* **Case Management** is defined as a method of providing services and a collaborative relationship between a service provider and a participant. The functions of participant-centered case management include:

- Assessing strengths and needs
- Developing individualized action plans
- Coordinating all agencies, providers, and resources involved in the plan
- Monitoring, revising, following-up on, and evaluating action plans (as appropriate)
- Documenting contacts and services
- Advocating for organizational, community, and institutional responsiveness
- Using required knowledge of and access to resources in delivering direct services and client assistance funds (as available)
- Motivating, supporting, and mentoring individuals to maximize potential of achieving action plan goals and possibility for engaging in the larger community
- Looking beyond individual action plans to wider trends for the purpose of evaluating and refining the service system
- Seizing opportunities to influence social change
- Following-up after service completion (as necessary)
