Program Characteristics: One-Time-Only Request

Program Description

The Department of County Assets Information Technology (IT) Division provides overall support for the Homeless Management Information System (HMIS) software, infrastructure, and integrated technologies for the Tri-Counties (Multnomah, Clackamas, and Washington). Through a contractual agreement between the three Counties, Multnomah County IT staffs the Primary System Administrator role which ensures overall HMIS system integrity. Program staff lead projects, changes, system evaluation, security, and governance.

The Senior Business Intelligence Development Analyst position supports the long term need to enhance the reporting and analytics infrastructure of the department, which includes extracting data from the HMIS, building supporting databases, and enabling the integration of data with other systems of care such as Behavioral and physical health. This position also supports the data mart infrastructure that allows greater analytics and reporting capabilities. Staff provide the technical coding, development, design and support to the cloud infrastructure. This effort will increase the ability to provide useful analytics to internal, cross-department, external partners, and to the tri-county community at large.
