxing districts within the county combined.

Under the partial payment schedule, taxes are payable in three equal installments on the 15th of November, February and May of the same Fiscal Year. The method of giving notice of taxes due, the county treasurer’s account for the money collected, the division of the taxes among the various taxing districts, notices of delinquency, and collection procedures are all specified by detailed statutes. The lien for property taxes is prior to all other liens or encumbrances of any kind on real or personal property subject to taxation. By law, a

county may not commence foreclosure of a tax lien on real property until three years have passed since the first delinquency.

A Senior Citizen Property Tax Deferral Program (1963) allows certain homeowners to defer taxes until death or sale of the home. A similar program is offered for Disability Tax Deferral (2001), which does not have an age limitation.

The following tables represent historical tax information for the County.

Taxable Property Values

Fiscal Year	M5 Real Market Value ⁽¹⁾	Total Assessed Value	Urban Renewal Excess	AV to Compute the Rate ⁽²⁾
2010	\$ 105,028,015,063	\$ 59,301,125,312	\$ 4,751,822,133	\$ 54,549,303,179
2009	107,381,958,130	56,959,073,565	4,144,208,538	52,814,865,027
2008	100,302,763,266	54,303,309,732	3,631,631,788	50,671,677,944
2007	87,057,725,859	51,433,028,145	3,206,806,710	48,226,221,435
2006	78,162,114,142	49,212,969,369	2,836,380,132	46,349,776,337
2005	70,650,649,996	47,314,670,129	2,403,448,376	44,911,221,753

- (1) Value represents the Real Market Value of taxable properties, including the reduction in Real Market Value of specially assessed properties such as farm and forestland. This value is also commonly referred to as the Measure 5 Real Market Value by county assessors.
- (2) Assessed value of property in the County on which the permanent rate is applied to derive *ad valorem* property taxes, excluding urban renewal and any other offsets.

Source: Multnomah County Department of Assessment and Taxation.

The following table presents the Fiscal Year 2010 tax rates for the County and other taxing jurisdictions within the County. The County’s Operating Tax Rate Limit is \$4.3434 per \$1,000 of assessed property value. The Operating Tax Rate Limit was calculated in conjunction with the implementation of Measure 50 in 1997. The Permanent Rates shown in the following table are the rates that are actually applied to the assessed value of the taxing district. The Permanent Rates may be different from the Operating Tax Rate Limit of the taxing district due to the decision by the taxing district to levy less than its Operating Tax Rate Limit.

Total Tax Rate	\$ 15.4547	\$ 3.7893	\$ 2.5426	\$ 21.7866	\$ 2.0787

NOTE: County assessors report levy rates by tax code. Levy rates apply to the assessed property value. Measure 5 Limits are based on the Taxable Real Market Value and are only reported in total dollar amount of compression, if any, for each taxing jurisdiction (see "Property Taxes - Tax Rate Limitation - Measure 5" herein).

- (1) Local Option Levies are voter-approved serial levies. They are limited by ORS 280.060 to five years for operations or ten years for capital construction. Local Option Levy rates compress to zero before there is any compression of district billing rates (see "Property Taxes - Tax Rate Limitation - Measure 5" herein).
- (2) A portion of a taxing district's consolidated rate is contributed to the Portland Development Commission through tax increment financing.

Source: Multnomah County Department of Assessment and Taxation. Note that there are 123 tax codes in the County and Tax Code 001 has the highest property value of these tax codes. Total tax levies in the District range from \$12.1834 to \$22.9086 per \$1,000 of assessed property value.

Strategic Investments Program

The Strategic Investments Program (“SIP”) was authorized by the Legislative Assembly (the Oregon Senate and Oregon House of Representatives are referred to herein as the “Legislative Assembly”) in 1993 to provide tax incentives for capital intensive investments by firms in Oregon’s key industries, particularly in the high technology and metals industries. SIP recipients receive a tax break on the assessed value of new construction over \$100 million for 15 years. The \$100 million cap on assessed value increases by six percent per year. SIP recipients pay an annual Community Service Fee which is equal to twenty-five percent of the value of the tax break, which is allocated to local governments. Allocation is determined by negotiation of the local governments. The Community Service Fee is not considered a property tax and thus is outside of the Constitutional property tax rate limitations. Microchip, a wafer-fabrication manufacturing facility located in Gresham, is an SIP recipient.

Other Taxes

Oregon cities and counties generally have broad authority to impose taxes on activities within their boundaries. Certain Oregon cities and counties currently impose business license taxes, food and beverage taxes, motor vehicle fuel taxes, transient room taxes and other taxes. Generally these taxes must be either approved by the voters or may be subject to referral by the voters.

The Legislative Assembly generally has the authority to limit or prohibit local governments from imposing taxes, and has limited a number of local government taxes, including transient room taxes and real estate transfer taxes. Each local government has its own mix of taxes, as well as fees and other revenue sources.

The County currently imposes a business income tax, motor vehicle rental tax, transient lodging tax, and gas tax. In Fiscal Year 2009 the County received \$42.9 million from the business income tax, \$19.3 million from the motor vehicle rental tax, \$22.4 million from the transient lodging tax, and \$6.9 million from the gas tax.

State of Oregon Funding

Oregon cities and counties receive a share of the revenues the State receives from taxing motor vehicle fuels. The Oregon Constitution requires that these revenues be used only to pay for costs of public roads. Oregon

cities and counties also receive a share of the revenues the State of Oregon receives from tobacco taxes and liquor taxes.

The State of Oregon also appropriates money to Oregon counties to operate the justice system, and it provides a wide variety of funding for other purposes. The State of Oregon is generally not obligated to continue to provide these revenues to local governments.

Federal Funding

Oregon local governments receive federal funding for a variety of purposes. That funding is generally restricted to specific purposes.

State Reserve Funds

The 2007 Legislative Assembly created two budgetary reserve funds, the Oregon Rainy Day Fund and the Education Stability Fund. With the approval of three-fifths of each house, the Legislative Assembly may appropriate up to two-thirds of the money in the Oregon Rainy Day Fund or Education Stability Fund for use in any biennium if certain economic or revenue triggers occur. The December 2009 Forecast projects that at the end of the 2009-2011 biennium the Education Stability Fund and the Oregon Rainy Day Fund will have ending fund balances of \$185.0 million and \$127.4 million, respectively.

Oregon Rainy Day Fund. The Oregon Rainy Day Fund may be drawn on for any General Fund purpose in the event of a downturn in State revenues. In September 2007 the State made an initial one-time deposit into the Oregon Rainy Day Fund of \$319.2 million from the corporate income tax credit (known as the “corporate kicker”). The Oregon Rainy Day Fund retains interest earnings in the fund. After the current biennium, the Oregon Rainy Day Fund is to receive biennial deposits from the ending General Fund balance in an amount equal to the lesser of (a) the actual General Fund ending balance for the preceding biennium or (b) one percent of the amount of General Fund appropriations for the preceding biennium. The amount deposited to the Oregon Rainy Day Fund is capped at 7.5 percent of General Fund revenues for a biennium.

Education Stability Fund. Under the Oregon Constitution, 18 percent of the net proceeds from the State Lottery must be deposited in the Education Stability Fund. The Education Stability Fund retains earnings in the fund or spends them on public education. The amount in the Education Stability Fund may not exceed 5% of the amount that was accrued as revenues in the State’s General Fund during the prior biennium.

The County

General Description

The County, incorporated in 1854, is located in northwestern Oregon at the confluence of the Columbia and Willamette Rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles and serves an estimated population of 701,545. The cities of Portland and Gresham are the largest incorporated cities in the County.

The County provides a full range of services, including public safety protection; corrections and probation; construction and maintenance of roads, highways, bridges and other infrastructure; health and social services; library and community enhancement; and internal business support.

Component Units

Certain sanitary and lighting services are provided as legally separate Service District Authorities, which function, in essence, as departments of the County and are included in the County’s financial statements as component units. The County also maintains a Hospital Facilities Authority whose primary purpose is to issue conduit debt for health care facilities. The Hospital Facilities Authority is also considered a component unit, but is not included in the County’s financial statements.

Form of Government

The County is governed according to its Home Rule Charter, which became effective January 1967 and as subsequently amended. The County is governed by a Board of Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of Commissioners conducts all legislative business of the County. The current members of the Board of Commissioners follow:

Board of Commissioners

Name	Position	Service Began	Term Expires ⁽¹⁾
Jana McLellan ⁽²⁾	Interim Chair	March 11, 2010	December 31, 2010
Deborah Kafoury	Commissioner	January 1, 2009	December 31, 2012
Jeff Cogen ⁽³⁾	Commissioner	January 1, 2007	December 31, 2010
Judy Shiprack	Commissioner	January 1, 2009	December 31, 2012
Diane McKeel	Commissioner	January 1, 2009	December 31, 2012

- (1) Terms expiring December 31, 2010 will be filled at the May 18, 2010 election. If no single candidate receives over 50 percent of the vote at the May election, the two candidates who receive the most votes will appear on the November 2, 2010 election. The filing deadline for candidates running for office in the May 18, 2010 election was March 9, 2010. The term for members of the Board of Commissioners elected on May 18, 2010 will be from January 1, 2011 through December 31, 2014.
- (2) March 11, 2010 Chief Operating Officer Jana McLellan became acting Chair of the Board of County Commissioners after former Chair Ted Wheeler resigned to take an appointment to the office of State Treasurer. The Board of Commissioners will select an interim Chair to serve the remainder of Wheeler's term. Four candidates have filed for the Chair position, including current Commissioner Jeff Cogen.
- (3) Commissioner Jeff Cogen has withdrawn from his re-election campaign to run for the Chair position. Ten candidates have filed for Commissioner Cogen's seat.

Key Administrative Officials

An executive committee of top managers meets regularly to provide coordinated management of all County priorities. The executive committee includes the Chief Operating Officer and Department Directors. Brief biographies of the Chief Financial Officer and Treasury Manager follow:

Mindy Harris, Chief Financial Officer. Mindy Harris, CFO, has been with the County since 1979. She has been in the Finance area for over 20 years, and is currently responsible for all aspects of the County's financial management. Ms. Harris received a degree in Business Administration from Portland State University, with concentration in Management and Accounting. She is a member of the Government Finance Officers Association (GFOA) and its Oregon affiliate, and is past president of the National Association of Government Defined Contribution Administrators.

Mark Campbell, Senior Revenue and Financial Analyst. Mark Campbell joined the County in 1989 as a Strategic Planning Analyst and has been a member of the County's finance team for 20 years. Previously he served as Assistant to the City Manager of Fort Collins, CO from 1985 to 1989. Mr. Campbell holds a Masters in Public Administration with a concentration in Financial Management from the State University of New York at Albany. He is a member of GFOA and its Oregon affiliate.

Karyne Kieta, Budget Director. Karyne Kieta, Budget Director, has been with the County since 1996. She was hired as a Budget Analyst and has been part of the Budget Office for the past 13 years. Prior to joining the County, Ms. Kieta worked in the Administrative Office for the County of San Luis Obispo in increasingly responsible positions, and has over 24 years of administrative and budgetary experience. She holds a B.S degree in Business Administration and a Masters degree in Public Administration from Lewis and Clark College. She is a member of GFOA.

Staff

As of February 2010, the County had 4,150 full-time employees and 409 part-time employees.

Bargaining Units

Bargaining Unit	Current Contract Term	Major Duties	Number of Employees
IUOE Local 701	7/1/07 - 6/30/12	Facilities maintenance and repair	13.0
IUPAT Local 1094	7/1/07 - 6/30/12	Sign painters	1.0

FOPPO	7/1/07 - 6/30/11	Probation and Parole Officers	123.0
MCDSA	7/1/04 - 6/30/14	Deputy sheriffs	91.5
IBEW Local 48	7/1/07 - 6/30/12	Electrical Workers	19.0

- (1) The County is scheduled to begin contract negotiations with the AFSCME Local 88 JCSS in April 2010. The County expects to have a contract in place by July 1, 2010.

Financial Factors

Financial Reporting and Accounting Policies

The County's basic financial statements were prepared in conformity with GAAP as prescribed by the Governmental Accounting Standards Board ("GASB").

Additional information on the County's accounting methods is available in the County's audited financial statements. A copy of the County's audited financial report for Fiscal Year 2009 is attached hereto as Appendix B.

Auditing

Each Oregon municipal corporation must obtain an audit and examination of its funds and account groups at least once each year pursuant to the Oregon Municipal Audit Law, ORS 297.405-297.555. Municipalities having annual expenditures of less than \$500,000, with the exception of counties and school districts, are exempt from this requirement. All Oregon counties and school districts, regardless of amount of annual expenditures, must obtain an audit annually. The required audit may be performed by the State Division of Audits or by independent public accountants certified by the State as capable of auditing municipal corporations.

The County audits for the Fiscal Years 2006 through 2009 ("County Audited Financial Statements") were performed by Moss-Adams, CPAs, Eugene, Oregon (the "Auditor"). The County audits for the Fiscal Year 2005 was performed by Grant Thornton, CPAs, Portland, Oregon. The audit report for Fiscal Year 2009 indicates the financial statements, in all material respects, fairly present the County's financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information and the respective changes in financial position and the cash flows, where applicable, in conformance with accounting principles generally accepted in the United States of America. The Auditor was not requested to review this Official Statement and has not completed any additional auditing review procedures subsequent to the issuance of their report on the 2009 Fiscal Year.

Future financial statements may be obtained from the Electronic Municipal Market Access system, a free, centralized repository located at: www.emma.msrb.org.

Summaries of the County's Net Assets and Changes in Net Assets follow:

Governmental Activities - Statement of Net Assets
(Fiscal Years; \$ in Thousands)

Assets	2009	2008	2007	2006	2005

NOTE: The Statement of Revenues, Expenses and Changes in Net Assets presents information showing how the County's net assets changed during a given Fiscal Year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Revenues and expenses are reported in this statement for some items that will result in cash flows in future periods, such as uncollected taxes and earned, but unused, vacation leave.

- (1) The County has two property tax levies. The permanent rate levy of \$4.3434 per \$1,000 of assessed value is used to fund County operations and limited-tax obligations. The second levy is for principal and interest on voter-approved general obligation bonds.
- (2) At the May 20, 2003 special election, voters in the County approved a ballot for a three-year, 1.25 percent income tax (the "ITAX") to support County schools, health and senior care and public safety. The ITAX ended in Fiscal Year 2006.
- (3) The Business Income Tax rate is 1.45 percent applied to the net income from sale of goods and services in the County.
- (4) Includes the Transient Lodging Tax (11.5 percent on hotel/motel room rentals to support the Oregon Convention Center and regional recreation, tourism, arts and cultural programs), and the Motor Vehicle Rental Tax (12.5 percent, 2.5 percent of which supports the Oregon Convention Center and tourism and the remaining 10 percent is available for the General Fund).

Budgetary Process

The County's budget is prepared in accordance with provisions of the Oregon Local Budget Law which provides standard procedures for preparing, presenting and administering the operating budget for all local governments. The law mandates public involvement in budget preparation and public exposure of its proposed programs. The law also requires that the budget be balanced.

Prior to adoption, the proposed budget must be approved by a budget committee consisting of the County's Board members. In an advertised public meeting, the budget committee reviews the budget and the "budget message," which explains the budget preparation philosophy and significant changes from the prior year.

Following budget approval by the budget committee, a public hearing is held by the Tax Supervising and Conservation Commission of Multnomah County, Oregon. A budget summary and notice of hearing are published prior to the hearing. Publication is governed by strict requirements as to time and mode.

After the budget hearings, the governing body considers citizens' testimony and, if necessary, alters the budget subject to statutory limitations upon increasing taxes or fund allocations without further publication and hearing.

The County levies a tax each year for general operations under its permanent rate limit and under any authorized Local Option Levies. Taxes levied for repayment of general obligation debt are not limited.

After the budget hearing, the governing body prepares a formal resolution which adopts the budget, authorizes taxes to be levied and set out a schedule of appropriations. This resolution must be adopted not later than June 30. Two copies of the budget are submitted to the county Department of Assessment and Taxation before July 15 so that the taxes may be levied.

Unexpected additional resources may be added to the budget through the use of a supplemental budget and appropriation resolution. Supplemental budgets less than 10 percent of the fund's original budget may be adopted by the Board at a regular Board meeting. A supplemental budget greater than 10 percent of the fund's original budget requires hearings before the public, publication in newspapers and approval by the Board. Original and supplemental budgets may be modified by the use of appropriation transfers within a fund or from the General Fund to any other fund. Such transfers require authorization by an official resolution or ordinance of the Board.

Investments

ORS 294.035 authorizes Oregon municipalities to invest in obligations, ranging from U.S. Treasury obligations and Agency securities to municipal obligations, bankers' acceptances, commercial paper, certificates of deposit, corporate debt and guaranteed investment contracts, all subject to certain size and maturity limitations. No municipality may have investments with maturities in excess of 18 months without adopting a written investment policy which has been reviewed and approved by the Oregon Short Term Fund Board. ORS 294.052 authorizes Oregon municipalities to invest proceeds of bonds or certificates of participation and amounts held in a fund or account for such bonds or certificates of participation under investment agreements if the agreements: (i) produce a guaranteed rate of return; (ii) are fully collateralized by direct obligations of, or obligations guaranteed by, the United States; and (iii) require that the collateral be held by the municipality, an agent of the municipality or a third-party safekeeping agent.

Municipalities are also authorized to invest approximately \$42.5 million (adjusted for inflation) in the Local Government Investment Pool of the Oregon Short-Term Fund, which is managed by the State Treasurer's office. Such investments are managed in accordance with the "prudent person rule" (ORS 293.726) and administrative regulations of the State Treasurer which may change from time to time. Eligible investments presently include all of those listed above, as well as repurchase agreements and reverse repurchase agreements. A listing of investments held by the Oregon Short-Term Fund is available on the Oregon State Treasury website under "Other OSTF Reports - OSTF Detailed Monthly Reports" at www.ost.state.or.us/about/boards/OSTF/About.htm.

Pension System

General. The County participates in a retirement pension benefit program under the State of Oregon Public Employees Retirement System ("PERS" or the "System"). After six full months of employment, all County employees are required to participate in PERS.

T1/T2 Pension Programs. Employees hired before August 29, 2003 participate in the "Tier 1" and "Tier 2" pension programs (the "T1/T2 Pension Programs"). The benefits provided through the T1/T2 Pension Programs are based primarily on a defined benefit model and provide retirement and disability benefits, annual cost-of-living adjustments, and death benefits to members and their beneficiaries. Different benefit structures apply to participants depending on their date of hire. Effective January 1, 2004, T1/T2 Pension Program participant contributions fund individual retirement accounts under the separate defined contribution program described below.

OPSRP. Employees hired on or after August 29, 2003 participate in the Oregon Public Service Retirement Plan ("OPSRP") unless membership was previously established in the T1/T2 Pension Programs. OPSRP is a hybrid defined contribution/defined benefit pension plan with two components. Employer contributions fund the defined benefit program and employee contributions fund individual retirement accounts under the separate defined contribution program.

Actuarial Valuation. Oregon statutes require an actuarial valuation of the System at least once every two years. Based on the biennial actuarial valuation as of December 31 of odd-numbered years, such as 2007 and 2009, the Public Employees Retirement Board ("PERB") establishes the contribution rates that employers will pay to fund the T1/T2 Pension Programs, OPSRP and the PERS-sponsored Retirement Health Insurance Account program ("RHIA") described herein. Actuarial valuations are performed annually as of December 31 of each year, with the valuations as of December 31 of even-numbered years (such as 2008) used for advisory purposes only. Actuarial valuations are performed for the entire System (the "System Valuation"), and for each participating employer, including the County (the "District Valuation"). Valuations are released approximately one year after the valuation date. PERS' current actuary is Mercer (US), Inc. ("Mercer").

Valuation	Release Date	Rates Effective
December 31, 2007	September 2008	July 1, 2009 - June 30, 2011
December 31, 2008	October 2009	Advisory only
December 31, 2009	Expected fall 2010	July 1, 2011 - June 30, 2013

The 2007 System Valuation indicated that the System as a whole was 112 percent funded and had an actuarial surplus of approximately \$6.5 billion. However, the 2008 System Valuation released on September 25, 2009 confirmed that poor investment performance of OPERF during 2008 caused a significant decrease in the funded status of the System since the 2007 Valuation. The 2008 System Valuation indicated that the System is underfunded by 20 percent as of December 31, 2008 and that average contribution rate of employers will increase by at least six percent of covered payroll, beginning July 1, 2011. Some employers may have higher increases.

