

# April Open Houses

## Multnomah County Land Use and Transportation

*Does your project need a permit?*

*Are new roads being planned near where you live?*

*What are the types of code compliance cases in your area?*

Come find out at one of our four upcoming open houses planned this spring! These are informal events where residents of rural areas in Multnomah County can ask questions and gather information.

Multnomah County Land Use and Transportation staff will be available at four open houses in April, for informal questions and answers on the county's land use and transportation programs. Topics may include allowed property uses, code compliance, long range planning, and road and transportation projects and needs.
