

**Division:** Safety off and on the Streets

**Program Characteristics:**

**Program Description**

Alternative shelters provide a safe environment for individuals who may not be able to access or thrive in traditional, large-scale facilities. These programs generally use a "village" model with individual shelter units (such as pods) instead of shared dormitories or motels.

All sites are designed to be low-barrier, focusing on the immediate health and safety of participants. To ensure effective support, every location provides trauma-informed and culturally responsive services.

**Equity Statement**

Achieving racial equity is a core goal. Programming is designed to end disparate rates of homelessness on the basis of race and ethnicity. Regardless of their size and configuration, all shelters must provide trauma-informed, racially equitable, and culturally responsive programming.