Employer Assets, Liabilities, and Unfunded Actuarial Liabilities. An employer’s unfunded actuarial liability (“UAL”) is the excess of the actuarially determined present value of the employer’s benefit obligations to employees over the existing actuarially determined assets available to pay those benefits.

County UAL.

For the T1/T2 Pension Programs, the County is pooled with the State and Oregon local government and community college public employers (the “State and Local Government Rate Pool” or “SLGRP”). The County’s portion of the SLGRP’s assets and liabilities is based on the County’s proportionate share of the SLGRP’s pooled payroll (the “County Allocated T1/T2 UAL”). Changes in the County’s relative growth in payroll will cause the County Allocated T1/T2 UAL to shift. The County Allocated T1/T2 UAL may increase if other pool participants fail to pay their full employer contributions.

OPSRP’s assets and liabilities are pooled on a program-wide basis. These assets and liabilities are not tracked or calculated on an employer basis. The County’s allocated share of OPSRP’s assets and liabilities is based on the County’s proportionate share of OPSRP’s pooled payroll (the “County Allocated OPSRP UAL”). Changes in the County’s relative growth in payroll will cause the County Allocated OPSRP UAL to shift.

The County created a PERS Bond Reserve to accumulate funds to smooth rates charged against payroll in future years. As of June 30, 2009, the PERS Bond Reserve had a balance of \$31,439,000.

The County’s net unfunded pension UAL is the total of the County Allocated T1/T2 UAL, County Allocated OPSRP UAL. The County’s net unfunded pension UAL as of the 2007 Valuation and 2008 Valuation is shown in the following table:

Multnomah County Net Unfunded Pension UAL

	2008 Valuation	2007 Valuation
Allocated T1/T2 UAL	\$ 435,511,958	\$ 12,008,183
Allocated pre-SLGRP pooled liability/(surplus)	(58,073,734)	(59,722,713)
Transition liability/(surplus)	(97,008,578)	(97,558,628)
Allocated OPSRP UAL	2,086,276	(2,287,628)
County Side account	<u>0</u>	<u>0</u>
Net unfunded pension actuarial accrued liability	<u>\$ 282,515,922</u>	<u>\$(147,560,163)</u>

Source: 2008 County Valuation and 2007 County Valuation.

The funded status of PERS and of the County as reported by Mercer, the PERS actuary, will change over time depending on a variety of factors, including the market performance of the securities in which the Oregon Public Employees’ Retirement Fund (“OPERF”) is invested, future changes in compensation and benefits of covered employees, demographic characteristics of members and methodologies and assumptions used by the actuary in estimating the assets and liabilities of PERS. Investment returns during calendar year 2008 were particularly volatile, and between June 30, 2008 and December 31, 2008, the market value of assets in the OPERF decreased from approximately \$60.7 billion to approximately \$45.8 billion.

Significant actuarial assumptions and methods used in the valuations included: (a) Projected Unit Credit actuarial cost method, (b) asset valuation method based on market value, (c) rate of return on the investment of present and future assets of 8%, (d) payroll growth rate of 3.75%, (e) consumer price inflation of 2.75% per year, and (f) UAL amortization method of a level percentage of payroll over 21 years (fixed) for the T1/T2 Pension Programs and 16 years (fixed) for OPSRP.

Employer Contribution Rates. Employer contribution rates are calculated as a percent of covered payroll. The rates are based on the current and projected cost of benefits and the anticipated level of funding available from the OPERF, including anticipated investment performance of the fund. Contribution rates are subject to future adjustment based on factors such as the result of subsequent actuarial valuations and changes in benefits resulting from legislative modifications. Employees are required to contribute 6 percent of their annual salary to the respective programs. Employers are allowed to pay the employees' contribution in addition to the required employers' contribution. The County has elected to make the employee contribution.

County Contribution Rates. The County's current contribution rates are based on the 2007 Valuation and are effective through June 30, 2011. Contribution rates for the County effective July 1, 2011 through June 30, 2013 will be based on the 2009 Valuation which is expected to be released in fall 2010. The 2009 Valuation will take into account an additional year of investment performance of the OPERF. In addition, changes in the County's UAL and contribution rates may be affected by decisions of the PERS Board. Accordingly, the County cannot currently predict what its UAL will be in the 2009 Valuation, and how its future contribution rates will be affected.

The following table shows the County's current employer contribution rates (2007 Valuation) and the advisory only rates released in the most recent valuation (2008 Valuation):

Multnomah County Pension Contribution Rates

	<u>2007 Valuation</u>			<u>2008 Valuation</u>		
	T1/T2	OPSRP General	OPSRP P&F	T1/T2	OPSRP General	OPSRP P&F
Normal cost rate	7.07%	5.81%	8.52%	8.85%	5.90%	8.61%
T1/T2 UAL rate	4.79	4.79	4.79	8.99	8.99	8.99
OPSRP UAL rate	(0.08)	(0.08)	(0.08)	0.07	0.07	0.07
Pre-SLGRP pooled liability rate	(1.77)	(1.77)	(1.77)	(1.73)	(1.73)	(1.73)
Transition liability/(surplus) rate	(2.89)	(2.89)	(2.89)	(2.90)	(2.90)	(2.90)
Side account rate relief	0.00	0.00	0.00	0.00	0.00	0.00
Retiree Healthcare rate (RHIA) ⁽¹⁾	0.29	0.19	0.19	0.59	0.50	0.50
Total net contribution rate	<u>7.41%</u>	<u>6.05%</u>	<u>8.76%</u>	<u>13.87%</u>	<u>10.83%</u>	<u>13.54%</u>

(1) Contribution rates to fund RHIA benefits are included in the total County employer contribution rate, but are not a pension cost. See "Other Postemployment Benefits - Retirement Health Insurance Account" below.

Source: 2008 County Valuation and 2007 County Valuation.

Other Postemployment Benefits

Retirement Health Insurance Account. PERS retirees who receive benefits through the Tier 1 and Tier 2 plans and are enrolled in certain PERS administered health insurance programs, may receive a subsidy towards the payment of health insurance premiums. Under ORS 238.420, retirees may receive a subsidy for Medicare supplemental health insurance of up to \$60 per month towards the cost of their health insurance premium under the RHIA plan. The RHIA program's assets and liabilities are pooled on a system-wide basis and are not tracked or calculated on an employer basis. According to the 2008 System Valuation, this program had a UAL of approximately \$310 million. The County's allocated share of the RHIA program's assets and liabilities is based on the County's proportionate share of the program's pooled payroll. According to the 2008 County Valuation, the County's allocated share of the RHIA program's UAL is \$9,766,176.

GASB 45. GASB 45 will require the County to determine the extent of its liabilities for post employment benefits and record the liability in its financial statements on an actuarial basis. This includes the requirement under ORS 243.303 of offering the same healthcare benefits for current County employees to all retirees and their dependents until such time as the retirees are eligible for Medicare. GASB 45 refers to this as an "implicit subsidy" and requires that the corresponding liability be determined and reported. The County implemented this pronouncement for the fiscal year ended June 30, 2006. As of January 1, 2009, the County's unfunded accrued actuarial liability was \$122.605 million.

Risk Management

The County is exposed to various risks of loss. A description of the risks is provided in the County's audited financial statements. The audited financial statement for Fiscal Year 2009 is attached hereto as Appendix B.

Demographic Information

General

The County is located in the northwestern part of the State and is included in the Portland-Vancouver Primary Metropolitan Statistical Area. The City of Portland, with an estimated population of 582,130, is the County seat and the largest city in Oregon.

The Portland-Vancouver Primary Metropolitan Statistical Area (hereinafter, the "Portland PMSA") includes Multnomah, Washington, Clackamas, Columbia and Yamhill counties in Oregon, and Clark and Skamania County in Washington.

Historical data have been collected from generally accepted standard sources, usually from public bodies. This section will focus on the County and the Portland PMSA.

Population

The Portland metro area is Oregon's largest population center. The County is Oregon's most populous county with an estimated 724,680 residents in 2009. The following table shows the historical population for the County the State and the Cities of Portland and Gresham:

Population
State of Oregon, Multnomah County and the Cities of Portland and Gresham

July 1	State of Oregon	Multnomah County	City of Portland	City of Gresham
2009	3,823,465	724,680	582,130	101,015
2008	3,791,075	717,880	575,930	100,655
2007	3,745,455	710,025	568,380	99,225
2006	3,690,505	701,545	562,690	97,745
2005	3,631,440	692,825	556,370	95,900
2004	3,582,600	685,950	550,560	94,250
2003	3,541,500	677,850	545,140	93,660
April 1⁽¹⁾				
2000	3,421,399	660,486	529,121	90,205
1990	2,842,321	583,887	438,802	68,249

Economic Overview

Portland PMSA. The economy of the Portland metropolitan area is broad and widely diversified. The Portland PMSA includes the State's largest employers, including Intel, Providence Health System, Safeway, Oregon Health & Sciences University, Fred Meyer, Kaiser Foundation Health Plan, Legacy Health System, and Nike.

Currently, manufacturing accounts for 12.2 percent of the total non-farm employment in the Portland PMSA, while trade, transportation and utilities accounts for 19.9 percent, government jobs 13.7 percent, professional and business services 13.1 percent, education and health services 12.3 percent, and leisure and hospitality 9.4 percent.

Major agricultural products produced in the County include nursery and greenhouse crops, lettuce, raspberries and Christmas trees.

The number of acres harvested and gross farm sales in the County are as follows:

**Multnomah County
Harvested Acreage and Gross Farm Sales**

Year	Harvested Acreage	Gross Farm Sales (\$ in thousands)		
		Crop Sales	Animal Products Sales	Total Gross Farm Sales
2009	8,595	\$ 60,007	\$ 2,821	\$ 62,828
2008	8,467	76,296	2,851	79,147
2007	9,541	79,321	2,855	82,176
2006	9,917	76,623	2,654	79,277
2005	10,514	75,125	2,619	77,744

(1) Civilian labor force includes employed and unemployed individuals 16 years and older by place of residence. Employed includes nonfarm payroll employment, self-employed, unpaid family workers, domestics, agriculture and labor disputants. Data are adjusted for multiple job-holding and commuting.

(2) Annual average, preliminary, subject to change.

(3) Nonfarm payroll data are based on the 1987 Standard Industrial Classification manual. The data are by place of work. Persons working multiple jobs are counted more than once. The data excludes the self-employed, volunteers, unpaid family workers, and domestics.

Transportation. The Portland area is a major transportation hub of the Pacific Northwest. Located at the confluence of the Columbia and Willamette rivers, Portland is approximately 110 river miles from the Pacific Ocean at Astoria. Major north-south (I-5) and east-west (I-84) highways connect the area with other major

metropolitan areas of the western states. BNSF Railway Company (Burlington Northern Santa Fe) and Union Pacific railroads provide rail freight service to the area and Amtrak provides rail passenger service. Interstate bus transportation is available through Greyhound and local bus service is provided by the Tri-County Metropolitan Transportation District (Tri-Met).

Commercial air transportation is available at Portland International Airport ("PDX"). PDX, operated by the Port of Portland (the "Port"), is served by 17 scheduled passenger air carriers and three charter services. Fourteen cargo carriers service PDX. The Port also operates three general aviation airports in Troutdale, Hillsboro and Mulino. The Hillsboro Airport, 29 miles west of the County, is the State's second busiest general aviation site and maintains the largest corporate jet fleet in the state.

Higher Education. Institutions of higher learning in the area include independent institutions such as Reed College, Lewis and Clark College, Pacific University, and church-affiliated institutions such as the University of Portland, Warner Pacific College, and Columbia Pacific College. Portland State University, which is part of the Oregon University System of Higher Education, and the Oregon Health and Science University are also located in Multnomah County. Portland Community College, Mt. Hood Community College, and Clackamas Community College are part of the State's community college system.

Superfund. Superfund sites are listed on the National Priorities List ("NPL") upon completion of hazard ranking system screening, public solicitation of comments about the proposed site, and after all comments have been addressed. The identification of a site for the NPL is intended primarily to guide the U.S. Environmental Protection Agency (EPA) in determining which sites warrant further investigation, identifying remedial actions, notifying the public, and serving notice to potentially responsible parties. Inclusion of a site on the NPL does not in itself reflect a judgment of the activities of its owner or operator. There are two superfund sites inside the County; however, the County has no legal or financial responsibility for the superfund sites.

Additional information pertaining to the superfund sites is available at local libraries, the Oregon Department of Environmental Quality or the EPA Region 10 Superfund Records Center.

The Initiative and Referendum Process

The Oregon Constitution, Article IV, Section 1, reserves to the people of the State the initiative and referendum power pursuant to which measures designed to amend the Oregon Constitution or enact legislation can be placed on the statewide general election ballot for consideration by the voters.

Pursuant to ORS 250.125, a five-member Committee composed of the Secretary of State, the State Treasurer, the Director of the Department of Revenue, the Director of the Department of Administrative Services, and a local government representative must prepare an estimate of the direct financial impact of each measure ("Financial Estimate Statements") to be printed in the voters' pamphlet and on the ballot.

Referendum

"Referendum" generally means measures that have been passed by a legislative body, such as the Legislative Assembly or the governing body of a district, county or other political subdivision and referred to the electors by the legislative body, or by petition prior to the measure's effective date.

In Oregon, both houses of the Legislative Assembly must vote to refer a statute or constitutional amendment for a popular vote. Such referrals cannot be vetoed by the governor. Any change to the Oregon Constitution passed by the Legislative Assembly requires referral to voters. In the case of a referendum by petition, proponents of the referendum must obtain a specified number of signatures from qualified voters. The required number of signatures is equal to four percent of the votes cast for all candidates for governor at the preceding gubernatorial election.

Current Referenda. The Legislative Assembly closed its 2009 session on June 29, 2009. The 2009 Legislative Assembly referred two measures to the electors. One of the measures will appear on the ballot at the May 18,

2010 primary election and the other on the ballot at the November 2, 2010 election. The County cannot predict whether either of the measures will pass, or, if they do, what the financial impact on the County, if any, will be.

Recent Tax Increase Referenda. Opponents of legislation increasing personal and corporate income taxes passed by the 2009 Legislative Assembly submitted sufficient qualified signatures to refer the tax increases to a special election held on January 26, 2010. The referendum concerning personal income taxes appeared on the ballot as Measure 66. The referendum concerning corporate income taxes appeared on the ballot as Measure 67. Both measures were approved by voters and become effective for tax year 2009.

Past Referenda. The 2007 Legislative Assembly referred nine measures to voters. The measures appeared on the ballot at the November 6, 2007 special election, May 20, 2008 primary election, and November 4, 2008 general election. Eight of the nine measures were approved, and one was rejected.

Among the measures approved at the November 4, 2008 election was a constitutional change providing that May and November property tax elections are decided by majority of voters voting (Measure 56) and a statutory change to increase sentences for drug trafficking, theft against elderly and specified repeat property and identity theft crimes, and require addiction treatment for certain offenders (Measure 57).

The Financial Estimate Statement for Measure 57 estimates the measure would require additional State spending of approximately \$9 million in the first year, \$74 million in the second year, \$79 million in the third year, \$106 million in the fourth year, and \$143 million each year thereafter. The State may also need to borrow an estimated \$314 million from 2010 to 2017 to build new prison space.

Initiatives

“Initiative” generally means a new measure placed before the voters as a result of a petition circulated by one or more private citizens.

Any person may file a proposed initiative with the Oregon Secretary of State’s office. The Oregon Attorney General is required by law to draft a proposed ballot title for the initiative. Public comment on the draft ballot title is then solicited by the Secretary of State. After considering any public comments submitted, the Attorney General will either certify the draft ballot title or revise the draft ballot title. Any elector that submitted written comments who is dissatisfied with the ballot title certified by the Attorney General may petition the Oregon Supreme Court seeking a revision of the certified ballot title.

Once the ballot title has been certified and the Secretary of State has authorized the petitioners, the proponents of the initiative may start gathering initiative petition signatures from qualified voters. The number of signatures required is determined by a fixed percentage of the votes cast for all candidates for governor at the preceding gubernatorial election. The signature requirements are eight percent for a constitutional measure (110,358 signatures for November 2010) and six percent for a statutory initiative (82,769 signatures for November 2010).

The initiative petition must be filed with the Secretary of State not less than four months prior to the general election at which the proposed measure is to be voted upon. As a practical matter, proponents of an initiative have approximately two years in which to gather the necessary number of signatures. State law permits persons circulating initiative petitions to pay money to persons obtaining signatures for the petition. If the person obtaining signatures is being paid, the signature sheet must contain a notice of such payment.

Historical Initiative Petitions. The number of initiatives that have been approved in general elections since 1998 are as follows:

Historical Initiative Petitions

Number of Year of General Election	Number of Initiatives that Qualified	Initiatives that were Approved
2008	8	0
2006	10	3
2004	6	2
2002	7	3
2000	18	4
1998	10	6

NOTE: The Secretary of State posts a listing of initiatives on its web site: www.sos.state.or.us.

Source: *Elections Division, Oregon Secretary of State, Initiative, Referendum and Referral Log, Elections Division.*

Home Rule Charter

In addition to statutory and constitutional changes by the Legislative Assembly and the initiative and referendum process, nine of Oregon’s counties have adopted “home rule” charters, wherein voters have the power to adopt, amend, revise or repeal their own county government charter by majority vote. County charters may provide for the exercise by the county of authority over matters of county concern. The County adopted its charter in 1964. A copy of the County Charter is available upon request from the County.

Legal Matters and Litigation

Legal Matters

Legal matters incident to the authorization, issuance and sale of Bonds are subject to the approving legal opinion of Bond Counsel, substantially in the form attached hereto as Appendix A. Bond Counsel has reviewed this document only to confirm that the portions of it describing the Bonds and the authority to issue them conform to the Bonds and the applicable laws under which they are issued.

Litigation

There is no litigation pending questioning the validity of the Bonds nor the power and authority of the County to issue the Bonds. There is no litigation pending which would materially affect the finances of the County or affect the County’s ability to meet debt service requirements on the Bonds.

On December 28, 2007, the Oregon Supreme Court decided *Clarke v. Oregon Health Sciences University* ("Clarke"), challenging the constitutionality of parts of the Oregon Tort Claims Act ("OTCA"). Under the OTCA, the State's common law sovereign immunity from suit is lifted and claims may be brought against a public body in Oregon, including the County. The liability of public bodies, however, is capped for individual personal injury claims. In addition, the public body has to be substituted as a defendant in lieu of individual employees of the public body, thereby limiting recovery for claims against individual employees to the limits applicable to public bodies. In *Clarke*, the plaintiff was severely disabled as a result of the negligence of health professionals employed at OHSU, which is a public body under the OTCA. The damages alleged amounted to approximately \$12 million, which was well in excess of the liability cap of public bodies.

Article I, Section 10 of the Oregon Constitution provides the right to a remedy to persons who are injured in their person, property or reputation. The *Clarke* court concluded that the then- existing cap on the amount of potential recovery, did not provide a substantial remedy to plaintiff in lieu of what plaintiff would have been able to claim at common law from individual government employees who were admittedly negligent. Therefore, the substitution of OHSU for the individual plaintiffs, under the facts at issue in *Clarke*, violated Article I, Section 10 of the Oregon Constitution.

In response to the *Clarke* decision, the 2009 Oregon Legislature passed Senate Bill 311 (“SB 311”), which increases the liability limits for Oregon public bodies under the OTCA. SB 311 was signed by the Governor on April 15, 2009 and became effective on July 1, 2009.

Under the new law, Oregon local public bodies are subject to the following limits on liability. The State of Oregon is subject to different limits.

Personal Injury and Death Claim. The liability of a local public body and its officers, employees and agents acting within the scope of their employment or duties, to any *single claimant* for covered personal injury or death claims (and not property claims) arising out of a single accident or occurrence may not exceed \$500,000, for causes of action arising on or after July 1, 2009, and before July 1, 2010. From July 1, 2010 through June 30, 2015, this cap increases incrementally to \$666,700. The liability limits to *all claimants* for covered personal injury or death claims (and not property claims) arising from a single accident or occurrence increase from \$1 million, for causes of action arising on or after July 1, 2009, and before July 1, 2010, incrementally to \$1,333,300, for causes of action arising on or after July 1, 2014, and before July 1, 2015.

For causes of action arising on or after July 1, 2015, the liability limits for both a single claimant and all claimants will be adjusted based on a determination by a State Court Administrator of the percentage increase or decrease in the cost of living for the previous calendar year as provided in the formula in SB 311. The adjustment may not exceed 3% for any year.

