

**Division:** System Support, Access, & Coordination

**Program Characteristics:**

**Program Description**

The Data and Research team analyzes system-wide information to track program performance and ensure public funds are used effectively. By maintaining dynamic dashboards and producing regular performance reports, the team provides the transparency necessary for leaders and the community to make informed policy and budget decisions. A central priority of this work is monitoring racial equity and identifying disparities to ensure services reach those who need them most.

In addition to these analytic tools, the team leads the annual Point-in-Time Count and manages reporting for the Homelessness Response Action Plan. They also facilitate specialized research partnerships with health care providers and other agencies to improve care for individuals who frequently cycle through emergency systems. Through these efforts, the team translates complex data into clear, community-informed strategies to end homelessness.

**Equity Statement**

Staff maintain compliance and apply the County's core values of equity and inclusion. This program addresses inequities by ensuring demographic information is integrated into all analysis, allowing for equity to be considered in program performance and for ongoing monitoring of disparities. By integrating the Racial Equity Lens Tool (RELT), this team ensures that equity is embedded into all new program data collection processes.
