## INDIRECT COST RATES

## EXPLANATION OF THE INDIRECT COST RATES

The Federal government recognizes that County Organizations incur identifiable overhead costs in support of grants and contracts.

Costs are categorized in two ways. The first establishes support costs internal to individual departments within the County and the other identifies countywide support costs.

Departmental Indirect Cost Rates: Each department has a rate based on departmental administrative costs incurred within the organization. Only costs not charged directly to grants are included in the departmental rates.

Central Service Cost Allocation: The Central Service Cost Allocation Plan identifies and distributes the cost of services provided by County support organizations (i.e., Budget, Auditor) to those County departments (Health, Sheriff, etc.) awarded grants or contracts as a flat county-wide central service rate.

Combined Indirect Cost Rates: These are the indirect rates that each department may charge to grants.

## AUDITOR

## DESCRIPTION OF SERVICES

The Auditor conducts performance and fiscal audits in conformance with the US GAO Government Auditing Standards. The annual audit schedule is based upon a risk analysis of County services, with the majority of office resources focused on performance audits to increase efficiency, effectiveness, and accountability. Activities of the Auditor may include examination of expenditure reports for discrepancies or variances, reviews of internal controls, and testing transactions for compliance with state and federal regulations.

In keeping with the standards, the Auditor emphasizes a coordinated audit approach with the external auditors, and with state and federal agencies. County audits are complementary and never duplicate the audit efforts of the other organizations. The Auditor's efforts help insure that County financial and administrative policies are being followed throughout the organization, including federal programs and are, therefore, deemed allowable.

Normal costs of County government have been eliminated from the allocation.

## HUMAN RESOURCES

## DESCRIPTION OF SERVICES

The Human Resources Division is responsible for classification of County positions, overall County personnel policy administration, and maintenance of personnel records. Affirmative Action assures that Multnomah County conforms to regulatory requirements for monitoring, reporting, planning and implementing programs and strategies that provide creative solutions to workforce and service program diversity. The Labor Relations Division is responsible for negotiating and administering labor contracts, representing the County in civil service hearings and advising managers on disciplinary action.

Human Resources utilizes various communication media to advertise for suitable candidates, in addition to directly contacting prospective candidates. Examinations are conducted, administered, and scored by Human Resources. Reliability and validation studies of tests are undertaken regularly.

Human Resources classifies all job positions in the County as to educational and experience requirements together with on-job performance duties and maintains personnel history records reflecting data pertaining to employees' work.

The Affirmative Action program helps assure compliance with various equal opportunity laws. The need for such services has increased due to new federal regulations, equal opportunity and ADA requirements contained in federal grant regulations and ongoing interpretation of regulatory requirements.

Labor Relations directly benefits grant programs through its work with employees and managers within those programs.

The variety of personnel services performed by Human Resources, Affirmative Action, and Labor Relations are judged allowable since the services benefit all organizations of the County. They benefit federal programs to the extent that County employees are used to carry out program activities.