Property Damage or Destruction Claim. The liability of a public body and its officers, employees and agents acting within the scope of their employment or duties, for covered claims for damage and destruction of property that arise from causes of action arising on or after July 1, 2009 are as follows: (a) \$100,000, adjusted as described below, to any single claimant, and (b) \$500,000, adjusted as described below, to all claimants.

Beginning in 2010, these liability limits shall be adjusted based on a determination by a State Court Administrator of the percentage increase or decrease in the cost of living for the previous calendar year as provided in the formula in SB 311. The adjustment may not exceed 3% for any year.

Tax Matters

Tax Exemption

In the opinion of Bond Counsel, interest on the Bonds is excludable from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations; however interest on the Bonds is included in adjusted current earnings for the purpose of computing the federal alternative minimum tax imposed on certain corporations.

Federal income tax law contains a number of requirements that apply to the Bonds, including investment restrictions, periodic payments of arbitrage profits to the United States, requirements regarding the use of proceeds of the bonds and the facilities financed or refinanced with proceeds of the Bonds and certain other matters. The County has covenanted to comply with all applicable requirements.

Bond Counsel’s opinion is subject to the condition that the County comply with the above-referenced covenants and, in addition, will rely on representations by the County and its advisors with respect to matters solely within the knowledge of the County and its advisors, respectively, which Bond Counsel has not independently verified. If the County fails to comply with such covenants or if the foregoing representations are determined to be inaccurate or incomplete, interest on the Bonds could be included in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds, regardless of the date on which the event causing taxability occurs.

Except as expressly stated in this Tax Matters section, Bond Counsel expresses no opinion regarding any other federal or state income tax consequences of acquiring, carrying, owning or disposing of the Bonds. Holders of the Bonds should consult their tax advisors regarding the applicability of any collateral tax consequences of

owning the Bonds, which may include original issue discount, original issue premium, purchase at a market discount or at a premium, taxation upon sale, redemption or other disposition, and various withholding requirements.

Prospective purchasers of the Bonds should be aware that ownership of the Bonds may result in collateral federal income tax consequences to certain taxpayers, including, without limitation, financial institutions, property and casualty insurance companies, individual recipients of Social Security or Railroad Retirement benefits, certain S corporations with “excess net passive income,” foreign corporations subject to the branch profits tax, life insurance companies and taxpayers who may be deemed to have incurred or continued indebtedness to purchase or carry or have paid or incurred certain expenses allocable to the Bonds. Bond Counsel expresses no opinion regarding any collateral tax consequences. Prospective purchasers of the Bonds should consult their tax advisors regarding collateral federal income tax consequences.

Payments of interest on tax-exempt obligations such as the Bonds, are in many cases required to be reported to the Internal Revenue Service (the “IRS”). Additionally, backup withholding may apply to any such payments made to any Owner who is not an “exempt recipient” and who fails to provide certain identifying information. Individuals generally are not exempt recipients, whereas corporations and certain other entities generally are exempt recipients.

Bond Counsel’s opinion is not a guarantee of result and is not binding on the IRS; rather, the opinion represents Bond Counsel’s legal judgment based on its review of existing law and in reliance on the representations made to Bond Counsel and the County’s compliance with its covenants. The IRS has established an ongoing program to audit tax-exempt obligations to determine whether interest on such obligations is includable in gross income for federal income tax purposes. Bond Counsel cannot predict whether the IRS will commence an audit of the Bonds. Holders of the Bonds are advised that, if the IRS does audit the Bonds, under current IRS procedures, at least during the early stages of an audit, the IRS will treat the County as the taxpayer, and the holders of the Bonds may have limited rights to participate in the audit. The commencement of an audit could adversely affect the market value and liquidity of the Bonds until the audit is concluded, regardless of the ultimate outcome.

Oregon State Tax Exemption

In the opinion of Bond Counsel, interest on the Bonds is exempt from Oregon personal income tax under existing law.

Qualified Tax-Exempt Obligations

The County has not designated the Bonds as “qualified tax-exempt obligations” within the meaning of Section 265(b)(3)(B) of the Internal Revenue Code of 1986, as amended.

Continuing Disclosure

The Securities and Exchange Commission has published amendments to Rule 15c2-12 (the “Rule”) that require at least annual disclosure of current financial information and timely disclosure of certain events with respect to the Bonds, if material. Pursuant to the Rule, the County has agreed to provide audited financial information, certain financial information or operating data, and notice of certain events to the Municipal Securities Rulemaking Board (“MSRB”) through the MSRB’s Electronic Municipal Market Access system (so long as such method of disclosure continues to be approved by the Securities and Exchange Commission for such purposes). The County has not failed to comply in the past five years with any prior undertaking under the Rule. A copy of the form of the County’s Continuing Disclosure Certificate is attached hereto as Appendix D.

Financial Advisor

In connection with the authorization and issuance of the Bonds, the County has retained Seattle-Northwest Securities Corporation, Portland, Oregon, as its financial advisor (the "Financial Advisor"). The County authorized Seattle-Northwest Securities Corporation to submit a bid on the Bonds.

The Financial Advisor is not obligated to undertake, and has not undertaken, either to make an independent verification of or to assume responsibility for, the accuracy, completeness, or fairness of the information contained in this Official Statement.

Certificate with Respect to Official Statement

At the time of the original delivery of and payment for the Bonds, the County will deliver a certificate of its authorized representative addressed to the Financial Advisor to the effect that he has examined this Official Statement and the financial and other data concerning the County contained herein and that to the best of his knowledge and belief, (i) the Official Statement, both as of its date and as of the date of delivery of the Bonds, does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements therein, in the light of the circumstances under which they were made, not misleading and (ii) between the date of the Official Statement and the date of delivery of the Bonds there has been no material adverse change in the affairs (financial or other), financial condition or results of operations of the County except as set forth in or contemplated by the Official Statement.

(FORM OF LEGAL OPINION OF BOND COUNSEL)

March 31, 2010

Multnomah County
501 S.E. Hawthorne Blvd.
Suite 531
Portland, Oregon 97214

Re:*Multnomah County, Oregon*
\$45,175,000 General Obligation Refunding Bonds, Series 2010

Ladies and Gentlemen:

We have acted as bond counsel to the Multnomah County, Oregon (the "County") in connection with the authorization, sale, issuance and delivery by the County of its \$45,175,000 aggregate principal amount of General Obligation Refunding Bonds, Series 2010 (the "Bonds"), which are dated March 31, 2010. The Bonds are issued pursuant to Oregon Revised Statutes Chapters 287A and Resolution No. 2010-19 adopted by the Board of County Commissioners on February 18, 2010 (the "Bond Resolution"). The Bonds are issued to refinance the County's Advance Refunding General Obligation Bonds, Series 1999 and to pay costs of issuance. Capitalized terms not otherwise defined herein shall have the meanings ascribed thereto in the Bond Resolution.

We have examined the applicable law, a duly certified transcript of proceedings of the County, prepared in part by us, and other documents which we deem necessary to render this opinion.

As to questions of fact material to our opinion, we have relied on the representations of the County contained in the Bond Resolution and other certified proceedings and certifications of officials of the County and others furnished to us, without undertaking to verify such representations and certifications by independent investigation. We have also relied on the covenants of the County to comply with certain requirements of the Internal Revenue Code of 1986, as amended (the "Code"), with respect to the investment and use of proceeds of the Bonds.

On the basis of the foregoing examination, and in reliance thereon, and on the basis of our examination of such other matters of fact and questions of law as we deem relevant under the circumstances, and subject to the limitations expressed herein, we are of the opinion, under existing law, as follows:

A. The Bonds have been legally authorized and issued under and pursuant to the Constitution and statutes of the State of Oregon, and are valid and legally binding obligations of the County enforceable against the County in accordance with their terms, subject to: (i) bankruptcy, insolvency, fraudulent conveyance, reorganization, moratorium and other similar laws affecting creditors' rights generally (whether now or hereafter in existence); (ii) the application of equitable principles and to the exercise of judicial discretion in appropriate cases; (iii) common law and statutes affecting the

enforceability of contractual obligations generally; and (iv) principles of public policy concerning, affecting, or limiting the enforcement of rights or remedies against governmental entities such as the County.

B. The County has pledged its full faith and credit to the payment of interest on and the principal of the Bonds as the same become due and payable. The County covenants with the Bondowners to levy annually a direct ad valorem tax upon all of the taxable property within the County in an amount without limitation as to rate or amount, and outside of the limitations of Sections 11 and 11b, Article XI of the Oregon Constitution, after taking into consideration discounts taken and delinquencies that may occur in the payment of such taxes, to pay interest accruing and the principal maturing on the Bonds promptly when and as they become due.

C. Interest on the Bonds is excludable from gross income for federal income tax purposes and is not an item of tax preference for purposes of the federal alternative minimum tax imposed on individuals and corporations; however, interest on the Bonds is included in adjusted current earnings for the purposes of computing the federal alternative minimum tax imposed on certain corporations. The portion of this opinion set forth in this paragraph is subject to the condition that the County comply with all requirements of the Code that must be satisfied subsequent to the issuance of the Bonds in order that interest be, and continue to be, excludable from gross income for federal income tax purposes. The County has covenanted to comply with all applicable requirements. Failure to comply with certain of such covenants may cause interest on the Bonds to be included in gross income for federal income tax purposes retroactively to the date of issuance of the Bonds.

D. Interest on the Bonds is exempt from present personal income taxation by the State of Oregon.

We note that the County **has not** designated the Bonds as “qualified tax-exempt obligations” within the meaning of Section 265(b)(3)(B) of the Code.

Except as expressly stated above, we express no opinion regarding any other federal or state income tax consequences of acquiring, carrying, owning or disposing of the Bonds. Owners of the Bonds should consult their tax advisors regarding the applicability of any collateral tax consequences of owning the Bonds, which may include original issue discount, original issue premium, purchase at a market discount or at a premium, taxation upon sale, redemption or other disposition, and various withholding requirements.

This opinion is given as of the date hereof, and we assume no obligation to update, revise or supplement this opinion to reflect any facts or circumstances that may hereafter come to our attention or any changes in law that may hereafter occur.

This opinion is provided to you as a legal opinion only, and not as a guaranty or warranty of the matters discussed herein. No opinions may be inferred or implied beyond the matters expressly stated herein. No qualification, limitation or exception contained herein shall be construed in any way to limit the scope of the other qualifications, limitations and exceptions. For purposes of this opinion, the terms “law” and “laws” do not include unpublished judicial decisions, and we disclaim the effect of any such decision on the opinions expressed.

We have acted solely as bond counsel to the County regarding the sale and issuance of the Bonds and have not represented any other party in connection with the Bonds. Therefore, no attorney-client relationship shall arise by our addressing this opinion to persons other than the County.

The opinions expressed herein are solely for your benefit in connection with the above referenced bond financing and may not be relied on in any manner or for any purpose by any person or entity other than the addressees listed above and the owners of the Bonds, nor may copies be furnished to any other person or entity, without the prior written consent of K&L Gates LLP.

Respectfully submitted,

K&L Gates LLP

Honorable County Chair, Board of County Commissioners
and Citizens of Multnomah County, Oregon

INTRODUCTION

We are pleased to submit the Comprehensive Annual Financial Report of Multnomah County, Oregon, for the fiscal year ended June 30, 2009, together with the opinion thereon of our independent certified public accountants, Moss Adams LLP. This report, required by Oregon Revised Statutes 297.425, is prepared by the Department of County Management. Also included are Audit Comments and Disclosures required under the Minimum Standards for Audits of Oregon Municipal Corporations Section of the Oregon Administrative Rules.

In addition, the County is required to have a comprehensive single audit of its Federal Assistance Programs in accordance with the Single Audit Act, Office of Management and Budget (OMB) Circular A-133 and the provisions of Government Auditing Standards promulgated by the U.S. Comptroller General as they pertain to financial and compliance audits. A report on the County's compliance with applicable Federal laws and regulations related to the Single Audit Act, OMB Circular A-133 is issued under separate cover and is available by request from the Department of County Management.

This report is prepared in conformance with the guidelines for financial reporting developed by the Government Finance Officers Association of the United States and Canada and the principles established by the Governmental Accounting Standards Board (GASB), including all effective GASB pronouncements. It presents fairly the financial position of the various funds of the County at June 30, 2009, and the results of operations of such funds and the cash flows of the proprietary fund types for the year then ended in conformity with accounting principles generally accepted in the United States of America (US GAAP). The report consists of management's representations concerning the finances of the County. Consequently, management assumes full responsibility for the completeness and reliability of all information presented in this report. To provide a reasonable basis for making these representations, County management has established a comprehensive internal control framework that is designed both to protect the County's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements. Because the cost of internal controls should not outweigh their benefits, the County's comprehensive framework of internal controls has been designed to provide reasonable assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

US GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to complement MD&A and should be read in conjunction with it. Multnomah County's MD&A can be found immediately following the independent auditors' report. Unless otherwise noted, dollar amounts are expressed in thousands.

PROFILE OF MULTNOMAH COUNTY, OREGON

Multnomah County, incorporated in 1854, is located in northwestern Oregon at the confluence of the Columbia and Willamette rivers, approximately 110 river miles and 80 highway miles from the Pacific Ocean. The County covers 465 square miles, and serves a population of 717,880 citizens. The cities of Portland and Gresham are the largest incorporated cities in the County.

Multnomah County is governed according to its Home Rule Charter, which became effective January 1967. The County's charter adopted in 1967 has had several subsequent amendments. The County is governed by a Board of County Commissioners consisting of four non-partisan members elected from designated districts within the County and the Chair of the Board, elected at large. The Board of County Commissioners conducts all legislative business of the County.

Multnomah County provides a full range of services, including public safety protection; corrections and probation; construction and maintenance of roads, highways, bridges and other infrastructure; health and social services; library and community enhancement; and internal business support. Certain sanitary and lighting services are provided as legally separate Service District Authorities, which function, in essence, as departments of the County and therefore are included in the County's financial statements as component units. Also included in the County's financial statements is information on the Library Foundation, a tax-exempt foundation whose primary purpose is to support the County's libraries through raising, receiving, administering and disbursing funds, grants, bequests and gifts for the benefit of the County libraries. The County also maintains a Hospital Facilities Authority whose primary purpose is to issue conduit debt for health care facilities. The Hospital Facilities Authority is also considered a component unit but it is not included in the County's financial statements. Additional information on these legally separate entities can be found in note 1 of the notes to the financial statements.

The County's budget is prepared on the modified accrual basis of accounting. In accordance with State statutes, the County budgets all funds except trust and agency funds. The County budget is adopted by the Board of County Commissioners by department for each fund. The expenditure appropriations lapse at the end of the fiscal year. Additional resources and corresponding appropriations may be added to the budget during the fiscal year through a supplemental budget process. Original and supplemental budgets may be modified during the fiscal year by the use of appropriation transfers between categories. The appropriation transfers must be approved by the Board of County Commissioners in public meetings. During the fiscal year, one supplemental budget was adopted.

Budget to actual comparisons are provided in this report for each individual governmental and proprietary fund for which an appropriated annual budget has been adopted. For the General fund and the Federal State Program special revenue fund the budget to actual comparisons are provided on pages 35-36 as part of the basic financial statements for the governmental funds. For all other governmental funds with appropriated annual budgets, this comparison is presented in the governmental fund subsection of this report, which starts on page 77.

FACTORS AFFECTING FINANCIAL CONDITION

Local Economy: The Portland metropolitan area is the financial, trade, transportation and service center for Oregon, southwest Washington State and the Columbia River basin. Its manufacturing base includes electronics, machinery, transportation equipment, and fabricated metals.

The Portland-Vancouver-Beaverton PMSA's (Primary Metropolitan Statistical Area) economy continued to weaken throughout fiscal year 2009. Some signs of stabilization have emerged during the first quarter of fiscal year 2010. Like the rest of the nation, the region has experienced declining real estate values, rising unemployment, and increased foreclosures. The impacts of the financial crisis, housing market bubble, and slowing of consumer spending continue to be seen locally.

The area's unemployment rate increased to 11.4% at June 30, 2009 as compared to 5.3% a year ago. The unemployment rate for the area is similar to the State rate, but exceeds the national average of 9.5% for June of 2009. The chart below compares the area's unemployment rate to the rates for the State and the Nation.

Financial outlook: The financial outlook for the County's general fund over the next five years has improved over this time last year. In November, 2008 County financial analysts forecast an operating deficit of \$45.9 million for fiscal year 2011. That deficit was substantially closed with adoption of the fiscal year 2010 budget. The revised operating deficit is now forecast at \$3.9 million, or 1.1% of general fund expenditures. The Board took positive actions to address the forecast general fund shortfall in fiscal year 2010. These actions include partnership agreements with a number of our labor unions to freeze wages and cost of living adjustments for fiscal year 2010, a 4.5% increase in the rate imposed for the Motor Vehicle Rental Tax, and implementation of ongoing program reductions totaling \$22 million. Assuming a protracted, but modest, economic recovery takes place, general fund revenues and expenditures should be roughly in balance from fiscal year 2013 to fiscal year 2015.

The region's slowing economy has had an impact on the County's revenue stream. Property taxes are expected to grow at 2.3% over the next year, with new residential and commercial construction expected to remain at depressed levels. The chart on the following page shows the County's residential and commercial assessed property tax values over the past eight years. Residential properties have experienced a 38% increase in taxable property values over an eight year period compared to a 24% increase for commercial property values over the same period. Because assessed, or taxable values, are significantly below real market values for most properties, property tax collections should be relatively inelastic despite falling real market values.

Business income tax is the second largest source of revenue for the County and it has been set at a rate of 1.45% of net income. Business income tax collections parallel the business cycle. As credit markets froze and the economy entered into a severe recession, business income tax collections plummeted. Fiscal year 2009 business income taxes fell by 36% or \$23.5 million from fiscal year 2008. This decline comes after five years of double-digit growth. Business income tax collections had risen in fiscal year 2008 by 14%, following fiscal year 2007 collections that were 12% higher than the previous year. The forecast for fiscal year 2010 calls for collections to remain at fiscal year 2009 levels. If the economy does not continue to stabilize collections could be even lower. Business income tax revenues are not forecast to increase until fiscal year 2012.

Motor vehicle rental taxes, which decreased in each of the three years immediately following the September 11th terrorist attacks, fell by 4.38% in fiscal year 2009 after growing by 30% from fiscal year 2004 to 2008. The Board increased the motor vehicle rental tax from 12.5% to 17% in June 2009. Consequently, fiscal year 2010 collections are expected to be up by \$4.5 million from fiscal year 2009. However, after adjusting for the increase in the tax rate, collections are forecast to be down 6.9% from fiscal year 2009 and 11% from their peak in fiscal year 2008.

Overall, ongoing General Fund revenue is expected to grow by 1.59% for fiscal year 2011 over estimated fiscal year 2010 revenues. For fiscal year 2012 to fiscal year 2015, revenue growth is forecast between 3.17% and 4.47% annually. Expenditures, before any Board actions required to balance revenues and expenditures, are expected to grow between 2.91% and 4.7% annually, taking into account the rate of inflation, employee benefits and long term fixed costs.

The State of Oregon provides a significant portion of the County's funding (mostly recorded in the Federal and State Special Revenue Fund). The State's general fund is highly dependent upon income taxes, with approximately 85% of State general fund revenue attributable to personal income tax. Heading into the 2009 legislative session the State estimated a \$4 billion deficit for the 2009-2011 biennium. The State Legislature passed two revenue measures during the 2009 session - HB 2649 and HB 3405 which are expected to raise \$733 million in General Fund revenue. These measures have been referred to the voters and their outcome will be decided in a January 26, 2010 special election. Should the measures be repealed, there would likely be a significant impact on County revenues received from the State.

During 2003 Multnomah County voters approved a temporary personal income tax of 1.25% on residents for fiscal years 2004, 2005, and 2006. The tax primarily provided support to the schools in the County but also provided support to the County's health, human services, and public safety programs. Fiscal year 2006 was the final year the tax would be imposed, and in fiscal year 2009 the County's general fund recognized \$2,122 in collections on delinquent accounts as compared to \$6,611 in tax revenue in fiscal year 2008. The following graph highlights the County's major tax sources.

Financial and budget policies. The County has established financial and budget policies which are reviewed and adopted annually by the Board of County Commissioners in connection with the budget process. Some of the goals of the financial policies include preserving capital through prudent budgeting and financial management, achieving a stable balance between the County's ongoing financial commitments and the continuing revenues available to the County, and to leverage local dollars with Federal and State funding grants. These financial policies ensure the County has appropriately recorded and accounted for transactions in our financial statements.

