Program Description

The U.S. Department of Housing and Urban Development (HUD) requires all recipients of Continuum of Care (CoC) funding to have a Homeless Management Information System (HMIS). All recipients of CoC funding are required to record data related to certain system performance measures in HMIS, so that the outputs and outcomes of those investments can be reported on at the system level.

Multnomah, Clackamas and Washington Counties have agreed to a tri-county HMIS implementation led by Multnomah County. This will allow local oversight over data collection and reporting standards, and help ensure alignment with emerging regional and local metrics. In FY 2026, all three Counties are partnering to procure a new HMIS system, a key aspect of ongoing data modernization efforts within the HSD.

Federal grant funds cover a portion of the costs associated with HMIS, including licensing, professional services, and conference attendance.

This program also supports the administration of HMIS and the development and maintenance of infrastructure supported by the Department of County Assets (DCA). This includes the secure transmission of data and the build and maintenance of a data mart. This effort will increase the ability to provide useful analytics to internal, cross-department, external partners, and to the tri-county community at large. This program offer also supports the development of technology-based modules that will support increased program coordination across systems.