The County's adopted financial and budget policies generally provide for the County to use one time only resources for costs that will not recur in future years. However, the policies allow the use of one-time only resources when, in the short term, it would be more beneficial to allocate such resources to the highest priority public services than to restrict them to non-recurring costs. The result of this practice is to expand operational levels and public expectations beyond the capacity of the organization to generate continuing funding which can lead to future budget shortfalls. The 2010 adopted budget includes approximately \$11.6 million of one-time only funds. These one-time only funds are used to provide a \$6 million business income tax reserve, \$1.5 million for partial funding for an assessment and taxation system upgrade, \$1.1 million to cover vacant space costs and \$1 million for delinquent payments from the expired temporary personal income tax, from this \$700 passed to Multnomah County Schools. The remaining \$2 million includes carryover funds and other one-time only program expenditures.

By adopting the financial and budget policies, the Board acknowledges that, to avoid financial instability, continuing requirements should be insulated from temporary fluctuations. Therefore one of the goals of the Board is to fund and maintain two general fund reserves designated as unappropriated fund balance and set at 5% each of budgeted "corporate" revenues (i.e., property taxes, business income taxes, motor vehicle rental tax, interest and investment earnings) of the general fund. These reserves are to be used for periods where revenues experience significant declines or used for non-recurring extreme emergencies such as disaster relief. Maintaining an appropriate reserve also helps the County maintain its favorable bond rating, which is currently Aa1 from Moody's Investors Services.

Long-term financial planning. The County's Chief Financial Officer and Budget Director work closely with the Chair's Chief Operating Officer and Department Directors to develop short-term and long-term financial goals and to address the financial stability of the County. The County's Chief Financial Officer and Budget Director also meet with other local jurisdictions to confer on financial issues that either overlap or impact each entity.

Major initiatives. The tension between ongoing revenues and annual expenditure growth, also referred to as the "structural deficit," was a major focus for the County in fiscal year 2009. However, Board actions taken in the fiscal year 2010 budget will significantly improve the County's fiscal condition and allow the County to pursue some major long range goals.

Planning for a number of capital project initiatives has recently been undertaken. The 2009 State Legislature authorized the County to implement a Vehicle Registration Fee to provide revenue for replacement of the Sellwood Bridge. The Legislature also committed an appropriation of \$30,000 for improvements to the bridge interchange with state highway 43 which will limit the amount of local funds necessary for the project. The Board is working with the County's federal representatives to secure an additional \$40,000 to offset construction costs. Recently, the Board authorized staff to begin design work on a new, 37,500 square foot County Court facility to be located in Gresham. Construction costs are estimated at \$21,000 with 2012 - 2013 targeted for occupancy. The fiscal year 2009 budget provided a \$1,000 contribution toward development of a sub-acute mental health facility. Renovation of the site which will house the facility is scheduled to be completed early in 2012. The County is currently in the process of identifying and securing funding to provide for annual operating costs. Finally, the Chair and the Sheriff are in discussions with State of Oregon corrections officials to pursue options to make use of the Wapato jail facility, which remains unopened following the completion of the construction. The options being discussed will be considered during the upcoming special session of the State Legislature, scheduled to convene in February, 2010.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the County for its comprehensive annual financial report (CAFR) for the year ended June 30, 2008. This was the twenty-fourth year that the County has received this prestigious award. In order to be awarded a Certificate of Achievement, the County published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the employees in the Department of County Management who maintained the records and assisted in the preparation of this report. Special thanks are extended to the General Ledger Staff who were instrumental in preparing this report. Appreciation is also extended to the Chair of the Board, Board of County Commissioners, Department Directors, and other County personnel for their assistance and support in planning and conducting the financial operations of the County in a prudent manner.

Respectfully Submitted,

Mindy Harris

INDEPENDENT AUDITOR'S REPORT

Board of Commissioners
Multnomah County, Oregon

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Multnomah County, Oregon as of and for the year ended June 30, 2009, which collectively comprise the County's basic financial statements as listed in the table of contents. These financial statements are the responsibility of Multnomah County, Oregon's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of The Library Foundation, a discretely presented component unit, which represents 1.27% and 0.08% of total assets and total revenues, respectively, for the year then ended. Those statements were audited by other auditors, whose report thereon has been furnished to us, and our opinion, insofar as it relates to the amounts included for The Library Foundation, is based solely on the report of other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of Multnomah County, Oregon, as of June 30, 2009, and the respective changes in financial position and cash flows where applicable thereof, and the respective budgetary comparisons for the General Fund and the Federal and State Program Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated November 24, 2009 on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of the

report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis and OPEB information on pages 14 through 27 and 76 are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures to this information which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise Multnomah County, Oregon's, basic financial statements. The introductory section, combining and individual fund statements and schedules, other schedules, and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules, and other schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical information have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of Multnomah County, Oregon, we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2009. We encourage readers to consider the information presented here in conjunction with the additional information that we have furnished in our letter of transmittal, which can be found on pages 1-6 of this report. All dollar amounts, unless otherwise indicated, are expressed in thousands.

Financial Highlights

- Multnomah County's assets exceeded its liabilities at June 30, 2009, by \$571,134 (*net assets*). Of this amount, \$22,620 is restricted for capital improvement projects, \$8,896 is restricted for various community support programs, and \$67,026 is restricted for future years' debt service.
- Total net assets decreased by \$6,230 or 1% in fiscal year 2009. There is not one primary factor for the decrease in net assets, but rather various reasons account for the overall decrease in net assets which are discussed by management below.
- In governmental activities, business income tax revenues decreased by \$22,750 or 35% over the prior year. The primary factor for the large decrease from 2008 is due to the economic downturn and recession during most of fiscal year 2009.
- Personal income tax revenues decreased by \$8,089 from the prior year. Calendar year 2005 was the last year for the three year temporary income tax, and only collections of delinquent accounts were recognized in fiscal year 2009. In addition, the adjustment to recognize the allowance on any uncollectible accounts was significantly higher over the prior year as additional accounts are identified as uncollectible.
- Capital grants and contributions decreased by \$6,674. During fiscal year 2008, the County received \$8,820 as a one time contribution to help fund costs to construct a new County courthouse.
- Interest and investment earnings were down from the prior year by \$6,120 or 51%. The primary reason for this decrease is a drop in average interest rates from 4.2% in fiscal year 2008 to 1.9% in fiscal year 2009.
- The gain on sale of capital assets decreased by \$9,578 or 94%. Included in the prior year balance was a gain for \$10,105 related to the sale of property in East Multnomah County to a private party.
- General government expenses for governmental activities decreased by \$10,887 or 14% from the prior year. The primary reason for the decrease is due to the reduction in the distribution of personal income tax collections reflecting a decrease in expected future collections and distributions from what was accrued in fiscal year 2008. Calendar year 2006 was the last year the tax was in effect. In addition, the County went through a 4% overall spending reduction in the general fund mid-year of 2009 which resulted in cost savings Countywide.
- Social services expenses increased by \$14,053 or 7% from fiscal year 2008. Approximately \$11,000 of this increase was noted in the Federal State special revenue program fund in Department of County Human Services (DCHS) programs. Specifically DCHS programs for weatherization repair and replacement and low income energy assistance significantly increased over 2008 due to a much harsher winter in 2009. Also DCHS programs funded by the State Mental Health grant (SMHG) increased over the prior year. Specifically SMHG services for mental health and developmental disabilities saw the greatest increases as a result of programmatic changes at the State level to reduce the total number of clients served by case managers in these programs and increase spending in other areas directed by the State.

- Net assets for business-type activities increased by \$6,721 or 105% in fiscal year 2009. The increase is primarily attributable to the Behavioral Health Managed Care fund. During fiscal year 2009, the Department of County Human Services instituted a utilization review program that provided for additional oversight and diagnosis over claims in order to ensure the correct services were delivered and to reduce unnecessary provider services. This review program resulted in significant cost savings to programs in the Behavioral Health Managed Care fund.
- Total assets for business-type activities increased by \$6,238 or 55% over the prior year and total liabilities decreased by \$483 or 10% from fiscal year 2008. The increase is primarily in the Behavioral Health Managed Care fund as cash balances have increased for the fund over the prior year as a result of fee for service premiums received from the State and a lag in the corresponding disbursements for services using a fee for service model.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$172,351, a decrease of \$16,730 in comparison with the prior year's increase of \$28,411.
- At the end of the current fiscal year, unreserved fund balance for the General Fund was \$7,486, or approximately 2% of total General Fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to Multnomah County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *Statement of Net Assets* presents information on all of the County's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The *Statement of Activities* presents information showing how the County's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the County include general government, health and social services, public safety and justice, community services, roads and bridges, and libraries. The business-type activities of the County include sanitary sewer and street lighting districts, and a behavioral health managed care operation.

The government-wide financial statements include not only the County itself (known as the *primary government*), but also a legally separate sanitary sewer district and a legally separate street lighting district, for which the County is financially accountable. The statements also include a legally separate, tax exempt foundation whose purpose is to support the County's libraries through raising, receiving, administering and disbursing funds, grants, bequests and gifts for the benefit of the County libraries. Financial information for the two *blended component units* and one *discretely presented component unit* is reported separately from the financial information presented for the County itself.

The government-wide financial statements can be found on pages 28-30 of this report.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. *Governmental funds* are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the County's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The County maintains 26 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, the Federal State Program Fund, and the PERS Pension Bond Fund, which are considered to be major governmental funds. Data from the remaining governmental funds (non-major governmental funds) are combined into a single aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The County adopts an annual appropriated budget for all funds. A budgetary comparison statement has been provided for each fund to demonstrate compliance with this budget.

The basic governmental fund financial statements and respective reconciliations can be found on pages 31-34 of this report.

Proprietary funds. The County maintains two different types of proprietary funds. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses enterprise funds to account for its sewer and lighting operations, and for behavioral health managed care services. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's various functions. The County uses *internal service funds* to account for its risk management activities, fleet operations, telephone and data processing systems, mail distribution, and facilities management operations. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The enterprise fund financial statements provide aggregate information for the sewer and lighting districts and the behavioral health fund. The internal service funds are also combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the proprietary and internal service funds is provided in the form of combining statements elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 37-39 of this report.

Fiduciary funds. *Fiduciary funds* are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of

those funds are *not* available to support County programs. The accounting used for fiduciary funds is similar to that used for proprietary funds.

The basic fiduciary fund financial statements can be found on page 40 of this report. The combining balance sheet for agency funds and combining statement of changes in assets and liabilities for agency funds can be found on pages 124-125 of this report.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the financial data provided in the government-wide and fund financial statements. The notes to the financial statements can be found beginning on page 41 of this report.

The combining statements referred to earlier in connection with nonmajor governmental funds and internal service funds are presented immediately following the notes to the basic financial statements. Combining and individual fund statements and schedules can be found beginning on page 77 of this report.

Required Supplementary Information (RSI)

In addition to the basic financial statements and accompanying notes, this report also presents certain *required supplementary information* concerning the County's progress in funding its other post employment healthcare benefits obligations. Required supplementary information can be found on page 76.

Government-wide Financial Analysis

As noted earlier, net assets may serve over time as a useful indicator of the County's financial position. The County's assets exceeded liabilities by \$571,134 at the close of the most recent fiscal year.

Multnomah County's Net Assets

	Governmental Activities		Business- Type Activities		Total	
	2009	2008	2009	2008	2009	2008
Current and other assets	\$ 446,254	\$ 469,917	\$14,085	\$ 7,865	\$ 460,339	\$ 477,782
Capital assets	604,268	613,142	3,442	3,424	607,710	616,566
Total assets	1,050,522	1,083,059	17,527	11,289	1,068,049	1,094,348
Long-term liabilities outstanding	369,715	382,106	31	28	369,746	382,134
Other liabilities	122,746	129,941	4,423	4,909	127,169	134,850
Total liabilities	492,461	512,047	4,454	4,937	496,915	516,984
Net assets:						
Invested in capital assets, net of related debt	470,426	465,079	3,442	3,424	473,868	468,503
Restricted	98,542	77,979	-	-	98,542	77,979
Unrestricted	(10,907)	27,954	9,631	2,928	(1,276)	30,882
Total net assets	\$ 558,061	\$ 571,012	\$13,073	\$ 6,352	\$ 571,134	\$ 577,364

The largest portion of the County's net assets, approximately 81%, reflects investment in capital assets (land, work in progress, buildings, improvements, machinery and equipment, bridges and infrastructure), net of accumulated depreciation, and the outstanding debt used to acquire the assets in the amount of \$473,868 as compared to \$468,503 a year ago. During fiscal year 2009 the County paid approximately \$14,874 in debt related to capital assets. The County uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The County's restricted net assets in the amount of \$98,542 or approximately 17% are restricted for capital projects, debt service, and various community support programs. Restricted net assets represent resources that are subject to external restrictions on how they may be used. The remaining balance is a deficit for the County's unrestricted net assets of \$1,276 or approximately (.2)%. Unrestricted net assets had a negative balance primarily due to the outstanding long-term liabilities in the County's governmental activities with no offsetting asset. At the end of the current year, the County is able to report positive balances in two out of three categories of net assets for the government as a whole.

In fiscal year 2009 there is a deficit in unrestricted net assets. A primary reason for the decrease from 2008 in unrestricted net assets is due to the \$24,200 one-time General Fund resources to retire debt related to County facilities and pay off other debt issues. Considering the County's long-term obligations in the Statement of Net Assets, the County recognizes the necessity to be able to meet current financial obligations and has no reason to believe that liabilities will not be met in future periods.

Total net assets decreased by \$6,230 during the current fiscal year. This decrease is attributable to various factors discussed in the financial highlights section of management's discussion and analysis.

On the following page is a summary of the County's changes in net assets for fiscal years 2008 and 2009.

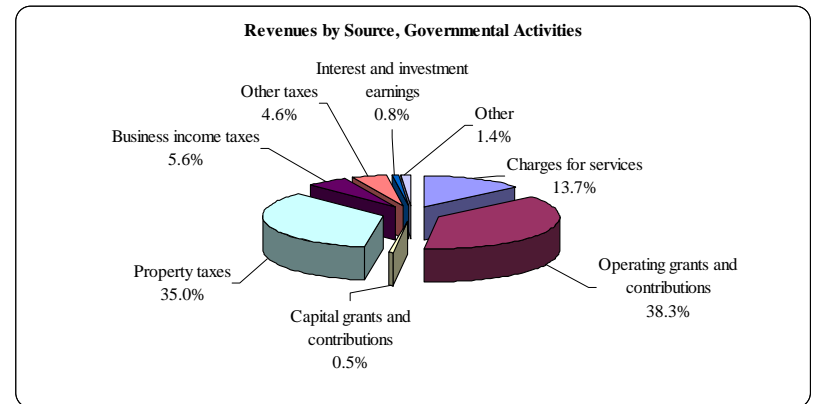

Multnomah County's Changes in Net Assets

	Governmental		Business-type		Total	
	Activities	Activities	Activities	Activities	2009	2008
	2009	2008	2009	2008	2009	2008
Revenues:						
Program revenues:

Governmental activities. Governmental activities decreased the County's net assets by \$12,951; key elements of this increase are highlighted below:

- Capital grants and contributions decreased by \$6,674 or 64%. Included in the 2008 balance is a one-time capital contribution for \$8,820 to set aside funds to build a new County courthouse.
- Business income taxes significantly decreased by \$22,750 or 35% from the prior year. Prior to fiscal year 2009, business income tax revenues have grown an average of 20% annually over the past five years. However, as the economic recession set in during fiscal year 2009, the County's business income tax revenues plummeted. This decrease has also mirrored shrinking revenues in the regional economy.
- Due to poor market conditions and lower cash balances, interest and investment earnings were down by \$6,120 or 51% from fiscal year 2008.
- The gain on sale of capital assets decreased by \$9,578 or 94%. The prior year's balance consists of a gain on a sale of property to a local private party.
- Expenses for social services increased by \$14,053 or 7% over 2008. The increase was noted in the Department of County Human Services, specifically in the Federal State special revenue fund. Federal awards that increased from the prior year included grants for weatherization and energy assistance due to a severe winter storm. State grants for mental health and developmental disabilities also increased over 2008 as the State focused on the services provided by these programs, increasing funding to allow for additional case managers and other directed spending.

The graphs on the following page show the County's Governmental Activities expenses and revenues by program area and revenue by sources.

Business-type activities. Business-type activities increased the County's net assets by \$6,721, compared to a decrease of \$1,280 in the prior year. The primary reasons for the current year's increase are:

- The Behavioral Health Managed Care fund manages the insurance for Medicaid and Oregon Health Plan enrolled members within Multnomah County. Net assets in this fund increased by \$6,523 as compared to a decrease of \$1,374 in the prior year. The current year increase is a result of a utilization review program implemented by the Department of County Human Services in fiscal year 2009. This program drastically reduced expenses by \$5,083 or 13% in the Behavioral Health Managed Care fund from \$37,803 in fiscal year 2008 to \$32,720 in fiscal year 2009. The effect of the review program was to eliminate any unnecessary services delivered by the program's providers.
- The Dunthorpe-Riverdale Service District's revenue source is primarily sewer assessments collected through property taxes. During fiscal year 2009 the District collected \$713 in fines, fees and charges for services which is an increase over the prior year by \$86 or 14% due to an increase in customer sewer user assessment fees to assist with rising utility costs, capital improvements and debt service payments.
- The Mid County Service District's revenue source is primarily street lighting assessments collected through property taxes. During fiscal year 2009 the District collected \$264 in fines, fees and charges for services which is comparable to the prior year collections of \$268. The District did not increase fee charges in fiscal year 2009.
- Interest revenue decreased by \$163 reflecting declining interest rates throughout fiscal year 2009.

The following graphs show the County's Business-type Activities expenses and revenues by program area and revenue by sources.

Expenses and Revenues - Business-type Activities

Revenues by Source - Business-type Activities

Financial Analysis of the Government's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the County's financing requirements. In particular, *unreserved fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$172,351, a decrease of \$16,730 over the prior year. Approximately 33% or \$57,204 of this total amount constitutes *unreserved fund balance*, which is available for spending at the government's discretion. The remainder of fund balance is *reserved* to indicate that it is not available for discretionary spending because it has already been committed 1) to interfund receivables (\$23,200), 2) to prepaid items and inventories (\$2,716), 3) to pay debt service (\$66,608), or 4) to pay for ongoing capital projects (\$22,623).

The General Fund is the chief operating fund of the County. At the end of the current fiscal year, unreserved fund balance was \$7,486 in the General Fund or approximately 24% of the total fund balance of \$31,377. As a measure of the General Fund's liquidity, it may be useful to compare fund balance to total fund expenditures. Unreserved fund balance represents 2% of total General Fund expenditures.

The fund balance of the County's General Fund decreased by \$40,236 during the current fiscal year. The primary factor for this decrease can be attributed to a significant decrease in business income tax revenues. Business income tax revenues were budgeted at \$55,665 while actual revenue collections were only \$42,900 for the year as compared to a budget of \$53,020 and actual collections of \$65,650 for the prior fiscal year. The decrease is also attributed to one-time transfers from the General Fund for early debt retirement of \$24,200.

The Federal and State Program Special Revenue Fund has a total fund balance of \$6,735, of which \$1,085 is reserved for prepaid items and inventories. The remaining \$5,650 is unreserved. In general, Federal revenues are closely matched with Federal expenditures. The fund balance increased over the prior year by \$2,306 or 52% as a result of a significant amount of Department of County Human Services awards that carried forward into the following fiscal year.

The PERS Pension Bond Fund is a debt service fund with a total fund balance of \$31,439 which is an increase of \$4,240 over the prior year's ending fund balance of \$27,199. The total fund balance is reserved for future debt service.

Proprietary funds. The County's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the proprietary funds at year end amounted to:

- Dunthorpe-Riverdale Service District Fund, \$251
- Mid County Service District Fund, \$250
- Behavioral Health Managed Care Fund, \$9,130

The total change in net assets for all proprietary funds was an increase of \$6,721. Other factors concerning the finances of these three funds have already been addressed in the discussion of the County's business-type activities.

General Fund Budgetary Highlights

The adjustments necessary to bring the expenditure budget into agreement with the revised revenue budget account for some of the differences between the original General Fund budget and the final adopted budget. Total final adopted budgeted revenues were increased by \$450 and total final adopted budgeted expenditures were increased by \$5,945 from the original budgeted numbers. During the year the General Fund contingency was reduced by \$11,830 for the following reasons:

- Approximately \$2,100 had been set aside for cost of living adjustments in labor contracts for corrections deputies in the Sheriff’s Office and probation and parole officers in the Department of Community Justice. These labor agreements were finally settled during fiscal year 2009.
- \$500 was spent towards specific classification compensation studies among various union classifications.
- \$2,236 was set aside for an inmate supervision program in the Sheriff’s Office that previously was administered by the Department of Community Justice.
- \$6,389 was transferred out via cash transfer from the General Fund and into the Capital Improvement capital project fund in order to make necessary capital improvements to County buildings. Specifically the County’s courthouse needed roof repairs as well as exterior maintenance and elevator replacements.
- Approximately \$300 was set aside in the General Fund for the Sheriff’s Office to provide for additional jail beds in County jails.
- \$285 was transferred via cash transfer to the Facilities Management internal service fund to fund minimal operating costs at the Wapato jail facility which currently remains unopened.

The contingency transactions account for increases in budgeted expenditures not related to increased revenues, and may be used only when approved by the Board for a specific purpose and department. There was no effect on the ending General Fund budgetary fund balance as a result of these budget amendments. The following list highlights department expenditures that had changes from the original budget to the final adopted budget or variances between the final adopted budget to actual expenditures in the General Fund greater than \$4,000:

- Sheriff – The Sheriff’s office final budget exceeded the original budget by \$4,302. Approximately \$1,666 accounts for Sheriff’s Office corrections deputies’ cost of living adjustment as a result of executing labor agreements. \$339 was set aside in the General Fund for additional jail beds. The remaining amount was funding set aside for an inmate supervision program. The Sheriff’s office also spent less than their final budget by \$4,785, which is primarily the result of reductions in various programs in response to a request by the Chair’s Office for all departments to spend at least 4% under their General Fund appropriation for fiscal year 2009.
- Nondepartmental – Nondepartmental offices and agencies spent less than their final budget by \$4,148 which was largely related to personal income tax distributions, which were budgeted at \$1,733 without any related actual expenditures. Additionally, business income tax distributions were budgeted at \$5,578 but actual expenditures were only \$4,432. The County also budgeted \$880 in interest expense for a short-term borrowing which wasn’t needed.

Capital Projects and Debt Administration

Capital assets. The County’s investment in capital assets for its governmental and business-type activities as of June 30, 2009, amounts to \$607,710 (net of accumulated depreciation). This investment in capital assets includes land, buildings and improvements, machinery and equipment, roads and bridges, sewer and street lighting systems, and motor vehicles. The total overall change in the County’s investment in capital assets for the current fiscal year was a decrease of \$8,856 or approximately 1%. There were no significant capital asset events during the current fiscal year. Governmental buildings decreased by \$6,029 or 3%, due to depreciation on existing buildings. Additionally, buildings not-in-service represents a County jail facility whose construction was completed in fiscal year 2005. However, the County does not have sufficient resources to operate the facility.

Multnomah County’s Capital Assets

The following chart indicates the County’s capital assets as of June, 30, 2009. Additional information on the County’s capital assets can be found in note 3.C on pages 59-60 of this report.

Long-term debt. At the end of the current fiscal year, the County had total debt outstanding of \$295,019. Of this amount, \$56,570 comprises debt backed by the general obligation bonds; \$223,829 represents debt backed by the full faith and credit bonds; \$623 comprises long term loan obligations; and the remainder of the County’s debt represents bonds secured solely by specified sources (e.g., revenue bonds, capitalized leases). Both general obligation bonds and full faith and credit bonds are direct obligations pledging the full faith and credit of the County.

Multnomah County's Outstanding Debt

	Governmental Activities		Business-Type Activities		Total	
	2009	2008	2009	2008	2009	2008
General obligation bonds	\$ 56,570	\$ 63,125	\$ -	\$ -	\$ 56,570	\$ 63,125
Revenue bonds	3,240	5,320	-	-	3,240	5,320
Full faith and credit bonds	223,829	235,609	-	-	223,829	235,609
Capital leases	10,757	13,604	-	-	10,757	13,604
Loans	623	242	-	-	623	242
Total outstanding debt	\$ 295,019	\$ 317,900	\$ -	\$ -	\$ 295,019	\$ 317,900

The County's total debt decreased by \$22,881 or approximately 7% during the current fiscal year. Changes to the County's long-term debt during fiscal year 2009 consisted primarily of principal payments.

The County maintains an "Aa1" rating with a stable outlook from Moody's, for general obligation debt.

State statutes limit the amount of general obligation debt a governmental entity may issue to two percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for general obligation debt is \$2,147,639, which is significantly in excess of the County's outstanding general obligation debt. State statutes also limit the amount of full faith and credit obligations to one percent of the real market value of all taxable property within the government's boundaries. The current debt limitation for the County for full faith and credit obligations is \$1,073,820, which is in excess of the County's outstanding full faith and credit debt. The County is also subject to State statute on revenue bonds used to finance pension liabilities by 5% of the real market value of all taxable property within the County's boundaries. The current debt limitation for pension revenue bonds is \$5,369,098, which is also in excess of the County's outstanding pension revenue bonds.

The following chart indicates the County's long-term liabilities as of June 30, 2009. Additional information on the County's long-term liabilities can be found in note 3.F on pages 61-69 of this report.

Key Economic Factors and Budget Information for Next Year

- The unemployment rate for the Portland-Vancouver-Beaverton PMSA (Primary Metropolitan Statistical Area) at the close of the fiscal year was approximately 11.5% which is significantly higher than the prior year's rate of 5.8% due to the economic recession.
- The forecast for fiscal year 2010 anticipates business income tax revenues will remain at the fiscal year 2009 levels. However if the economy does not continue to stabilize, actual collections could be even lower. Business income tax is highly sensitive to economic conditions. In a weakening economic climate it would not be surprising for revenues to drop by 15% or more.
- Property tax revenues are not expected to be significantly different than the original budget estimates. County assessed or taxable values are significantly below real market values for most properties, therefore property tax collections are anticipated to be relatively inelastic despite falling real market values.

All of these factors were considered in preparing the County's budget for fiscal year 2009-2010.

During the current fiscal year, unreserved fund balance in the General Fund decreased to \$7,486. At this level, with an additional \$15,337 reported in the General Reserve special revenue fund, the County is able to fully fund one of the two reserves as described in the Financial and Budget policies, and approximately half of the second reserve. The fiscal year 2009-2010 budget fully funds the second reserve in the General Fund.

Requests for Information

This financial report is designed to provide a general overview of Multnomah County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for separately issued component unit reports should be directed to the following address:

MULTNOMAH COUNTY, OREGON
Reconciliation of the Statement of Revenues, Expenditures and
Changes in Fund Balances to the Statement of Activities
Governmental Funds
For the Year Ended June 30, 2009
(amounts expressed in thousands)

Net change in fund balances - Governmental Funds	\$	(16,730)
Amounts reported for governmental activities in the statement of net assets are different because:		
Governmental funds report capital outlay as expenditures. However in the statement of activities, the cost of those assets is depreciated over their estimated useful lives.		
Expenditures for capital assets	20,783	
Current year depreciation expense	<u>(32,210)</u>	(11,427)
Contributed and donated capital assets	3,732	
Loss on disposal of capital assets	<u>(820)</u>	2,912
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the governmental funds.		
Increase in deferred revenues - property taxes	2,797	
Decrease in deferred revenues - personal income taxes	<u>(7,463)</u>	(4,666)
Proceeds from loans provide current financial resources to governmental funds, but are an increase of long-term liabilities in the statement of net assets		(623)
Premium issued on long-term debt is reported as an other financing source in governmental funds, but an increase of long-term liabilities in the statement of net assets.		
The premium is amortized to interest income in the statement of activities.		
Current year premium amortization		339
Issuance costs and similar items are reported in the governmental funds when the debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.		
Current year amortization expense		(32)
The difference between refunding bond proceeds and amount sent to the escrow agent to defease outstanding debt is a deferred charge in the statement of net assets and amortized to interest expense in the statement of activities over the life of the refunded debt.		
Current year interest expense		(259)
Activities related to loan provided to community based health organization:		
Distribution of funds to community based health organization	522	
Payments received from community based health organization	(49)	
Current year adjustment for accrued interest and change to allowance	124	
Repayment to other Government for amounts received but not distributed	<u>100</u>	697
Repayment of long-term debt is reported as an expenditure in the governmental funds, but a reduction of long-term liabilities in the statement of net assets.		23,424
Some expenses reported in the statement of activities do not require the use of current resources		
Increase in long-term compensated absences	(998)	
Decrease in accrued interest expense	208	
Decrease in personal income tax distribution liability	<u>5,262</u>	4,472
Amortization expense on the net pension asset.		(6,152)
Current year expense for net other post-employment benefits obligation		(10,037)
Internal service funds are used by management to charge the costs of certain activities to individual funds. The change in net assets of the internal service funds is reported with governmental activities.		5,131
Change in net assets of Governmental Activities	<u>\$</u>	<u>(12,951)</u>

The notes to the financial statements are an integral part of this statement.

MAJOR GOVERNMENTAL FUNDS

Major governmental funds are defined as those funds whose revenues, expenditures/expenses, assets or liabilities (excluding extraordinary items) are at least 10 percent of corresponding totals for all governmental funds for the same item. The general fund is always classified as a major fund. The modified accrual basis of accounting is used to record revenues and expenditures.

- **General Fund** – accounts for the financial operations of the County which are not accounted for in any other fund. The principal sources of revenues are property taxes, personal income taxes, and business income taxes. Primary expenditures in the General Fund are made for general government, public safety, and health and social services.
- **Federal and State Program Fund** – a special revenue fund that accounts for the majority of revenues and expenditures related to Federal and State financial assistance programs.
- **PERS Pension Bond Fund** – accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County's PERS unfunded liability. Revenues consist of charges to departments and interest. The schedule of revenues, expenditures, and changes in fund balances – budget and actual for the PERS Pension Bond debt service fund is on page 105.

PROPRIETARY FUNDS

The County utilizes eight Proprietary Funds made up of three Enterprise Funds and five Internal Service Funds. Internal Service Funds' statements begin on page 116.

Enterprise Funds:

These funds are used to finance and account for the acquisition, operation and maintenance of sewage treatment facilities, street lighting facilities and mental health claims administration, which are supported by user charges. The County accounts for certain expenditures of the enterprise funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. The difference in the accounting basis used relates primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Dunthorpe-Riverdale Service District No. 1 Fund** - accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- **Mid County Service District No. 14 Fund** - accounts for the operation of street lights throughout unincorporated Multnomah County. (A blended component unit of Multnomah County.)
- **Behavioral Health Managed Care Fund** - accounts for all financial activity associated with the State required behavioral health services.

FIDUCIARY FUNDS

These funds account for resources received and held by the County in a fiduciary capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The funds included are:

- **Agency Funds** – account for resources held by the County in a purely custodial capacity (assets equal liabilities).

(dollar amounts expressed in thousands)

Note 1. Summary of Significant Accounting Policies

A. Reporting entity

Multnomah County, Oregon (the County) was established in 1854 and is organized under the Oregon Revised Statutes (ORS) as a municipal corporation. The County is governed by an elected Board of Commissioners, comprised of a Board Chair and four commissioners. The accompanying financial statements present the County and its component units, entities for which the County is considered to be financially accountable. Financial accountability is defined as the appointment of a voting majority of the organization's governing board and where (1) the County is able to significantly influence the programs or services performed or provided by the organization or (2) the County is legally entitled to or can otherwise access the organization's resources. Blended component units, although legally separate entities, are, in substance, part of the County's operations. Component units may also include organizations which are fiscally dependent on the County in that the County approves the budget, the issuance of debt or levying of taxes. Multnomah County has two blended component units which are included in this report.

Blended component units. The Dunthorpe-Riverdale Sanitary Service District and the Mid County Street Lighting Service District serve residents within each district's geographical boundaries and are governed by a board comprised of the County's elected Board. The rates for user charges for both districts are approved by the Board. Each District is reported as an enterprise fund. Complete financial statements for each of the individual component units may be obtained at the County's administrative offices.

The County also maintains a Hospital Facilities Authority (Authority) that issues conduit debt for health care facilities. The Authority is considered to be a blended component unit of the County because the board for the Authority consists of board members from the County. There are no balances or activity of the Authority and therefore the financial statements of the County do not include the Authority. The County is not fiscally accountable for the Authority, nor does there exist any financial benefit or burden relationship between the County and the Authority.

Discretely presented component unit. The Library Foundation (TLF) is a legally separate, tax exempt component unit of the County. TLF's purpose is to support the County's libraries through raising, receiving, administering and disbursing funds, grants, bequests and gifts for the benefit of the County libraries. Although the County does not control the timing or amount of receipts from TLF, the majority of resources, or income thereon that TLF holds and invests are restricted to the County libraries' activities by the donors. TLF is a discretely presented component unit as the nature and relationship with the County is significant and to exclude TLF would cause the County's financial statements to be misleading.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

TLF is a private non-profit organization that reports under the Financial Accounting Standards Board (FASB) standards, including FASB Statement No. 117, *Financial Reporting for Not-for-Profit Organizations*. As such, certain revenue recognition criteria and presentation features are different from GASB revenue recognition criteria and presentation features. No modifications have been made to TLF's financial information in the County's financial reporting entity for these differences. TLF is an organization that is tax-exempt under Section 501(c)(3) of the Internal Revenue Code. A complete copy of The Library Foundation's financial statements can be obtained by contacting: The Library Foundation, 522 SW Fifth Ave, Suite 1103, Portland, Oregon, 97204

B. Government-wide and fund financial statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the County (the primary government) and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the County is financially accountable. The statement of activities demonstrates the degree to which the direct expenses of a given function or segment is offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. In addition, functional expenses on the statement of activities include allocated indirect expenses. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement focus, basis of accounting, and financial statement preparation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, excise taxes, personal income taxes, business income taxes, intergovernmental revenue, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Only the portion of special assessments receivable due within the current fiscal period is considered to be susceptible to accrual as revenue of the current period. All other revenue items are considered to be measurable and available only when cash is received by the County.

The County reports the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The *Federal State Program Fund* accounts for the majority of revenues and expenditures related to federal and state financial assistance programs.

The *PERS Pension Bond Fund* accounts for payment of principal and interest on general obligation bonds that were issued to fund the County's PERS unfunded liability. Revenues consist of charges to departments and interest.

Proprietary Funds account for the operations of predominantly self-supporting activities. Proprietary funds are classified as either enterprise or internal service. *Enterprise Funds* account for services rendered to the public on a user charge basis. The following are the County's major enterprise funds:

The *Dunthorpe-Riverdale Service District No. 1 Fund* accounts for the operation of the sanitary sewer system in southwest unincorporated Multnomah County.

The *Mid County Service District No. 14 Fund* accounts for the operation of the street lighting system throughout unincorporated Multnomah County.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

The *Behavioral Health Managed Care Fund* accounts for all financial activity associated with the State required behavioral health capitated services.

Additionally, the County reports the following fund types:

Special revenue funds are primarily operating funds that account for revenue derived from specific taxes or other revenue sources, which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make expenditures.

Debt service funds account for the resources accumulated and payments made for principal and interest on long-term debt of governmental funds.

Capital projects funds account for expenditures on major construction projects or equipment acquisition. The principal sources of revenues are proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County-owned property, general obligation bond proceeds, full faith and credit bonds, and revenue bonds.

Internal Service funds account for activities and services performed primarily for other organizational units within the County. The County reports five internal service funds: Risk Management Fund, Fleet Management Fund, Information Technology Fund, Mail/Distribution Fund and the Facilities Management Fund.

Fiduciary Funds reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four categories: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the County under a trust agreement or applicable legislative enactment for individuals, private organizations or other governments and are therefore, not available to support the County's own programs. Agency funds are custodial in nature (i.e. assets equal liabilities) and do not measure the results of operations. The County's agency funds are primarily established to account for the collection and disbursement of various taxes and to account for receipts and disbursements for individuals who are not capable of handling their own financial affairs.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and enterprise funds, subject to this same limitation. The County has elected not to follow subsequent private-sector guidance.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments-in-lieu of taxes and other charges between the government's sewer and lighting functions and various other functions of the County. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the sewer and lighting districts, of the Behavioral Health Managed Care fund, and of the County's internal service funds are charges to customers for sales and services. The sewer district also recognizes as operating revenue the portion of connection fees intended to recover the cost of connecting new customers to the system. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Assets, liabilities, and net assets or equity

1. Cash and investments

The County's cash and cash equivalents are comprised of cash on hand, demand deposits, and investments with original maturities of three months or less from the date of acquisition. For purposes of the statement of cash flows, each fund's share of pooled cash is treated as cash and equivalents.

State statutes authorize the County to invest in obligations of the U.S. Treasury, commercial paper, corporate bonds, municipal bonds, banker's acceptances, repurchase agreements, and the State Treasurer's Local Government Investment Pool (LGIP). Investments for the County, as well as for its component units, are reported at fair value. The LGIP operates in accordance with appropriate state laws and regulations.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

The County reports cash with fiscal agent and cash and investments with special restrictions imposed by grantors or regulations from other governments as restricted cash and investments.

2. Receivables and payables

Activities between funds that are representative of lending / borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to / from other funds.” Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as “internal balances.”

Property tax receivables are deemed to be substantially collectible or recoverable through foreclosure. Accordingly, no allowance for doubtful tax accounts is deemed necessary. All other receivables are shown net of an allowance for uncollectibles.

Property taxes are levied and become a lien on July 1. Property taxes are assessed in October and tax payments are due November 15th of the same year. Under the partial payment schedule, the first one-third of taxes are due November 15th, the second one-third on February 15th, and the remaining one-third on May 15th. A three percent discount is allowed if full payment is made by November 15th and a two percent discount is allowed if two-thirds payment is made by November 15th. Taxes become delinquent if not paid by the due date and interest accrues after each trimester at a rate of one percent per month. Property foreclosure proceedings are initiated four years after the tax due date.

Multnomah County residents approved a personal income tax effective from calendar year 2003 through calendar year 2005. The tax was a 1.25% levy on the Oregon taxable income of Multnomah County residents reduced by an exemption amount. The tax generated an estimated \$120,000 for each calendar year the tax was in effect. The revenues generated from the tax provided funding for public school districts within Multnomah County in addition to funding for elderly, disabled and mentally ill persons, and programs for public safety and health. As of fiscal year 2009, the County continues to collect delinquent accounts. Included in the financial statements is an allowance for uncollectible accounts of \$11,637 for personal income taxes. This amount is shown net with taxes receivable on both the fund financial statements and the statement of net assets. In the statement of activities the reduction is recorded to the related income tax revenues, and on the fund financial statements the offset is recorded in deferred revenues.

3. Inventories and prepaid items

Inventories of materials and supplies in the governmental funds are valued at average cost and are offset by a reservation of fund balance. Inventories of materials and supplies in the internal service funds are valued at the lower of average cost or market. All inventories are recorded as expenditures when consumed rather than when purchased.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Payments in excess of \$10 to vendors which reflect costs applicable to future accounting periods are recorded as prepaid items in both government-wide and fund financial statements.

4. Fund balances and net assets

In the financial statements, assets in excess of liabilities are presented in one of two ways depending on the measurement focus used in the reporting fund.

On the *Balance Sheet – Governmental Funds*, assets in excess of liabilities are reported as fund balances and are segregated between reserved and unreserved amounts. Reserves are legal requirements that make funds unavailable for appropriation by segregating them for a specific use. Conversely, unreserved fund balances are generally available for appropriation by segregating them for a specific use. However management may also make designations of unreserved fund balance that define management’s intent that certain fund balance amounts are currently unavailable for appropriation. Designated unreserved fund balances are not legally segregated.

On the government-wide *Statement of Net Assets*, the proprietary funds’ *Statement of Net Assets*, and the fiduciary funds’ *Statement of Fiduciary Net Assets*, net assets are segregated into restricted and unrestricted balances. Restrictions are limitations on how the net assets may be used. Restrictions may be placed on net assets by an external party that provided the resources, by enabling legislation or by the nature of the asset.

Certain revenues derived from specific taxes or other earmarked revenue sources are considered restricted assets. Such revenues include dedicated property taxes, temporary personal income tax, state gas tax, intergovernmental grants, and charges for services which are legally restricted to finance particular functions or activities. In addition, proceeds from general obligation bonds, revenue bonds, and full faith and credit bonds are restricted to support the specific purpose for which the debt was issued. Such net assets are reported as restricted on the Statement of Net Assets and are recorded in separate funds supporting the specific function or operation.

5. Capital assets

Capital assets, which includes property, equipment, infrastructure assets (e.g., roads, bridges, sidewalks, sewers, street lighting, and similar items), and their improvements, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of more than \$5 for equipment and \$10 for infrastructure with an estimated useful life of at least three years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during construction phases of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the year, the County incurred no interest expense for capital assets for business-type activities.

Property, plant, and equipment of the County, as well as the component units, are depreciated using the straight line method over the following estimated useful lives:

- Motor vehicles 3 to 10 years
- Sewer systems 50 years
- Street lighting 30 years
- Equipment, including software 3 to 20 years
- Roads and bridges 40 years
- Buildings and improvements 40 years

6. Other assets

Included in other assets are unamortized bond issuance costs and the unamortized pension asset. In governmental fund types, bond issuance costs are recognized in the current period. In the government-wide financial statements bond issuance costs are capitalized and amortized over the term of the bond using the straight-line method, which approximates the effective interest method. The net pension asset in the Statement of Net Assets has been recognized in connection with the debt issued by the County in 1999 to fund the County's Public Employees Retirement System (PERS) unfunded accrued actuarial liability (UAAL). The pension asset is amortized over the life of the debt or thirty years. Amortization expense on the pension asset and the bond issuance costs are included in the general government line item on the Statement of Activities.

7. Unearned / Deferred revenues

Unearned revenues will be recognized as revenue in the fiscal year they are earned in accordance with the accrual basis of accounting. Deferred revenues reported in the governmental fund financial statements represent unearned revenues or revenues which are measurable but not available. In accordance with the modified accrual basis of accounting, these items are reported as deferred revenues.

8. Compensated absences

It is the County's policy to permit employees to accumulate earned but unused vacation, compensatory and sick leave benefits. There is no liability for unpaid accumulated sick leave since the County does not have a policy to pay any amounts when employees

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

separate from service with the County. All vacation pay and compensatory time is accrued when incurred in the government-wide statements and proprietary funds statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements at June 30. Liabilities for compensated absences are liquidated as employees separate from service and receive payment for accumulated leave benefits. Expenditures for liquidating the liabilities are recorded in the General, Special Revenue, Capital Projects, Enterprise, and Internal Service Funds.

9. Long-term obligations

In the government-wide financial statements and for proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. When incurred, bond premiums and discounts are deferred and amortized over the life of the bonds using a method that approximates the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. The difference between the reacquisition price (funds required to refund the old debt) and the net carrying value of the refunded debt is an economic gain or loss, and is treated as a deferred charge on refunding. This deferred charge is reported as a reduction to the bonds payable on the Statement of Net Assets and is being amortized as a component of interest expense.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

Certain facility leases contain fluctuating or escalating payments, where the rent expense is recorded on a straight-line basis over the lease term. This liability is recorded on the Statement of Net Assets as a deferred lease obligation representing the cumulative difference between rent expense and rent payments.

10. Net other post-employment benefits obligation (Net OPEB Obligation)

The County implemented Governmental Accounting Standards Board (GASB) Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* for fiscal year ending June 30, 2006. The County used a five year look-back approach to compute its net OPEB obligation. The net OPEB obligation is recognized as a long-term liability in the government-wide financial statements. The liability reflects both the lump sum payments to employees and the present value of expected future payments. The net other post employment benefits liability and

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

expenditure in the governmental fund financial statements are limited to amounts that become due and payable as of the end of the fiscal year.

11. Pollution Remediation Obligations

The County implemented Governmental Accounting Standards Board (GASB) Statement No. 49, *Accounting and Financial Reporting for Pollution Remediation Obligations*. This Statement is effective beginning with fiscal year June 30, 2009. GASB 49 is retroactive, however the County did not report any obligations that required a restatement of beginning net assets. Under this accounting standard, when the County determines a pollution remediation obligation exists and management is able to make a reasonable and supportable estimation of expected outlays, a long-term liability is recorded.

In the County's Government-wide and Proprietary Fund Financial Statements on a full accrual basis, pollution remediation costs are reported in the Statement of Revenues, Expenses and Changes in Fund Net Assets as a program or operating expense (or as revenues for recoveries received after all remediation activities have been completed), special item or extraordinary item.

In the County's Governmental Fund Financial Statements on a modified accrual basis, expenditures and liabilities are recognized upon receipt of goods and services. Estimated recoveries from insurers and other responsible parties reduce any associated pollution remediation expenditures when the recoveries are measurable and available.

12. Contributions and in-kind donations

Contributions of cash, property or equipment received from other governments are credited directly to the contribution accounts recorded in the government wide financial statements. The County also receives financial gifts and gifts in-kind from The Library Foundation. These in-kind donations from The Library Foundation are recorded at fair value upon receipt in the government wide and fund financial statements.

13. Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America require management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

14. Reclassifications

Certain amounts from the financial statements of the discretely presented component unit have been reclassified to conform with the presentation requirements of the primary government's financial statements.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Note 2. Stewardship, compliance, and accountability

A. Budgetary information

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds except the trust funds. All annual appropriations lapse at fiscal year end.

During the month of February each year, all agencies of the County submit requests for appropriations to the County Chair so that a budget may be prepared. By May 15, the proposed budget is presented to the County Board of Commissioners for approval. The Board holds public hearings and a final budget must be prepared and adopted no later than June 30.

The adopted budget is prepared by fund and department. The County's department managers may make transfers of appropriations within a department and fund. Transfers and changes (increases) of appropriations between departments or funds require the approval of the Board. The legal level of budgetary control, (i.e., the level at which expenditures may not legally exceed appropriations) is the fund and department level. The Board approved one supplemental budget and several other budgetary appropriations throughout the year.

B. Expenditures in excess of appropriations

Oregon state law requires disclosure of fund expenditures in excess of budgeted appropriations. For the year-ended June 30, 2009, expenditures exceeded appropriations in the following areas:

<u>Fund</u>	<u>Agency</u>	<u>Amount</u>
Federal State Program Fund	Community Services	\$ 37
Federal State Program Fund	Health Services	2,484
Revenue Bond Fund	Nondepartmental	1,439

In the Federal State Program Fund, the Community Services Department exceeded its appropriation as a result of a higher than expected beginning balance related to prior year revenues that were not expended until fiscal year 2009. The required budget amendments were not submitted for approval prior to the end of the fiscal year. This was a one-time adjustment with available fund balance to cover the expenditure.

In the Federal State Program Fund, the Health Department exceeded its appropriation primarily due to an increase in patient visits related to the Health Department's dental, pharmacy and primary care programs. These programs are funded by Medicaid revenues, private insurance and self-pay. In addition, the Health Department's annual vaccine allotment received from the State was greater than expected and the Department's budget

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

did not reflect the increase in cost. The over expenditures were funded by available fund balance.

In the Revenue Bond Fund, the County exceeded its appropriation as a result of the early redemption of revenues bonds issued in October 1998. This early redemption was as a result of revenues recognized on a property sale in fiscal year 2008 committed for future revenues on this debt. The over expenditure was funded by available fund balance.

Note 3. Detailed notes on all funds

A. Cash and investments

Multnomah County pools virtually all funds for investment purposes. All appropriate funds are allocated interest based on the average daily cash balance of the fund and the average monthly yield of the County's investment portfolio. Each fund's portion of this pool is displayed as "Cash and Investments."

Changes to Oregon Revised Statutes, Chapter 295 have resulted in the Office of the State Treasurer being given responsibility for overseeing collateralization of public funds by depositories of public funds in Oregon. The County independently monitors its depository institutions for indications that could potentially cause loss of County funds. Funds deposited with fiscal agents for the purpose of meeting the payment of principal or interest on bonds or like obligations are not required to be collateralized per Oregon Revised Statutes, Chapter 295.005.

Oregon Revised Statutes, Chapter 294, authorizes the County to invest in obligations of the U.S. Treasury, U.S. Government agencies and instrumentalities, bankers' acceptances guaranteed by a qualified financial institution, commercial paper, corporate bonds, repurchase agreements, State of Oregon Local Government Investment Pool (LGIP), and various interest-bearing bonds of Oregon and other municipalities.

The County's investments are governed by a written investment policy that is reviewed annually by both the Oregon Short-Term Fund Board and the Multnomah County Investment Advisory Board, and is adopted annually by the Board of County Commissioners. The policy specifies the County's investment objectives, benchmarks, required diversification by security type and by maturity, and the reporting requirements.

The County's investment policy requires that a third party be used for safekeeping of investment instruments. Investment securities purchased or sold pursuant to the County's investment policy are delivered via payment by book entry or physical delivery to a third party custodian.

The County's investment policy also requires that the market value plus accrued interest of the securities collateralizing repurchase agreements exceeds the face amount of the

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

repurchase agreement by margins prescribed in writing by the Oregon Short-Term Fund Board, providing the County with a margin against a decline in the market value of the securities. The market value plus accrued interest of the securities purchased under repurchase agreements did not fall below the required level during the year.

The County is authorized to invest in the LGIP, an external investment pool, within prescribed limits. The investments are booked at fair value and are the same as the value of the pool shares. The LGIP investments and all other investments are governed by a written investment policy that is reviewed annually by the Oregon Short-Term Fund Board. The Oregon Short-Term Fund Board is comprised of members of local government and private investment professionals, who are appointed by the Governor of the State of Oregon. LGIP is not rated by any national rating service.

At year-end, the carrying amount of the County's deposits was \$60,837 and the bank balance was \$60,871. The bank balance was covered by federal depository insurance (FDIC) or by collateral held by one or more of the State's authorized collateral pool managers. The remaining balance of \$34 represents petty cash accounts that were uninsured and uncollateralized.

As a means of limiting its exposure to fair value losses resulting from rising interest rates, the County's investment policy limits maturities as follows:

<u>Maturity</u>	<u>Cumulative Constraint</u>
Less than 30 days	10%
Less than 90 days	25%
Less than 270 days	50%
Less than 1 year	70%
Less than 3 years	100%

If the goals of maturity limits are exceeded by 5% or more for ten successive business days, prompt notification to the County's Chief Financial Officer and the County's Investment Advisory Board is required. In addition, to limit its exposure to losses due to asset concentration, the County's investment policy and Oregon Revised Statutes limit asset concentration as follows:

1. Corporate indebtedness must be rated on the settlement date A-1 or AA or better by Standard and Poor's Corporation or P-1 or Aa by Moody's Investors Service, or the equivalent rating by any nationally recognized statistical rating organization.
2. Notwithstanding item one, corporate indebtedness must be rated A-2 or A by Standard & Poor's and P-2 or A by Moody's, or the equivalent rating by any nationally recognized statistical rating organization when issued by a business enterprise that has its headquarters in Oregon, employs more than 50% of its

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

permanent workforce in Oregon, or has more than 50% of its tangible assets in Oregon.

3. Purchase of commercial paper and other corporate debt not insured by an agency of the U.S. Government up to 25% of the total investment portfolio is allowed, but may exceed that limit up to 30% for a period not to exceed ten consecutive business days.
4. U.S. Government Agencies are limited to 75% of the investment portfolio.
5. Investments guaranteed by an agency of the U.S. Government (e.g., the U.S. Treasury or the Federal Depository Insurance Corporation) may be owned without limit.

Additionally, to limit its exposure to asset concentration risk, the County restricts the total investment that can be made in the corporate indebtedness of a single corporate entity and its affiliates and subsidiaries to 5% of the total investment portfolio. The County did not have any investments that exceeded this limit during the year.

Multnomah County manages custodial credit risk for deposits and investments in accordance with Oregon Revised Statutes and the County's investment policy. As of June 30, 2009, \$34 of the County's bank balance of \$60,871 was exposed to custodial credit risk because it was uninsured and uncollateralized.

At June 30, 2009, the County had the following corporate debt in its investment portfolio with the credit ratings noted by Standard & Poor's and Moody's respectively:

<u>Investment Type / Issuer</u>	<u>Fair Value</u>	<u>Credit Rating</u>	<u>Maturity</u>
Corporate note – MBNA Bank NA (BAC)	\$ 5,010	A+ / Aa3	08/03/2009

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Revenues of Dunthorpe-Riverdale and Mid County Service Districts are reported net of uncollectible amounts. Total uncollectible amounts related to revenues are all for prior periods.

Governmental funds report deferred revenue in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue reported in the governmental funds were as follows:

	Unavailable	Unearned	Total
Personal income tax receivable	\$ 13,957	\$ -	\$ 13,957
Allowance for doubtful accounts – personal income tax	(11,637)	-	(11,637)
Property taxes receivable (General Fund)	10,372	-	10,372
Property taxes receivable (other governmental funds)	2,252	-	2,252
Grant draws prior to meeting all eligibility requirements	-	2,162	2,162
Contracts receivable	-	3,920	3,920
Contract revenue received in advance	-	150	150
Loans receivable	-	744	744
Tax title land sales inventory	-	162	162
Special assessments receivable	-	11	11
Total deferred revenue for governmental funds	<u>\$ 14,944</u>	<u>\$ 7,149</u>	<u>\$ 22,093</u>

Amounts reported above as unearned are reported as unearned revenue in governmental activities on the Statement of Net Assets. Governmental activities also include Internal Service Funds, which report \$41 in unearned revenue, resulting in total unearned revenue on the Statement of Net Assets of \$7,190.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

During fiscal year 2005 the County finalized the construction of the Wapato Jail. The total cost of the jail was \$51,164 and is included in the above capital asset schedule. Currently the County has not approved an operating budget for the jail and therefore the jail has not been placed into service and is not being depreciated. When the jail becomes operational it will be depreciated over forty years. The County is currently considering various plans to operate the Wapato Jail.

Depreciation expense was charged to functions / programs of the primary government as follows:

Governmental activities:	
General government	\$ 12,650
Health services	117
Social services	53
Public safety & justice	1,216
Community services	262
Library	4,739
Roads and bridges	15,426
Total depreciation expense – governmental activities	<u>\$ 34,463</u>
Business-type activities:	
Sewer	\$ 64
Lighting	60
Total depreciation expense – business-type activities	<u>\$ 124</u>

D. Other assets

Other assets, net of accumulated amortization at June 30, 2009 consist of the following:

Bond issuance costs	\$ 332
Negative net pension asset	125,595
	<u>\$ 125,927</u>

Amortization expense in the statement of activities on bond issuance costs and the negative net pension asset were \$32 and \$6,152, respectively for the year ended June 30, 2009.

E. Interfund receivables, payables, and transfers

Due from / to other funds:

The County records “due from” and “due to” transactions in order that individual funds will be able to meet cash flow needs at year end and prevent a fund from reporting a negative cash balance. The amount payable to the Risk Fund is related to a capital loan for sewer improvements in the Dunthorpe Riverdale Service District Fund. This balance

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

is expected to be collected in the subsequent year. The composition of interfund balances as of June 30, 2009 is as follows:

<u>Receivable Funds</u>	<u>Payable Funds</u>	<u>Amount</u>
Risk Fund*	Dunthorpe Riverdale Service District Fund	<u>\$ 80</u>
*Internal service fund		

Advances to / from other funds:

The amount payable to the General Fund is related to providing interim working capital financing for federal reimbursement grants. The \$23,200 is also noted as a reservation of the General Fund’s fund balance. The amounts payable to the Risk Fund relate to a capital loan for sewer improvements in the Dunthorpe Riverdale Service District Fund. None of the balances are scheduled to be collected in the subsequent year.

<u>Receivable Funds</u>	<u>Payable Funds</u>	<u>Amount</u>
General Fund	Federal State Fund	\$ 23,200
Risk Fund*	Dunthorpe Riverdale Service District Fund	173
		<u>\$ 23,373</u>
*Internal service fund		

Interfund Transfers:

Following are the County’s interfund transfers for the year ended June 30, 2009. The general fund transfers to nonmajor governmental funds includes \$15,636 to the Library special revenue fund to provide for various County Library upgrades and projects, as well as \$24,200 to the Capital Debt Retirement fund for the early retirement of debt.

	<u>Transfers in:</u>			
	<u>General</u>	<u>Nonmajor</u>	<u>Internal</u>	
	<u>Fund</u>	<u>Governmental</u>	<u>Service</u>	<u>Total</u>
<u>Transfers out:</u>				
General Fund	\$ -	\$ 46,446	\$ 1,660	\$ 48,106
Nonmajor Governmental Funds	3,241	7,083	-	10,324
Internal Service Funds	175	5,033	-	5,208
Total transfers out:	<u>\$ 3,416</u>	<u>\$ 58,562</u>	<u>\$ 1,660</u>	<u>\$ 63,638</u>

F. Long-term liabilities

General Obligation Bonds

The County issues general obligation bonds to provide funds for the rehabilitation, construction and acquisition of various library and public safety facilities and related

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

equipment. General obligation bonds have been issued for these governmental activities. The 1996 general obligation issue in the amount of \$108,700 is subject to Federal arbitrage regulations. As of June 30, 2009, the balance on the 1996 general obligation bonds was zero. In February 1999, the County advance refunded a portion of these general obligation bonds by issuing \$66,115 in new general obligation bonds. At June 30, 2009 the balance on the 1999 Advance Refunding was \$56,570.

General obligation bonds are direct obligations, pledge the full faith and credit of the County and are backed by the County's authority to levy property taxes. These bonds are generally issued as 20-year serial bonds with equal amounts of principal and interest maturing each year. General obligation bonds currently outstanding are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
Governmental activities	3.00-4.75%	<u>\$ 56,570</u>

Annual debt service requirements to maturity for general obligation bonds are as follows:

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>
2010	\$ 6,860	\$ 2,387
2011	7,160	2,093
2012	7,470	1,780
2013	7,490	1,451
2014	7,835	1,106
2015 – 2017	<u>19,755</u>	<u>1,397</u>
Total	<u>\$ 56,570</u>	<u>\$ 10,214</u>

Revenue Bonds

The County also issues bonds where the government pledges specific revenue sources or income derived from the acquired or constructed assets to pay debt service. In October 1998, the County issued \$3,155 of revenue bonds to finance constructing, renovating, improving and equipping County-owned facilities, and entered into a public / private partnership with the Regional Children's Campus (RCC), a 501(c)(3) non profit agency. On October 1, 2008 the County paid off the remaining balance of \$1,710 on the 1998 revenue bonds as a result of revenues recognized on a property sale committed for future revenues on this debt.

In November 2000, the County issued \$2,000 of revenue bonds to finance the costs of acquiring land and constructing, renovating, improving and equipping certain facilities to be used as a vocational training center for developmentally disabled residents of Multnomah County. This debt issue is subject to Federal arbitrage regulations. The County entered into a public / private partnership agreement with Port City Development (Port City), a 501(c)(3) non profit agency. The future lease payments from Port City are pledged revenues for the debt service on these bonds. The term of the agreement with

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Port City for future pledged revenues is through fiscal year 2034, and the outstanding balance on these future lease payments at June 30, 2009 was \$1,687. During fiscal year 2009 Port City paid \$33 towards the outstanding balance on this lease agreement. The total principal and interest paid on the bonds during the fiscal year were \$135 and \$62 respectively. The outstanding balance on the bonds was \$1,175 at June 30, 2009. The debt matures in fiscal year 2016.

Also in November 2000, the County issued \$3,500 of revenue bonds to re-finance the costs of acquiring real property and constructing facility improvements related to the Oregon Food Bank. In fiscal year 2006 the Oregon Food Bank satisfied their commitment to pledge future lease payments and no longer has any commitment to the County for this debt issue. The total principal and interest paid during the fiscal year were \$235 and \$108 respectively. The outstanding balance on the debt was \$2,065 at June 30, 2009. The debt matures in fiscal year 2016.

Revenue bonds outstanding at year-end are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
Governmental activities	4.45-5.20%	<u>\$ 3,240</u>

Annual debt service requirements to maturity for revenue bonds are as follows:

<u>Year Ending June 30</u>	<u>Principal</u>	<u>Interest</u>
2010	\$ 395	\$ 152
2011	415	133
2012	435	113
2013	460	91
2014	485	66
2015 – 2016	<u>1,050</u>	<u>55</u>
Total	<u>\$ 3,240</u>	<u>\$ 610</u>

Full Faith and Credit Bonds

On April 1, 1999, the County issued \$36,125 in Certificates of Participation with interest rates from 4.00% to 4.75% to finance the costs of acquiring land and facilities. In October 2004, the County advance refunded \$22,015 of the 1999 Certificates of Participation by issuing \$54,235 in full faith and credit bonds. Certificates of Participation are direct obligations and pledge the full faith and credit of the County. At June 30, 2009, \$1,685 of the 1999 Certificates of Participation were outstanding.

On December 1, 1999, the County issued \$184,548 in taxable Revenue Pension Obligation Bonds with interest rates from 6.49% to 7.74% to fund the County's unfunded accrued actuarial liability (UAAL). The County estimates that by funding the actuarial liability, the County will receive a present value savings of about \$35,776 between the

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

amount calculated by the Oregon Public Employees Retirement System (PERS) to retire the UAAL and the amount of the debt repayment. Payment of principal and interest, except for a term bond, will be guaranteed by MBIA. At June 30, 2009, \$159,113 of these bonds were outstanding.

On April 1, 2000, the County issued \$61,215 in Full Faith and Credit Bonds with interest rates from 5.00% to 5.50% to finance the costs of acquiring and installing the integrated enterprise computer system, acquire land, acquire facilities and construct other County facilities and structures. In October 2004, the County advance refunded \$27,985 of these full faith and credit bonds by issuing \$54,235 in full faith and credit bonds. Full faith and credit bonds are direct obligations and pledge the full faith and credit of the County. At June 30, 2009, \$2,820 of these bonds were outstanding.

On May 15, 2003, the County issued \$9,615 in Full Faith and Credit Refunding Obligations, Series 2003 with interest rates from 1.50% to 3.25%. At June 30, 2009, \$5,135 of these bonds were outstanding.

On October 1, 2004, the County issued \$54,235 in Full Faith and Credit Refunding Obligations, Series 2004 at a premium of \$5,089, with interest rates from 3.00% to 5.00%. At June 30, 2009 the unamortized premium on the debt was \$3,562. This issue was used to refund \$27,985 of outstanding Full Faith and Credit Bonds, Series 2000 with interest rates from 5.00% to 5.50%, \$22,015 of outstanding Certificates of Participation, Series 1999 with interest rates from 4.00% to 4.75%, and \$4,960 of outstanding Certificates of Participation, Series 1998 with interest rates from 3.75% to 4.90%. The difference between the present value of the old debt service requirements and the present value of the new debt service requirements is a deferred charge of \$3,887, which is amortized as a component of interest expense over the life of the new debt. At June 30, 2009 the deferred charge was \$2,721. The entire amount of this debt issue was outstanding at June 30, 2009.

Full faith and credit bond obligations outstanding at year-end are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
Governmental activities	1.50-7.74%	<u>\$ 222,988</u>

Capital Leases

The County has entered into various lease/purchase agreements to acquire property and equipment. These lease agreements qualify as capital leases for accounting purposes and have been capitalized in accordance with accounting principles generally accepted in the United States of America. Total assets acquired through capital leases are as follows:

<u>Asset</u>	<u>Governmental Activities</u>
Buildings	\$ 75,103
Less: Accumulated depreciation	(28,372)
Total	<u>\$ 46,731</u>

Capital lease obligations outstanding at year-end are as follows:

<u>Purpose</u>	<u>Interest Rates</u>	<u>Amount</u>
Governmental activities	2.50-4.90%	<u>\$ 10,757</u>

MULTNOMAH COUNTY, OREGON

Pollution Remediation Obligations

Multnomah County implemented *Accounting and Financial Reporting for Pollution Remediation Obligations*, GASB Statement No. 49, for fiscal year 2009. Included in the current year's additions and reductions are pollution remediation activities related to various properties the County is responsible for clean up costs. During the year a special revenue fund, a capital project fund and an internal service fund all paid for pollution remediation costs. At June 30, 2009, the County did not have any outstanding obligations for pollution remediation.

Subsequent to year-end management identified a gas leak at the County's Yeon Fueling Station property site. The County is in preliminary stages and conducting soil testing as well as working with DEQ to assess the total pollution remediation costs. Management estimates the total clean up costs related to this site will be \$150.

Defeased Full Faith and Credit Bonds

On October 1, 2004 the County defeased certain full faith and credit bonds by placing the proceeds of the new bonds in irrevocable trusts to provide for all future service on the old bonds. Accordingly, the trust account assets and related liability for the defeased bonds are not included in the County's financial statements. On August 1, 2008, \$4,960 was called and paid by the escrow agent on the Series 1998. At June 30, 2009, Series 2000A

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

and Series 1999A were outstanding in the amount of \$27,985 and \$22,015, respectively. Subsequent to year-end, the \$22,015 on the 1999A was called and the bonds were paid off.

Conduit Financing

Multnomah County Conduit Financing

On November 1, 1997, the County issued \$31,600 in Educational Facilities Revenue Bonds which have not been recorded in the County's financial statements. The proceeds of these bonds were assigned to the University of Portland (the University) to finance capital improvements to the University, pay issue costs and advance refund \$17,750 of the Series 1994 issue. On April 1, 2000, the County issued an additional \$17,160 in Conduit Educational Revenue Bonds for the University to finance the construction of a student housing facility, parking garage and street lighting. These bonds are not recorded on the books of the County but are assigned to the University. The responsibilities of the County in this bond transaction were limited to adopting the resolution authorizing the issuance of the bonds, executing the bonds and the bond documents to which it is a party, issuing and delivering the Bonds, assigning certain of its rights to the Trustee as provided in the indenture, and directing the Trustee as to the application of monies received from the University to pay the bonds in accordance with the indenture. The County has no obligation to take any other action relating to the bonds. Since the County does not own any of the assets constructed or assume any liabilities associated with repayment, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2009, \$30,930 of Educational Facilities Revenue Bonds were outstanding.

On December 1, 1999, the County issued \$9,830 in Higher Education Variable Rate Demand Revenue Bonds. The proceeds of these bonds were used to provide funds to reimburse Concordia University for the costs of acquiring, constructing and improving the educational facilities of the University (the Project), fund a debt service reserve fund and pay the costs of issuing the bonds. The Higher Education Revenue Bonds have not been recognized as a liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by Concordia University. As the County does not own any of the assets constructed or assume any liabilities associated with the Project, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2009, \$8,065 of the Higher Education Variable Rate Demand Revenue Bonds were outstanding.

On October 21, 2008, the County issued \$7,400 in Higher Education Revenue Bonds. The proceeds of the bonds were used to provide financing for Pacific Northwest College of Art (PNCA) for costs of acquisition, construction, additions, renovations and improvements to buildings used by the College to accommodate new programs and enrollment growth. The Higher Education Revenue Bonds have not been recognized as a

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

liability of the County because the bonds are secured solely by the provisions of the Bond indenture and payments are made by PNCA. As the County does not own any of the assets constructed or assume any liabilities associated with the project, there is no balance sheet disclosure or recognition of revenues and expenditures within the County's financial statements. As of June 30, 2009, \$7,005 of the Higher Education Revenue Bonds were outstanding.

The County's total conduit debt at June 30, 2009 was \$46,000. The County is not responsible or obligated for the repayment of conduit debt.

Hospital Facilities Authority of Multnomah County Conduit Financing

On December 3, 1998, the County created a component unit, the Hospital Facilities Authority of Multnomah County, Oregon (the Authority). The Authority issues hospital revenue bonds for construction and improvements to health facilities in Multnomah County. On March 1, 1999, the Authority issued \$26,000 in Hospital Revenue Bonds (Terwilliger Plaza). On December 4, 2003, the Authority issued an additional \$17,200 in Hospital Revenue Bonds (Holladay Park Plaza). On July 13, 2004, the Authority issued \$100,000 in Hospital Revenue Bonds (Providence Health Systems). On December 12, 2006, the Authority issued \$39,765 in revenue bonds (Terwilliger Plaza). On July 2, 2007, the Authority issued \$8,200 in Revenue Bonds (Pacific Mirabella). On October 26, 2008, the Authority issued an additional \$221,645 in Variable Rate Demand Revenue Bonds (Mirabella at South Waterfront). Then on March 1, 2009, the Authority issued \$7,050 in Variable Rate Demand Revenue and Refunding Bonds (Oregon Baptist Retirement Homes Project). The proceeds of these bonds issues were used by health care facilities to finance various capital projects and refund outstanding bonds. The debt issues have not been recognized as a liability of the County or the Authority because the bonds are secured solely by the provisions of the Bond indenture and payments are made by the health care facilities. Terwilliger Plaza, Holladay Park Plaza, Providence Health Systems, Mirabella and Oregon Baptist have pledged the gross revenues of the health care facilities to secure payment of the bonds. The bonds shall not be payable from a charge upon any fund or asset, nor shall the County or the Authority be subject to any liability. No holder or holders of the bonds shall ever have the right to exercise the taxing power of the County to pay the bonds or the interest, nor to enforce payment against any property of the County. Upon completion of the project, the assets constructed or purchased are owned by Terwilliger Plaza, Holladay Park Plaza, Providence Health Systems, Mirabella and Oregon Baptist. Since neither the County nor the Authority own any assets or assume any liabilities associated with the repayment, there is no balance sheet disclosure or recognition of revenues within the County's financial statements. As of June 30, 2009, the total debt outstanding for the Hospital Facilities Authority of Multnomah County was \$404,675 of these bonds were outstanding.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Note 4. Other information

A. Risk management

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the County carries commercial insurance. The County established risk management programs for liability and workers' compensation, whereby premiums are calculated on payroll expenses in all funds and are paid into the risk management fund. The funds are available to pay claims, claim reserves, and reduce administrative costs of the program. These interfund premiums are used to offset the amount of claims expenditure reported in the risk management fund. As of June 30, 2009, interfund premiums exceeded reimbursable expenditures.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are re-evaluated periodically to consider the effect of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors. The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate. The County's excess insurance coverage policies cover claims in excess of \$750 for workers' compensation and \$1,000 for all liability claims. Settlements have not exceeded coverages for each of the past three fiscal years. The County anticipates the balance in the claims liability account at year-end will be paid within the next fiscal year.

Changes in the balances of claims liabilities during the past two years are as follows:

	Fiscal Year Ended 6/30/09	Fiscal Year Ended 6/30/08
Unpaid claims, beginning of fiscal year	\$ 11,414	\$ 8,668
Incurred claims (including IBNRs)	24,321	21,726
Actuarial adjustment	(1,571)	489
Claim payments	(21,303)	(19,469)
Unpaid claims, end of fiscal year	<u>\$ 12,861</u>	<u>\$ 11,414</u>

B. Subsequent events

In September of 2009, the Hospital Facilities Authority of Multnomah County issued \$66,535 as a tax-exempt loan. The tax-exempt debt has not been recognized as a liability

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

of the County or the Authority because the notes are secured solely by the provisions of the loan agreement and payments are made by the retirement facility.

In October of 2009, the Board of County Commissioners approved a short-term internal loan from the Risk Fund to the General Fund to help support County operations prior to property tax collections. The amount of the loan was \$15 million and the entire loan was repaid in November 2009.

C. Commitments and contingent liabilities

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

The County is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, in the opinion of the County's legal counsel the resolution of these matters will not have a material adverse effect on the financial condition of the County.

The following is a schedule by years of future minimum rental payments required under operating leases for certain land, buildings and equipment used in governmental operations that have initial or remaining noncancelable lease terms in excess of one year as of June 30, 2009.

<u>Year ended June 30</u>	
2010	4,120
2011	3,475
2012	3,421
2013	3,375
2014	3,444
2015 – 2019	6,609
2020 – 2024	85
2025	4
Total minimum payments	<u>\$ 24,533</u>

The County recorded \$3,590 in rent expense for the year ended June 30, 2009.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

D. Post employment benefits other than pensions

Plan description. The County administers a single-employer defined benefit healthcare plan per the requirements of collective bargaining agreements. The plan provides postretirement healthcare insurance for eligible retirees and their spouses through the County's group health insurance plans, which cover both active and retired participants. Benefit provisions are established through negotiations between the County and representatives of collective bargaining units. The County's post employment medical plan does not issue a publicly available financial report. The County implemented GASB Statement No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions* for fiscal year ending June 30, 2006.

Funding policy. The County has not established a trust fund to supplement the costs for the net OPEB obligation. Contribution requirements also are negotiated between the County and union representatives. In general, the County pays 50% of the premiums of health care coverage for retirees from age 58 to age 65. The County's regular health care benefit providers underwrite the retirees' policies. Retirees may not convert the benefit into an in-lieu payment to secure coverage under independent plans. The County is contractually obligated by collective bargaining agreements to contribute 1.5% of annual covered payroll. At June 30, 2009, there were 585 retirees that were receiving the post employment healthcare benefit. The required contribution is based on projected pay-as-you-go financing requirements. For fiscal year 2009, the County contributed \$2,196 to the plan or approximately 38% of total premiums. Plan members receiving benefits contributed \$3,521 or approximately 62% of the total premiums during fiscal year 2009.

Annual OPEB cost and net OPEB obligation. The County's annual other postemployment benefit (OPEB) cost (expense) is calculated based on the *annual required contribution of the employer* (ARC), an amount actuarially determined in accordance with the guidance of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover normal costs each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The following table shows the components of the County's annual OPEB cost for the fiscal year ending June 30, 2009, the amount actually contributed to the plan, and changes in the County's net OPEB obligation:

Annual required contribution (ARC)	\$ 11,664
Interest on net OPEB obligation	3,156
Adjustment to annual required contribution	<u>(2,588)</u>
Annual OPEB cost (expense)	12,232
Contributions made	<u>(2,195)</u>
Increase in net OPEB obligation	10,037
Net OPEB obligation - beginning of year	<u>70,136</u>
Net OPEB obligation - end of year	<u>\$ 80,173</u>

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

The County's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2009 and the three preceding years were as follows:

Fiscal Year Ended	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/06	\$ 12,716	16%	\$ 44,742
6/30/07	15,083	12%	57,990
6/30/08	14,902	18%	70,136
6/30/09	12,232	18%	80,172

Funded status and funding progress. As of the most recent actuarial report, January 1, 2009, the actuarial accrued liability for benefits was \$122,605, and the actuarial value of assets was \$0, resulting in an unfunded actuarial accrued liability (UAAL) of \$122,605. The covered payroll (annual payroll of active employees covered by the plan) was \$263,380 for fiscal year 2009 and the ratio of the UAAL to the covered payroll was 47%.

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial methods and assumptions. Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of each valuation and historical pattern of sharing of benefit costs between the employer and the plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

In the most recently conducted, actuarial valuation (as of January 1, 2009), the unit credit method actuarial cost method was used. This method attempts to track the actual economic pattern of benefit accrual over an employee's working lifetime. The discount rate is selected based on historical and expected returns on the County's short-term investment portfolio. A discount rate of 4.5% was used in the most recent actuarial valuation for the closed period. The report states health care costs rates are trending

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

down from 9.0% in 2009 to 7.3% in 2015 for the major medical component, which is representative for the overall plan. Both rates include a 2.5% inflation rate assumption. The County's unfunded actuarial accrued liability is re-determined each valuation and amortized over a 30 year period as a level percentage of payroll. The remaining amortization period at June 30, 2009 is 30 years.

E. Employee retirement systems, pension plans and deferred compensation plan

Pension plans

The County participates in the Oregon Public Employees Retirement System, a cost-sharing multiple-employer defined benefit public employee pension plan that covers substantially all employees and maintains a defined contribution plan for substantially all County employees for the purpose of individual retirement savings.

Oregon Public Employees Retirement System (PERS)

Plan description. The County participates in PERS, a cost-sharing, multiple-employer defined benefit pension plan administered by the PERS Pension board. PERS provides retirement, disability, and death benefits to plan members and their beneficiaries. State statutes authorize the State to establish and amend all plan provisions. PERS issues a publicly available financial report that includes financial statements and required supplementary information. The reports may be obtained by writing:

PERS
PO Box 23700
Tigard, OR 97281-3700

Summary of significant accounting policies – basis of accounting and valuation of investments. The financial statements of PERS are prepared using the accrual basis of accounting. Plan member contributions are recognized in the period in which contributions are due. The County's contributions are recognized when due and a formal commitment to provide the contributions has been made. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan. All plan investments are reported at fair market value.

Funding policy. The contribution requirements of the County are established and may be amended by the State. The County is contractually obligated by collective bargaining agreements to pay the required employee contribution of 6.0% of annual covered payroll. The County is also required to contribute at an actuarially determined rate; the current rate is 11.05% of annual covered payroll. In addition to the funding requirements, the County also charges an internal rate of 6.75% of payroll to departments to fund the repayment of the pension obligation bonds issued in 1999.

MULTNOMAH COUNTY, OREGON
NOTES TO BASIC FINANCIAL STATEMENTS
June 30, 2009
(dollar amounts expressed in thousands)

Annual pension cost. For 2009, the County's annual pension cost of \$42,368 for PERS was equal to the County's required and actual contributions. The required contribution was determined as part of the December 31, 2008 actuarial valuation using the projected unit credit actuarial cost method. This actuarial valuation is the most recent available at the time of printing this report. The actuarial assumptions included (a) 8.0% investment rate of return (net of administrative expenses), (b) projected salary increases due to inflation of 2.75% per year, (c) projected wage growth, excluding seniority / merit raises, of 3.75% per year and (d) trending healthcare costs from 7.0% in 2009 to 4.5% in 2029. The actuarial value of assets was determined using techniques that smooth the effects of short-term volatility in the market value of investments over a five-year period. The County's unfunded actuarial accrued liability is being amortized using the closed group fixed term method. The remaining amortization period at December 31, 2008, was 20 years.

Three Year Trend Information for PERS

Fiscal Year Ended	Annual Pension Cost (APC)	Percentage of APC Contributed	Net Pension Obligation
6/30/07	\$ 42,557	100%	\$ -
6/30/08	39,337	100%	-
6/30/09	42,368	100%	-

Deferred Compensation Plan

Plan description. The County offers employees a deferred compensation plan (the Plan) administered by the County. The Plan is a defined contribution plan created in accordance with Internal Revenue Code Section 457. The Plan is available to all represented and non-represented County employees, and permits them to defer a portion of their salary until future years. Amounts deferred are not available to employees until termination, retirement, death, or unforeseeable emergency. All assets and income of the Plan are held in trust for the exclusive benefit of the participants and their beneficiaries. No Plan assets have been used for purposes other than the payment of benefits.

At June 30, 2009, the amount deferred and investment earnings thereon, adjusted to fair market value, amount to \$145,808. The amounts accumulated under the Plan including investment earnings, are excluded from the financial statements of the County.

NONMAJOR SPECIAL REVENUE FUNDS

These funds account for revenue derived from specific taxes or other earmarked revenue sources, including state gas tax, grants, and charges for services which are legally restricted to finance particular functions or activities. When a special revenue fund is not an operating fund, transfers are made from the special revenue fund to the operating funds authorized to make the expenditures. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- **Strategic Investment Program Fund** - accounts primarily for monies received from corporations receiving property tax abatements and paying fees for specific purposes as a part of the reduced tax agreement to be used for community service.
- **Road Fund** - accounts for revenues primarily from State motor vehicle fees and County gasoline taxes. Expenditures consist of construction, repair, maintenance, and operation of County highways and roads.
- **Emergency Communications Fund** - accounts for monies received from the State which are designated for an emergency communication network in conjunction with the City of Portland.
- **Bicycle Path Construction Fund** - accounts for revenue and expenditures for bicycle paths. Revenue is one percent of State motor vehicle fees.
- **Recreation Fund** - accounts for State revenues and the pass through disbursements to Metro for the operation of parks.
- **County School Fund** - accounts for forest reserve yield revenues from the State of Oregon which are apportioned to the County school districts.
- **Tax Title Land Sales Fund** - accounts for the receipt and sale of real property foreclosed upon by the County because of unpaid property taxes. Proceeds are subsequently distributed to all taxing districts.
- **Animal Control Fund** - accounts for revenues from dog and cat licenses, control fees and transfers to the General Fund which are utilized for animal control activities.
- **Willamette River Bridges Fund** - accounts for capital grants and contributions for County bridges, motor vehicle fees, and gasoline tax proceeds transferred from the Road Fund for bridge inspections and maintenance.
- **Library Fund** - accounts for the public library operations.
- **Special Excise Tax Fund** - accounts for a transient lodging tax and motor vehicle tax collection to be used for convention center expenditures.
- **Land Corner Preservation Fund** - accounts for the collection of fees on all recordings of real property transactions and surveying activity. The fund makes expenditures to maintain public land corners.
- **Inmate Welfare Fund** - accounts for the proceeds from the sale of commissary items. Expenditures are made for supplies for inmates in County jails.
- **Justice Services Special Operations Fund** - accounts for revenues and expenditures dedicated to justice services in the community justice department, district attorney's office, and sheriff's office.
- **General Reserve Fund** - accounts for a reserve maintained separate from the General Fund at approximately 5% of the total budgeted revenues of the General Fund, to be used only for extreme emergencies related to disaster relief or public life and safety issues.

DEBT SERVICE FUNDS

These funds account for the retirement of general obligation bonds, certificates of participation (capitalized leases) and other lease-purchase arrangements. The modified accrual basis of accounting is used. Funds included are:

Major Fund

- **PERS Pension Bond Fund** – accounts for payment of principal and interest payments on pension obligation bonds that were issued to fund the County’s PERS unfunded liability. Revenues consist of charges to departments and interest.

Nonmajor Funds

- **Revenue Bond Fund** – accounts for payment of principal and interest on bonds to be issued to construct various facilities. The revenues are derived from the lease payments on the facilities and interest.
- **Capital Debt Retirement Fund** – accounts for lease-purchase and full faith and credit principal and interest payments for buildings and major pieces of equipment acquired by the issuance of certificates of participation, lease-purchase arrangements and full faith and credit bonds. Revenues consist of certificates of participation proceeds, bond proceeds, service reimbursements and cash transfers from other County funds.
- **General Obligation Bond Fund** – accounts for payment of principal and interest on general obligation bonds. Revenue is derived from property taxes and interest.

NONMAJOR CAPITAL PROJECTS FUNDS

These funds account for expenditures on major construction projects, proceeds from certificates of participation issued to finance capital acquisitions, proceeds from the sale of County property, revenue bond proceeds and library and public safety general obligation bond proceeds. The modified accrual basis of accounting is used to record revenues and expenditures. Funds included are:

- **Justice Bond Project Fund** – accounts for projects to expand Inverness Jail, construct new jail facilities, upgrade other jail facilities and pay for data processing linkages in the Corrections system.
- **Financed Projects Fund** - accounts for purchases and construction of capital acquisition by entering into lease/purchase agreements.
- **Capital Improvement Fund** - accounts for the proceeds from the sale of County property and expenditures made to improve County property.
- **Capital Acquisition Fund** - accounts for purchase of personal computers and capital purchases with economic payoffs of less than five years.
- **Asset Preservation Fund** – accounts for the expenditures for building scheduled maintenance projects such as boiler replacement, carpet replacement, roof replacement, etc. Resources are derived from an asset preservation fee that is part of the facilities charges assessed to building tenants.

INTERNAL SERVICE FUNDS

These funds account for activities and services performed primarily for other organizational units within the County. Charges to the County agencies are calculated to recover costs and maintain capital. The County accounts for certain expenditures of the Internal Service Funds for budgetary purposes on the modified accrual basis of accounting. For financial reporting purposes the accrual basis of accounting is used. Such differences relate primarily to the methods of accounting for depreciation and capital outlay. Funds included are:

- **Risk Management Fund** - accounts for the County's risk management activities including insurance coverage.
- **Fleet Management Fund** - accounts for the County's motor vehicle fleet operations and electronics.
- **Information Technology Fund** - accounts for the County's data processing and telephone service operations.
- **Mail / Distribution Fund** - accounts for the County's mail / distribution, central stores and records management operations.
- **Facilities Management Fund** - accounts for the management of all County owned and leased property.

AGENCY FUNDS

These funds account for resources received and held by the County in a purely custodial capacity. Disbursements from these funds are made in accordance with the trust agreement or applicable legislative enactment for each particular fund. The modified accrual basis of accounting is used to record transactions in the agency funds. The funds included are:

- **Sundry Taxing Bodies Fund** – accounts for the collection of property taxes for all governmental entities located in Multnomah County and the disbursement of the collections to such entities.
- **Department and Offices Agency Fund** – accounts for the collection and disbursement of various monies held by Multnomah County in a fiduciary capacity.
- **Public Guardian Fund** – accounts for receipts and disbursements for individuals who are not capable of handling their own financial affairs.
- **Visitors' Facilities Trust Fund** – accounts for collection and disbursement of Motor Vehicle Rental Tax and Transient Lodging Tax used for visitor facilities.

**STATISTICAL INFORMATION SECTION
(UNAUDITED)**

This part of Multnomah County's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the County's overall financial health. This section contains the following tables and information:

- **Financial Trends** - These schedules contain trend information to help the reader understand how the county's financial performance and well-being have changed over time.
- **Revenue Capacity** - These schedules contain information to help the reader assess the County's most significant local revenue sources: personal income tax, property tax, and business income tax.
- **Debt Capacity** - These schedules present information to help the reader assess the affordability of the County's current levels of outstanding debt and the County's ability to issue additional debt in the future.
- **Economic and Demographic Information** - These schedules offer economic and demographic indicators to help the reader understand the environment within which the County's financial activities take place.
- **Operating Information** - These schedules contain service and infrastructure data to help the reader understand how the information in the County's financial report relates to the services the County provides and the activities it performs.

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial report for the relevant year. Note that the County implemented Governmental Accounting Standards Board Statement No. 34 in 2002; therefore schedules presenting government-wide information include only information beginning in that fiscal year and going forward.

**REPORTS OF INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS
REQUIRED BY STATE STATUTES**

- Report of Independent Certified Public Accountants on the County's Compliance and on Internal Control Over Financial Reporting Based on an Audit of Basic Financial Statements Performed in Accordance with Oregon Auditing Standards

**INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE AND
ON INTERNAL CONTROL OVER FINANCIAL REPORTING
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH OREGON AUDITING STANDARDS**

Board of Commissioners
Multnomah County, Oregon

We have audited the basic financial statements of Multnomah County, Oregon as of and for the year ended June 30, 2009 and have issued our report thereon dated November 24, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the provisions of the Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the basic financial statements are free of material misstatement.

Compliance

As part of obtaining reasonable assurance about whether the County's basic financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, grants, including provisions of Oregon Revised Statutes as specified in Oregon Administrative Rules OAR 162-10-000 to 162-10-330, as set forth below, noncompliance with which could have a direct and material effect on the determination of financial statement amounts:

- The accounting records and related internal control structure.
- The amount and adequacy of collateral pledged by depositories to secure the deposit of public funds.
- The requirements relating to debt.
- The requirements relating to the preparation, adoption and execution of the annual budgets for fiscal years 2009 and 2010.
- The requirements relating to insurance and fidelity bond coverage.
- The appropriate laws, rules and regulations pertaining to programs funded wholly or partially by other governmental agencies.
- The requirements pertaining to the use of revenue from taxes on motor vehicle use fuel funds.
- The statutory requirements pertaining to the investment of public funds.
- The requirements pertaining to the awarding of public contracts and the construction of public improvements.

However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our test disclosed no instances of noncompliance that are required to be reported under Minimum Standards for Audits of Oregon Municipal Corporations, prescribed by the Secretary of State, except those noted below.

Excess of Expenditures over Appropriations

As described in Note 2, *Stewardship, compliance, and accountability*, the results of testing indicated three instances of non-compliance related to excess expenditures over appropriations.

Internal Control Over Financial Reporting

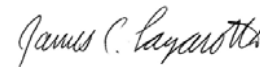

In planning and performing our audit, we considered the County's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over financial reporting.

A control deficiency exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A significant deficiency is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the entity's financial statements that is more than inconsequential will not be prevented or detected by the entity's internal control.

A material weakness is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the entity's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

This report is intended solely for the information of the County Commissioners, management, and federal and state awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than those specified parties.

Appendix C

Book Entry Only System

(This page left blank intentionally)

**SAMPLE OFFERING DOCUMENT LANGUAGE
DESCRIBING BOOK-ENTRY-ONLY ISSUANCE**

(Prepared by DTC--bracketed material may apply only to certain issues)

1. The Depository Trust Company ("DTC"), New York, NY, will act as securities depository for the securities (the "Securities"). The Securities will be issued as fully-registered securities registered in the name of Cede & Co. (DTC's partnership nominee) or such other name as may be requested by an authorized representative of DTC. One fully-registered Security certificate will be issued for [each issue of] the Securities, [each] in the aggregate principal amount of such issue, and will be deposited with DTC. [If, however, the aggregate principal amount of [any] issue exceeds \$500 million, one certificate will be issued with respect to each \$500 million of principal amount, and an additional certificate will be issued with respect to any remaining principal amount of such issue.]

2. DTC, the world's largest securities depository, is a limited-purpose trust company organized under the New York Banking Law, a "banking organization" within the meaning of the New York Banking Law, a member of the Federal Reserve System, a "clearing corporation" within the meaning of the New York Uniform Commercial Code, and a "clearing agency" registered pursuant to the provisions of Section 17A of the Securities Exchange Act of 1934. DTC holds and provides asset servicing for over 3.5 million issues of U.S. and non-U.S. equity issues, corporate and municipal debt issues, and money market instruments (from over 100 countries) that DTC's participants ("Direct Participants") deposit with DTC. DTC also facilitates the post-trade settlement among Direct Participants of sales and other securities transactions in deposited securities, through electronic computerized book-entry transfers and pledges between Direct Participants' accounts. This eliminates the need for physical movement of securities certificates. Direct Participants include both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, clearing corporations, and certain other organizations. DTC is a wholly-owned subsidiary of The Depository Trust & Clearing Corporation ("DTCC"). DTCC is the holding company for DTC, National Securities Clearing Corporation and Fixed Income Clearing Corporation, all of which are registered clearing agencies. DTCC is owned by the users of its regulated subsidiaries. Access to the DTC system is also available to others such as both U.S. and non-U.S. securities brokers and dealers, banks, trust companies, and clearing corporations that clear through or maintain a custodial relationship with a Direct Participant, either directly or indirectly ("Indirect Participants"). DTC has Standard & Poor's highest rating: AAA. The DTC Rules applicable to its Participants are on file with the Securities and Exchange Commission. More information about DTC can be found at www.dtcc.com and www.dtc.org.

3. Purchases of Securities under the DTC system must be made by or through Direct Participants, which will receive a credit for the Securities on DTC's records. The ownership interest of each actual purchaser of each Security ("Beneficial Owner") is in turn to be recorded on the Direct and Indirect Participants' records. Beneficial Owners will not receive written confirmation from DTC of their purchase. Beneficial Owners are, however, expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the Direct or Indirect Participant through which the Beneficial Owner entered into the transaction. Transfers of ownership interests in the Securities are to be accomplished by entries made on the books of Direct and Indirect Participants acting on behalf of Beneficial Owners. Beneficial Owners will not receive certificates representing their ownership interests in Securities, except in the event that use of the book-entry system for the Securities is discontinued.

4. To facilitate subsequent transfers, all Securities deposited by Direct Participants with DTC are registered in the name of DTC's partnership nominee, Cede & Co., or such other name as may be requested by an authorized representative of DTC. The deposit of Securities with DTC and their registration in the name of Cede & Co. or such other DTC nominee do not effect any change in beneficial ownership. DTC has no knowledge of the actual Beneficial Owners of the Securities; DTC's records reflect only the identity of the Direct Participants to whose accounts such Securities are credited, which may or may not be the Beneficial Owners. The Direct and Indirect Participants will remain responsible for keeping account of their holdings on behalf of their customers.

5. Conveyance of notices and other communications by DTC to Direct Participants, by Direct Participants to Indirect Participants, and by Direct Participants and Indirect Participants to Beneficial Owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time. [Beneficial Owners of Securities may wish to take certain steps to augment the transmission to them of notices of significant events with respect to the Securities, such as redemptions, tenders, defaults, and proposed amendments to the Security documents. For example, Beneficial Owners of Securities may wish to ascertain that the nominee holding the Securities for their benefit has agreed to obtain and transmit notices to Beneficial Owners. In the alternative, Beneficial Owners may wish to provide their names and addresses to the registrar and request that copies of notices be provided directly to them.]

[6. Redemption notices shall be sent to DTC. If less than all of the Securities within an issue are being redeemed, DTC's practice is to determine by lot the amount of the interest of each Direct Participant in such issue to be redeemed.]

7. Neither DTC nor Cede & Co. (nor any other DTC nominee) will consent or vote with respect to Securities unless authorized by a Direct Participant in accordance with DTC's MMI Procedures. Under its usual procedures, DTC mails an Omnibus Proxy to Issuer as soon as possible after the record date. The Omnibus Proxy assigns Cede & Co.'s consenting or voting rights to those Direct Participants to whose accounts Securities are credited on the record date (identified in a listing attached to the Omnibus Proxy).

8. Redemption proceeds, distributions, and dividend payments on the Securities will be made to Cede & Co., or such other nominee as may be requested by an authorized representative of DTC. DTC's practice is to credit Direct Participants' accounts upon DTC's receipt of funds and corresponding detail information from Issuer or Agent, on payable date in accordance with their respective holdings shown on DTC's records. Payments by Participants to Beneficial Owners will be governed by standing instructions and customary practices, as is the case with securities held for the accounts of customers in bearer form or registered in "street name," and will be the responsibility of such Participant and not of DTC, Agent, or Issuer, subject to any statutory or regulatory requirements as may be in effect from time to time. Payment of redemption proceeds, distributions, and dividend payments to Cede & Co. (or such other nominee as may be requested by an authorized representative of DTC) is the responsibility of Issuer or Agent, disbursement of such payments to Direct Participants will be the responsibility of DTC, and disbursement of such payments to the Beneficial Owners will be the responsibility of Direct and Indirect Participants.

[9. A Beneficial Owner shall give notice to elect to have its Securities purchased or tendered, through its Participant, to [Tender/Remarketing] Agent, and shall effect delivery of such Securities by causing the Direct Participant to transfer the Participant's interest in the Securities, on DTC's records, to [Tender/Remarketing] Agent. The requirement for physical delivery of Securities in connection with an optional tender or a mandatory purchase will be deemed satisfied when the ownership rights in the Securities are transferred by Direct Participants on DTC's records and followed by a book-entry credit of tendered Securities to [Tender/Remarketing] Agent's DTC account.]

10. DTC may discontinue providing its services as depository with respect to the Securities at any time by giving reasonable notice to Issuer or Agent. Under such circumstances, in the event that a successor depository is not obtained, Security certificates are required to be printed and delivered.

11. Issuer may decide to discontinue use of the system of book-entry-only transfers through DTC (or a successor securities depository). In that event, Security certificates will be printed and delivered to DTC.

12. The information in this section concerning DTC and DTC's book-entry system has been obtained from sources that Issuer believes to be reliable, but Issuer takes no responsibility for the accuracy thereof.

Appendix D

Form of Continuing Disclosure Certificate

(This page left blank intentionally)

FORM OF CONTINUING DISCLOSURE CERTIFICATE

This Continuing Disclosure Certificate (the "Certificate"), dated March 31, 2010 is executed and delivered by Multnomah County, Oregon (the "Issuer") in connection with the execution and delivery of the Issuer's \$45,175,000 aggregate principal amount of General Obligation Refunding Bonds, Series 2010 (the "Bonds"), which are dated March 31, 2010. The Bonds are authorized pursuant to a Resolution adopted by the governing body of the Issuer on February 18, 2010 (the "Resolution"). Capitalized terms used but not otherwise defined herein shall have the meanings assigned thereto in the Resolution. The Issuer covenants as follows:

Section 1. Purpose of Certificate. This Certificate is being executed and delivered by the Issuer for the benefit of registered and beneficial holders of the Bonds and to assist the Underwriter in complying with paragraph (b)(5) of Securities and Exchange Commission (the "SEC") Rule 15c2-12 (17 C.F.R. § 240.15c2-12) (the "Rule").

Section 2. Issuer's Representation Regarding Outstanding Municipal Securities. The Issuer, as the "obligated person", hereby agrees to provide or cause to be provided at least annually to the Municipal Securities Rulemaking Board (the "MSRB"), the financial information regarding the Issuer of the type set forth in the final official statement dated March 16, 2010 (the "Official Statement") under the following tables:

Outstanding Long-Term Debt

Taxable Property Values**

Tax Collection Record

Major Taxpayers**

General Fund Balance Sheet **

General Fund Statement of Revenues, Expenditures and Changes in Fund Balance**

**Current (preceding fiscal year): no historical information will be provided

The annual financial information described above will be available no later than 270 days after the end of the preceding fiscal year, beginning with the Issuer's fiscal year ending June 30, 2010. Such information will include audited financial statements prepared in accordance with the laws of the State of Oregon as in effect from time to time; provided, however, that if audited financial statements are not available within 270 days after the end of the preceding fiscal year, unaudited financial statements will be provided with audited financial statements to follow when available.

Certain items of annual financial information may be provided by way of cross-reference to other documents previously provided to the MSRB.

Section 3. Material Events. The Issuer agrees to provide or cause to be provided, in a timely manner, to the MSRB, notice of the occurrence of any of the following events with respect to the Bonds, if material:

- a. principal and interest payment delinquencies;
- b. non-payment related defaults;
- c. unscheduled draws on debt service reserves reflecting financial difficulties;

- d. unscheduled draws on credit enhancements reflecting financial difficulties;
- e. substitution of credit or liquidity providers, or their failure to perform;
- f. adverse tax opinions or events affecting the tax-exempt status of the Bonds;
- g. modifications to rights of holders of the Bonds;
- h. Bond calls (except for mandatory, scheduled redemptions whose terms are set forth in detail in the Official Statement);
- i. defeasances;
- j. release, substitution, or sale of property securing repayment of the Bonds; and
- k. rating changes.

The Issuer may from time to time choose to provide notice of the occurrence of certain other events, in addition to those listed above, if, in the judgment of the Issuer, such other event is material with respect to the Bonds, but the Issuer does not undertake any commitment to provide such notice of any event except those events listed above.

Section 4. Failure to File Annual Financial Information. The Issuer agrees to provide or cause to be provided, in a timely manner, to the MSRB, notice of a failure by the Issuer to provide the annual financial information described in Section 2 herein on or prior to the time set forth in Section 2 herein.

Section 5. Dissemination Agent. The Issuer may, from time to time, engage or appoint an agent to assist the Issuer in disseminating information hereunder (the “Dissemination Agent”). The Issuer may discharge any Dissemination Agent with or without appointing a successor Dissemination Agent.

Section 6. Termination of Bonds. Pursuant to paragraph (b)(5)(iii) of the Rule, the Issuer’s obligation to provide annual financial information and notice of material events, as set forth above, shall terminate if and when the Issuer no longer remains an obligated person with respect to the Bonds, which shall occur upon either redemption in full of the Bonds, or legal defeasance of the Bonds. In addition, and notwithstanding the provisions of Section 8 herein, the Issuer may rescind its obligations under this Certificate, in whole or in part, if (i) the Issuer obtains an opinion of nationally recognized special counsel that those portions of the Rule that required the execution and delivery of this Certificate are invalid, have been repealed, or otherwise do not apply to the Bonds, and (ii) the Issuer notifies and provides to the MSRB, a copy of such legal opinion.

Section 7. Enforceability and Remedies. The Issuer agrees that this Certificate is intended to be for the benefit of registered and beneficial holders of the Bonds and shall be enforceable by or on behalf of any such holder; provided that, the right of any holder of a Bond to challenge the adequacy of the information furnished hereunder shall be limited to an action by or on behalf of holders of the Bonds representing at least twenty-five percent (25%) of the aggregate outstanding principal amount of Bonds. Any failure by the Issuer to comply with the provisions of this undertaking shall not be an Event of Default under the obligation documents. This Certificate confers no rights on any person or entity other than the Issuer, holders of the Bonds, and any Dissemination Agent.

Section 8. Amendment. The Issuer may amend this Certificate without the consent of holders of the Bonds under the following conditions:

a. The amendment may only be made in connection with a change in circumstances that arises from a change in legal requirements, change in law, or change in the identity, nature, or status of the obligated person or type of business conducted;

b. This Certificate, as amended, would have complied with the requirements of the Rule at the time of the primary offering, after taking into account any amendments or interpretations of the Rule, as well as any change in circumstances; and

c. The amendment (i) does not materially impair the interest of holders of the Bonds, as determined either by parties unaffiliated with the Issuer (such as nationally recognized special counsel), or (ii) is approved by holders of the Bonds in the same manner as provided in the obligation documents with the consent of holders of the Bonds.

The financial information provided pursuant to Section 2 hereof will explain, in narrative form, the reasons for any amendment and the impact of the change in the type of operating data or financial information being provided.

Section 9. Submitting Information Through EMMA. So long as the MSRB continues to approve the use of the Electronic Municipal Market Access (“EMMA”) continuing disclosure service, any information required to be provided to the MSRB under this Certificate may be provided through EMMA. As of the date of this Certificate, the web portal for EMMA is www.emma.msrb.org.

Section 10. Choice of Law. This Certificate shall be governed by and construed in accordance with the laws of the State of Oregon, provided that to the extent this Certificate addresses matters of federal securities laws, including the Rule, this Certificate shall be construed in accordance with such federal securities laws and official interpretations thereof.
